# Monitoring and indicators

## Approach for the next learning journey

Monitoring is a process that needs to be adapted to Advanced Manufacturing strategies and context

How to monitor innovation policy-mixes to measure the Advanced Manufacturing strategy?

Focus on:

1. Indicators
2. Process of monitoring

At instrument/policy mix level )  
At strategy level

# Monitoring and indicators

## Next steps

- 1. To define the content of the learning pillar**
- 2. To identify from the baseline studies best practices to be shared by the partner regions**
- 3. To organise discussions for learning in this topic**
