

Dear readers,

INNOBRIDGE project has arrived to its end! It was almost five years ago that we first met in Saint Pölten (Austria) and since then we all have shared a fruitful and profitable collaboration. We all have worked hard with the goal of bridging the innovation gap through converting R&D results into commercial success in a more effective and efficient way. We are proud of having successfully achieved our targets and faced daily challenges; and we believe that such an effort will provide more and more fruits in the future.

All INNOBRIDGE partners wish to thank all those who have actively contributed and make possible this project to become a reality: stakeholders, managing authorities, policy makers, universities, regional experts and technicians, researchers, companies, clusters, etc.

It is with sad that we have to say goodbye to our partners, that have become close colleagues during these years, but we do not say goodbye, we just say, "Meet you very soon"!

Wishing you a Merry Christmas and a Happy and Healthy New Year!
