

HAZARD Project

Mitigating the Effects of Emergencies in Baltic Sea Region Ports 2016–2019

HAZARD in a nutshell

HAZARD helps to mitigate emergencies in major seaports and to improve related safety and security preparedness in the Baltic Sea Region (BSR)

3 year project period: 2016–2019

Total budget: 4.3 M€

**Co-funded by European Union—
Interreg Baltic Sea Region Programme**

Project outputs

- I. Large-scale exercises, where co-operation and communication between authorities are practised.**
- II. Knowledge about relevant and current EU safety regulation for seaports, and collecting, verifying and disseminating information on the upcoming changes in regulations.**
- III. Knowledge about risk assessment methods & models: publications and seminars about the subject.**
