- Why an employer should invest in cycling
- "Ons Brabant Fietst"
- How we approach employers
- Special attention employers around fast cycling routes
- Lessons

A few questions

- Where do you work?
 - Government
 - Consultancy agency
 - **Employer**
 - Interest organisation
- Who here has contact with employers about the stimulation of cycling?
- Who here aims for contact with employers?

Why would a Dutch employer invest in mobility?

Possibilities for stimulating cycling

- Parking and facilities: bicycle sheds, showers, charging facilities, e-bike trials
- Allowances and regulations: kilometre-allowance, cashback on purchase of a bicycle, lease-e-bike
- Facilities for business trips: pool e-bike, pool cars
- Communication and promotion: culture, earn your bicycle by cycling, 'pat on the back'

Why should we encourage employers?

- They don't know what they can earn / achieve
- They don't know how easy it is to take steps
- They don't know where to start
- They don't know how big the potential is
- It isn't part of their usual work

Employer approach in Noord-Brabant

Today's focus: Ons Brabant Fietst

Ambition of Noord-Brabant

To be the leading cycling province of the Netherlands in 2020

Findhoven krijat njeuwe

Werkgeversplatform helpt organisaties met het stimuleren van fietsen naar het werk Fietsende medewerkers leveren jou als werkgever vele voordelen op: ze zijn fit, minder ziek,

vragen weinig parkeerruimte en staan niet in de file. Je medewerkers stimuleren om zoveel

mogelijk te fietsen is dus slim. Maar hoe doe je dat, waar begin...

ONS

BRABANT

Samenwerking met NHTV, bmn, D&B, provincie

Contents platform: baseline measurement

2 goals:

 Provide insight for employers into the mobility behaviour of their employees: free baseline measurement to send out among employees.

Obtain insight into mobility behaviour of Brabant's commuters

Contents platform: inspirational conversation

BRABANT FIETST

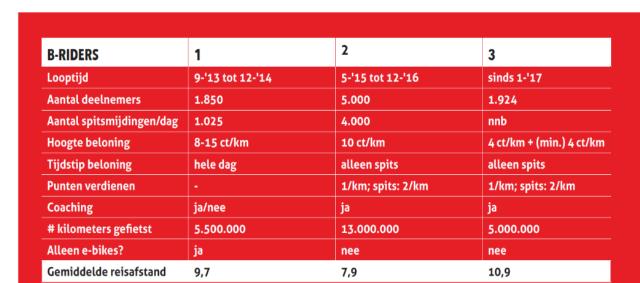

- Inventory: what do I do now?
- Inspire: what's possible?
- Funnel: what's useful for me?
- Guide: how do I do this?
- Connect: who else does this, where do I find examples, which supplier can help me?

Cooperate

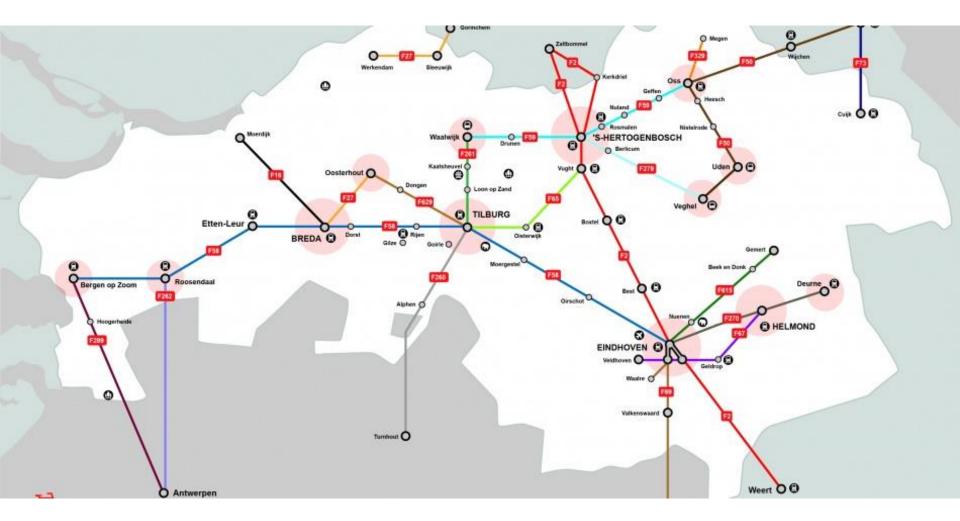

Special attention for employers around fast cycling routes

Goals employer approach fast cycle routes

 Motivate & activate employers around the fast cycle route to stimulate cycling among their employees

 Use knowledge on employees' travel behaviour for design and creation of fast cycle routes

 Increase employer's engagement with fast cycle routes

The start: administrative agreement

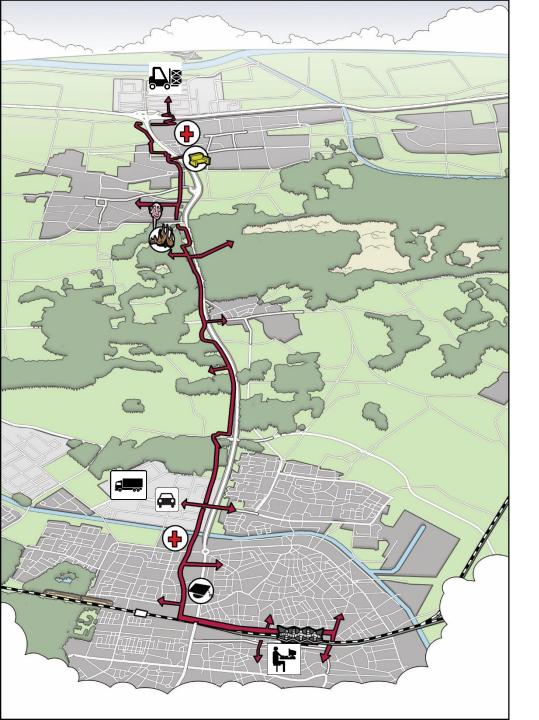

Contents bicycle stimulation plan

- 1. What goals do municipalities have and what target groups are central to their approach (WHY).
- 2. The way bicycle stimulation is shaped (HOW).
- 3. Specifically for the target group employers/employees (HOW):
 - 1. How municipalities involve employers in the development and promotion of fast cycle routes.
 - 2. How municipalities actively contact and make agreements with employers: stimulating and motivating them to improve bicycle stimulation policy and use of actions/measures.
 - 3. How municipalities actively use bicycle stimulation and concrete actions/measures in their own transport policy.
- 4. What actions/measures are initiated, when and by whom? Bicycle stimulation runs from the start of construction until well after the new route is finished.

Efforts Ons Brabant Fietst are made-to-measure

- Governments are not equipped for this role. Help the different officers
- 2. Governments are also an employer
- 3. Help make the bicycle stimulation plan
- 4. Bring employers and government together for building the bicycle stimulation plan
- 5. Contact employers, get them active, question the employers, consult them

Diversity companies around fast cycle routes

Lessons

- It's new for governments too: invest in knowledge
- Employers want guidelines and practical examples and insight into effects
- Connection is necessary! Take enough time, and don't require results tomorrow
- Continuity to really create meaningful relationships
- Invest in discovering needs
- Convey enthousiasm and pride onto the region / province
