

Business Incubators in Kuyavian-Pomeranian

You have an idea for a business, but you do not know if there is a market for your product or service? Do you have limited financial resources? Lack of experience in business? Or maybe you need help in running a company? If your answer is yes to one question, this is a sign that you should get acquainted with the proposals of business incubators.

These are institutions that allow everyone to try their own business. Their goal is to support entrepreneurship and development. There are several such incubators in the Kuyavian-Pomeranian region, one of the partners of the Innova Foster project.

Exea Smart Space

Exea Smart Space is a unique place on the map of Torun. The building is located in the Torun Regional Development Agency. Young entrepreneurs as well as experienced businessmen will find support here. A community is created here by regular workshops and trainings with business experts and individual mentoring sessions. Consultancy, networking events and conferences are regularly organised as well.

The Smart Space cooperates with UMK Startup Campus. It is a space for creative activities in the university campus. Thanks to this combination, science connects with business.

AIP UMK

Academic Entrepreneurship Incubator of the Nicolaus Copernicus University offers help to students, researchers, PhD students and entrepreneurs. The unit has been operating for ten years. The main goals are to train, educate and support all stakeholders. Writing business plans and effective financing of activities are conducted. The participants learn how to commercialize ideas and effectively develop their own company.

AIP Business Link

Business Link is another place on the business map of Torun. This institution offers not only a place, but also the help necessary to start a business. The incubator was created 14 years ago place from Poland where you can start your business in the easiest, fastest way in the world.

Kujawsko-Pomorski Loan Fund

KPFP is primarily an institution which activity is based on granting loans, conducting financial service activities and supporting financial services. Consulting and training in business and management are also run here.

One of the projects implemented by KPFP is running the Entrepreneurship Incubator in Torun, Bydgoszcz, Inowroclaw and Wloclawek. These incubators offer entrepreneurs running a business in the province a place to work with access to technical infrastructure and equipment and provide professional consulting services and training, among others in the field of applying for external financial support.

Wloclawek Incubator of Innovation and Entrepreneurship

Wloclawek Incubator of Innovation and Entrepreneurship operates in Wloclawek. This institution was created as part of the implementation of a project co-financed by the European Regional Development Fund and from the budget of the city.

The Incubator's task is to support the creation and development of business entities, including the innovative nature of operations, acquiring external financial resources for the provision of consulting and training services to support the establishment and conduct of business with a focus mainly on companies with an innovative character.
