HISTEK presented during EU Projects Fair held in Montenegro

The Chamber of Economy of Montenegro organized the EU Projects Fair on Saturday 29 May in Dvorac Petrovica in Podgorica. Members of our HISTEK project team were talking with the representatives of the business community and general population about the project and its benefits for the Montenegrin educational system. The Fair was opened by the President of the Chamber of Economy of Montenegro Mr. Vlastimir Golubovic, Montenegro's Chief Negotiator with the EU Mrs. Zorka Kordic and the Ambassador of the European Union to Montenegro H.E. Mrs. Oana-Cristina Popa.

HISTEK Steering Committee held online

The online meeting of HISTEK partners was held on 21 June. As HISTEK project was coming to an end on 30 June, this meeting served like a good opportunity for all project partners to discuss the final activities to be implemented until the project completion.

National Cluster Agreement on Cooperation in KETs signed in Montenegro

On June 22, 2021, in the premises of the Chamber of Economy of Montenegro the National Cluster Agreement on Cooperation in KETs (New Enabling Technologies) was signed among Montenegrin partners, as one of the results of the implementation of the HISTEK project. The signatories of the agreement are the Ministry of Education, Science, Culture and Sports, which is also the Lead Partner in the Project, the Chamber of Economy of Montenegro, the Center for Vocational Education, the Montenesoft Educational Center, the Liming Project Company, the OPEN DOORS Center for Foreign Languages and school “25th May”.

The objectives of the formation of the Cluster are to support the integration between the education, training and work systems, with special reference to the technical skills developed within the HISTEK project. The cluster will also address innovation and technology transfer among SMEs thus spreading technical and scientific culture and promoting the orientation of young people towards new enabling technical occupations, but also the establishment of transnational cooperation in the field of education between Italy-Albania-Montenegro.

HISTEK final conference

The project partners participated in the Final Conference of the HISTEK project, funded by the Interreg IPA CBC Italy-Albania-Montenegro Programme and targeted at the joint design between the 3 countries of a new short-cycle CB path, aimed at DEVELOPING AND ENHANCING the cross-border educational system focusing on new technological skills (KETs), to support the innovation processes of SMEs at the Cross Border level

During the event that was held on 29 June 2021, the main results achieved by the HISTEK Consortium were presented.
