

**1st Newsletter Manumix Interreg Europe.
June 2017****MANUMIX INTERREG EUROPE, a project to improve advanced
manufacturing policies**

Manumix Interreg Europe is a European Commission project, which aims to enhance the efficiency of innovation policies developed in relation to advanced manufacture (AM). Four regions with advanced manufacturing identified within their RIS3 strategy; The Basque Country, Lithuania, Piedmonte and West Wales have joined the MANUMIX consortium to learn best practices through the exchange of experience in the evaluation and monitoring of their current innovation policy-mixes, a common challenge in the implementation process of RIS3 priorities.

**Manumix's 1st Learning Journey - Basque Country**

On the 17, 18 and 19 May, the Basque Country hosted the first meeting or Learning Journey of the four European regions that are participating in the Manumix Interreg Europe project

1st LEARNING PILLAR: Innovation policy for AM

Throughout this first Learning Journey, the members also worked on the first of the project's five Learning Pillars, which focus on combining innovation policies for advanced manufacturing. In this work session, participants had the opportunity to learn from the best practices of innovative benchmark countries and to share their own experiences regarding the combination of advanced manufacturing instruments in their regions.

WORKSHOPS

Advanced manufacturing basque companies share their experience in research, development and innovation programmes

Representatives from Berkoa, Fundiciones Garbi, Nemark Spain, Karten Space, Fagor Arrasate and Angulas Aguinaga meet at Innobasque, having been invited by the Basque Government within the framework of the Manumix project in order to share their experiences of participating in R+D+I support programmes.

This meeting, taking place in the form of a workshop in 5th April 2017, was born of the need to better

Subscribe understand the ways in which companies benefit from different R+D+I support programmes and to
Past Issues derstar which these programmes can be combined.

2nd LEARNING JOURNEY

The next Manumix Learning Journey will be held in the fourth quarter of 2017 in Turin, Italy. This time, the partners will start the peer review process; a policy learning exercise where one region's actors involved in the policy-making process identify their learning interest topic, open their information and will to receive constructive inputs from other regions' peers with the assistant of experts and they also will discuss about the second learning pillar; action oriented to evaluation.
