PHASES

How do we improve regional mobility?

- 7 Thematic workshops
- 5 Study Visits
- 14 Best Practices shared

Where do we start from?

- Key Mobility indicators
- SWOT
- Best Practices

Getting ready for change!

7 Regional mobility plans created or improved

RESULTS

7 Policy Instruments influenced.

7 Regional Stakeholders Groups formally set up (around 140 stakeholders involved). 1 discussion group on sustainable mobility in each participating region.

7 regions with a regional mobility plan newly developed or improved.

14 Best Practices transferred at interregional level from among the 35 previously identified.

More than 300 people will increase their professional capacities due to their participation in the project activities.

Promoting sustainable mobility for a sustainable Europe
