

## Foreword from the BioApp project coordinator dr. Uroš Novak

*Planet or plastic?* 🌍

*We challenge you to start thinking outside of the (plastic) box, to search for alternatives, to change your mindset and find a new, better perspective. BioApp team is working on alternatives, which will help you make that switch. Join us at the event ["Planet or Plastic"](#) where we will present our zero-waste vision and products to support it. You can find more info below.*

*I hope you enjoy the 9th BioApp newsletter, which celebrates our new products, team members and newly established connections.*

### Don't miss our new video!

We have created a packaging which is as GREEN as it gets!

🌿 Plastic-free 🌿 Natural 🌿 Zero-waste 🌿 Reusable 🌿 Environment-friendly

What we filled it with is equally as exciting ... [Take a look!](#)

Hint: it is biopolymer-based, all-natural and highly effective. 🍷👕

### Catch us on the radio ...

Tune in this Saturday, 23.2. - [Radio Si](#) (Euranet)

### We are part of a success story!

Our involvement as a host in **Climate-KIC's professional mobility programme** *Pioneers into Practice 2018* resulted in a new employment. We are very happy to welcome our Estonian colleague on board!

Wanna be part of BioApp? We're hosting also in 2019, **go on and apply**, the [call is open](#) until 11. April.

### **"Transfer of Knowledge and Technology from Research to Industry"**

A consultation on the transfer of knowledge and technology from the research environment to industry in the field of bio-economy and the circular economy took place 20.11.2018. The purpose of the event was to present the activities of three Interreg projects in this field (all co-organizing the event) and to identify the challenges companies and research organizations are facing when transferring research into industry and commercializing in the field of bio-economy.

### **Workshop on "Sustainable resources for the Bioeconomy"**

We had a very productive brainstorming on 13. February on the topic of funding instruments, creating sustainable resources for the Bioeconomy and most importantly identifying synergies and common opportunities for cooperation between participants.

This event was one of many such events to come.

# Meet us at

- Kemijski inštitut, 12.03.2019 - 5pm at **"PLANET OR PLASTIC"** event, organized by [ITECH IAESTE](#) and [Kemijski inštitut](#) (BioApp). Register your attendance [here](#).

## Let's talk at
