

FIRST LNG STATION IN LITHUANIA

...ONLY REGASIFICATION SO FAR

VIDAS KORSAKAS

SG DUJOS GROUP

15-16 of May, 2019 Klaipėda LNG Forum

FIRST PERMANENT LNG STATION IN LITHUANIA

- Location: Viečiūnai (close to Druskininkai, Belarussian and Polish borders)
- Capacity: 60 tones of LNG, Supply: minimum 250 m³/h (extreme conditions)

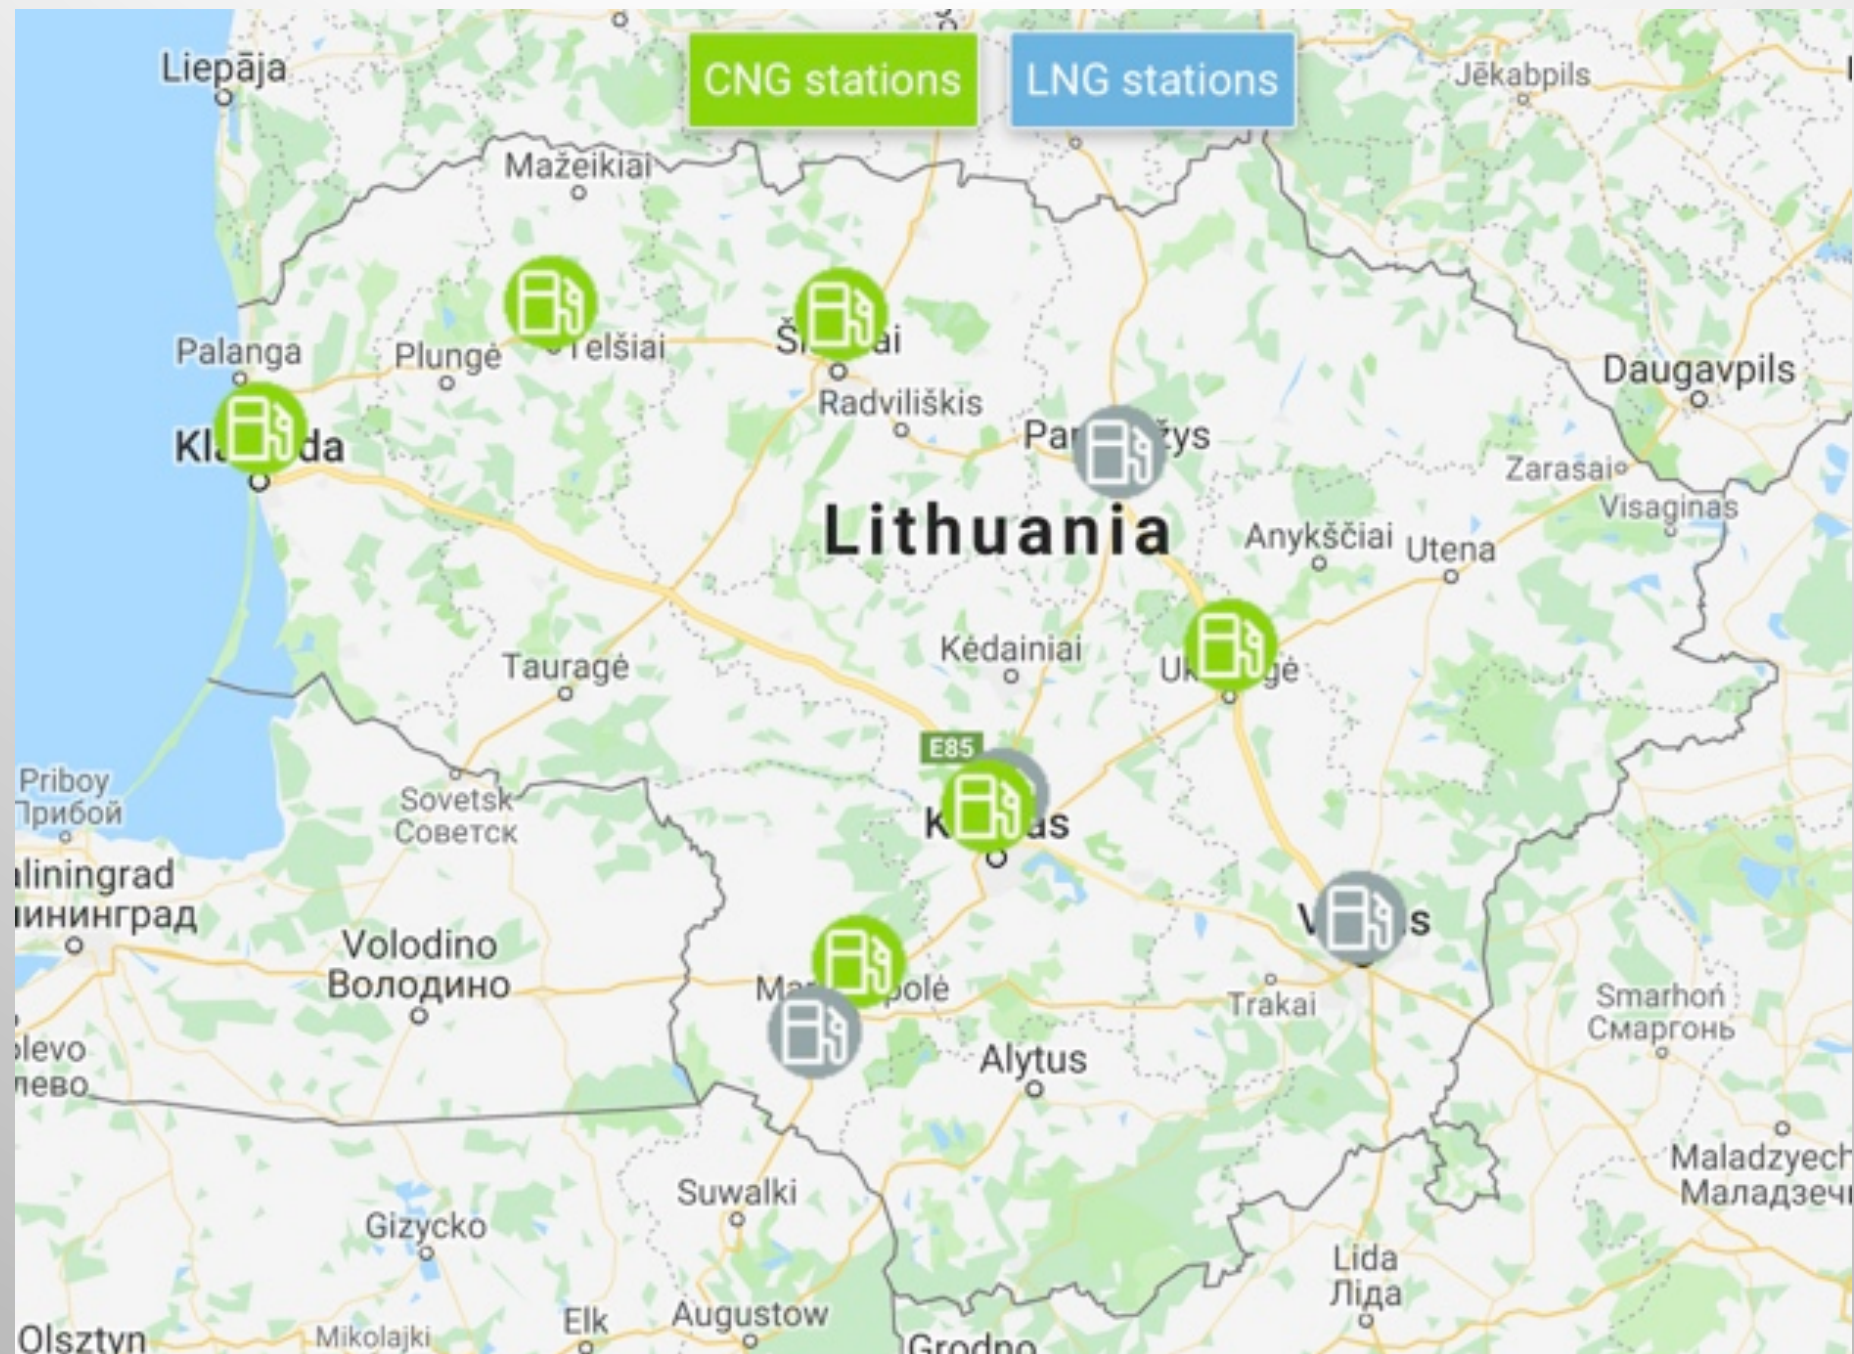

An aerial photograph of a vast, dense forest. The sun is low on the horizon, creating a bright, hazy glow that filters through the clouds and illuminates the tops of the trees. The forest is a mix of dark green and brown, suggesting some autumnal change. The overall mood is serene and majestic.

„SG Dujos“ FILMAS

SG DUJOS, WHO WE ARE?

- Pioneers and leaders of CNG, among first ones with LNG in Lithuania

FIRST AND ONLY RESEARCH CENTER OF CLEANER FUELS

- Development of cleaner, more efficient and sustainable transport and energy production, transmission and storage solutions
- Current focus: production and use of hydrogen enriched natural gas - H2NG (hydrometane)

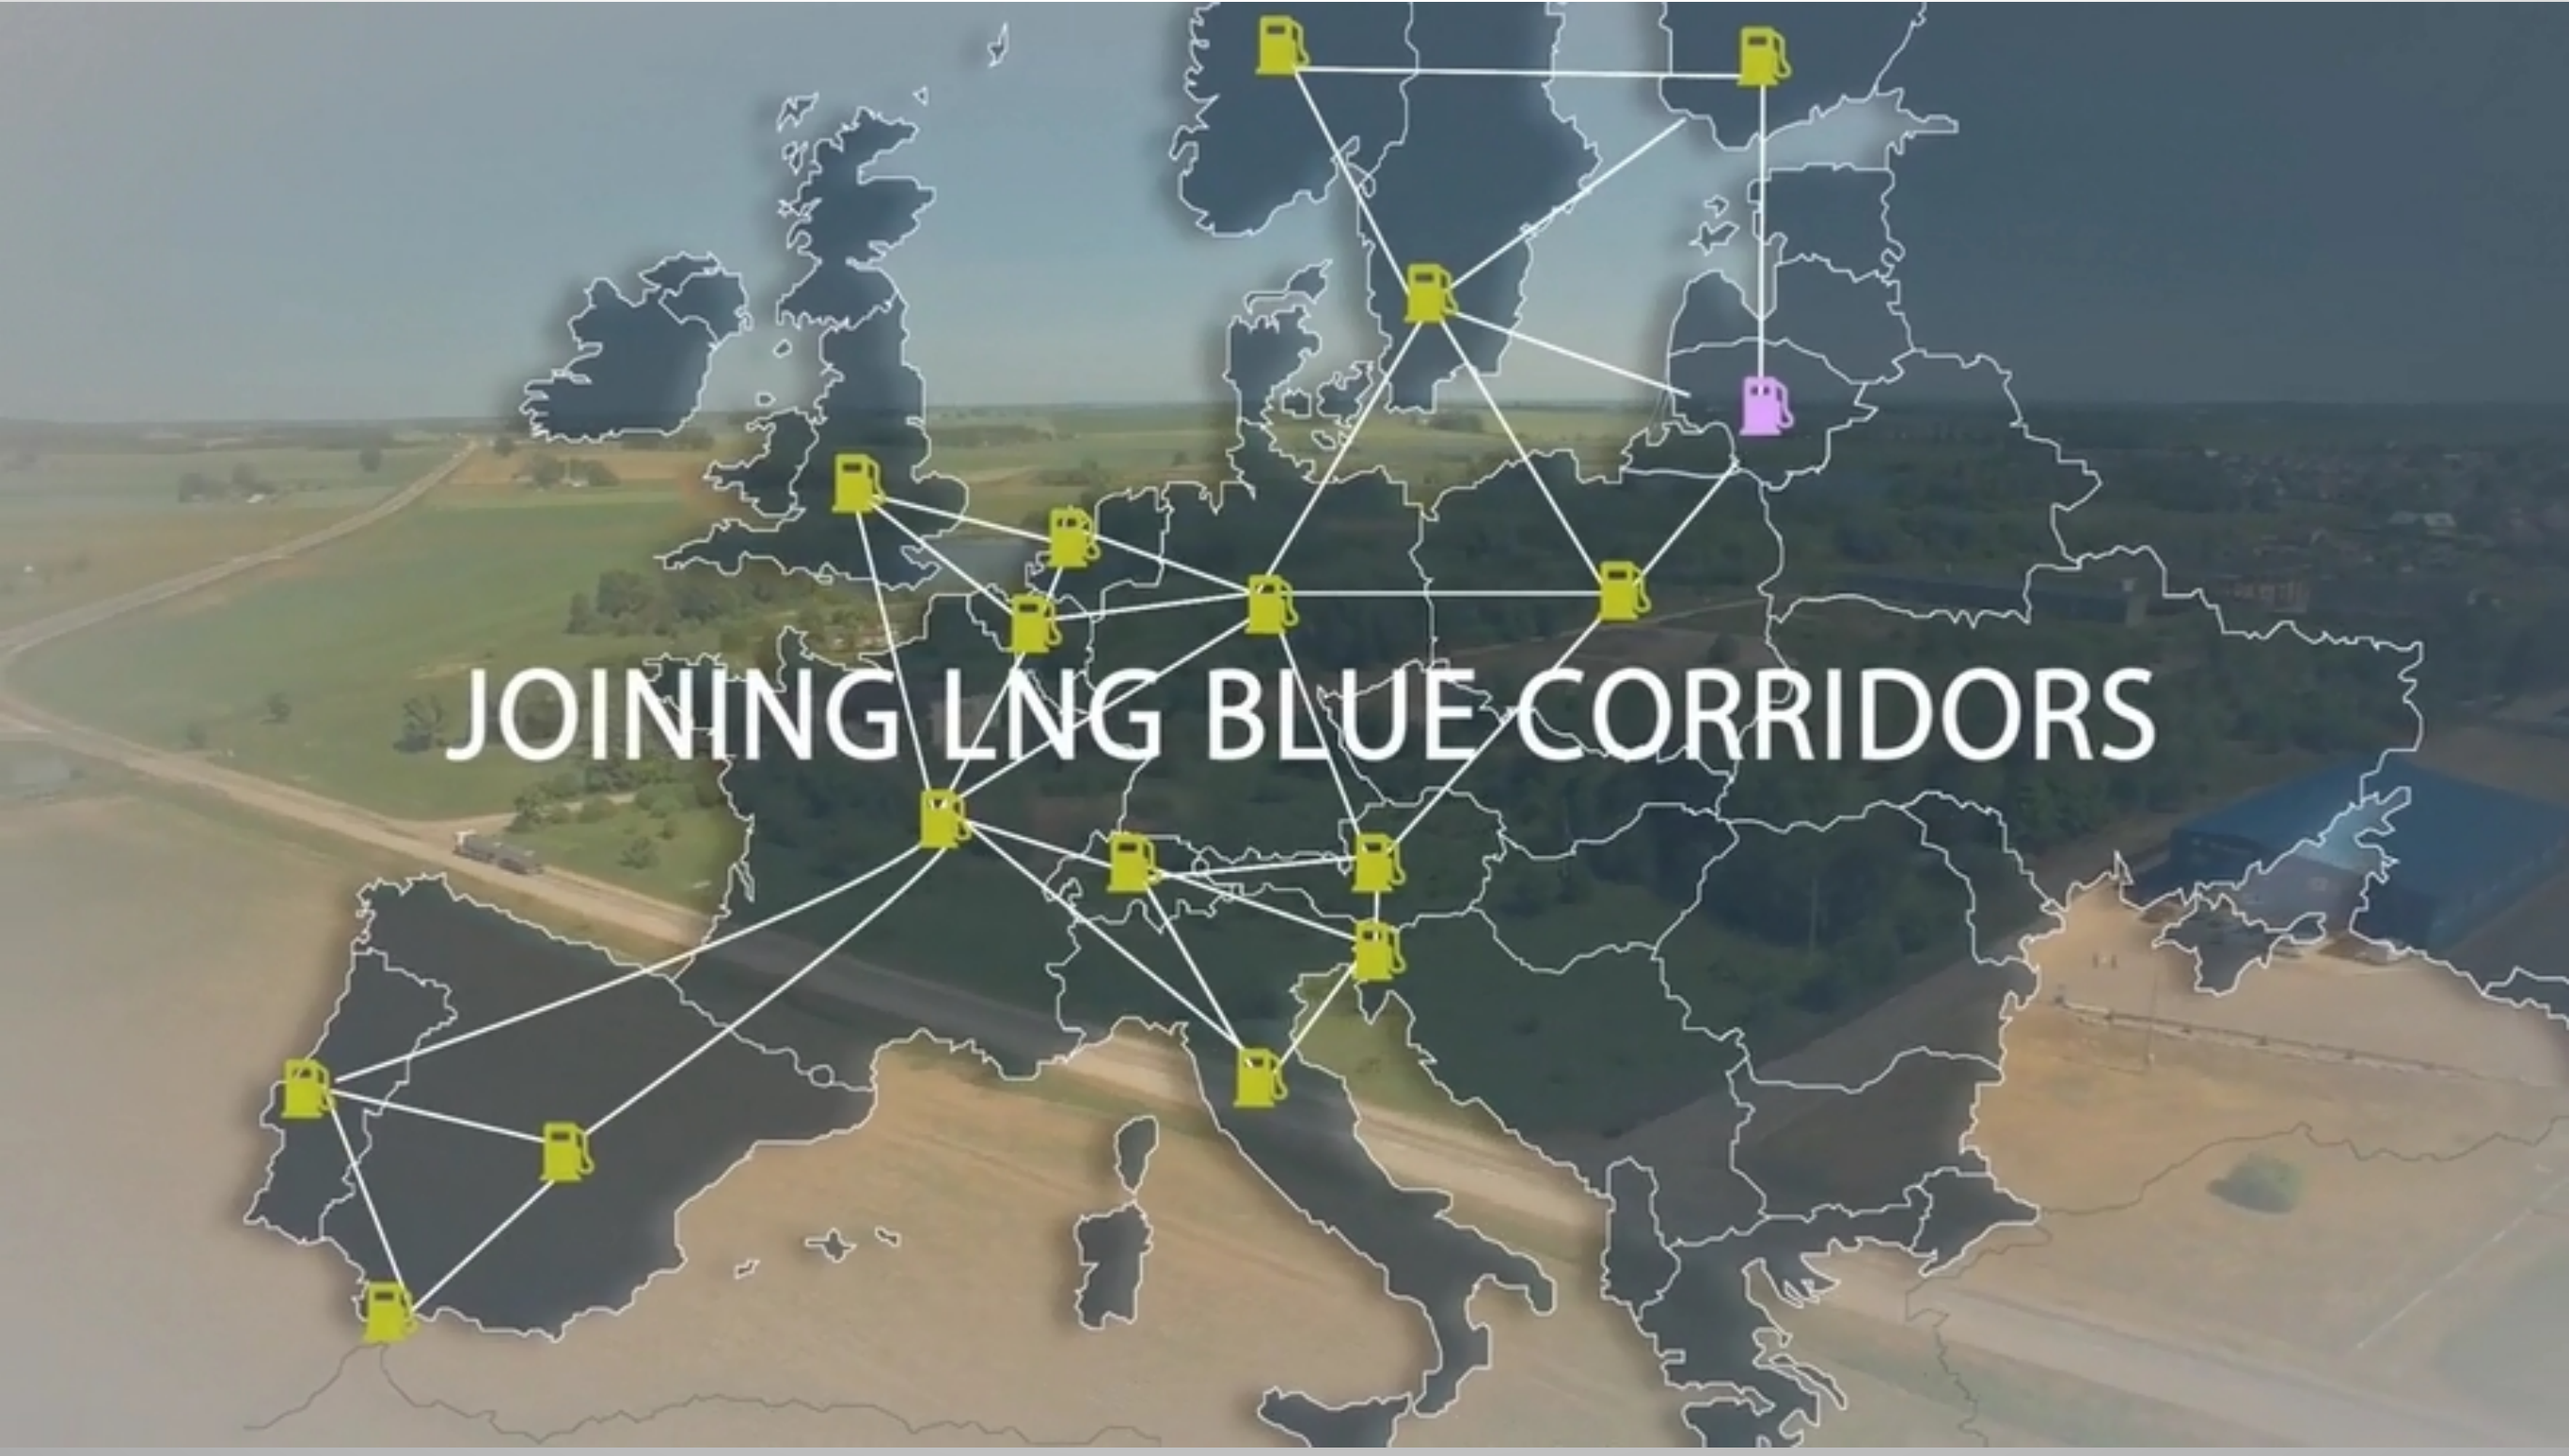

DRIVING INNOVATION

Key partners of Kingas project: Vilnius Gediminas Technical University and Scania

SG DUJOS – TEAM PLAYER ON INTERNATIONAL MAP

The image shows a map of Europe with a network of white lines connecting various locations, representing LNG blue corridors. Most of these locations are marked with yellow gas pump icons, while one location in Eastern Europe is marked with a pink gas pump icon. The text "JOINING LNG BLUE CORRIDORS" is overlaid in the center of the map.

JOINING LNG BLUE CORRIDORS

FIRST LNG STATION IN LITHUANIA FOR TRANSPORT?

- Status: under development
- Expected opening: first half of 2020

- [illegible]
