

HarmoNIA News

'From good data to good decision making'

After 2 years of HarmoNIA lifetime, our project is finalizing its products.
With your participation and support we are proud to announce HarmoNIA outputs which aim to fit your needs towards common policies on contaminant assessment in the ADRION seas.

Fill out the Final Questionnaire
and be part of our network !

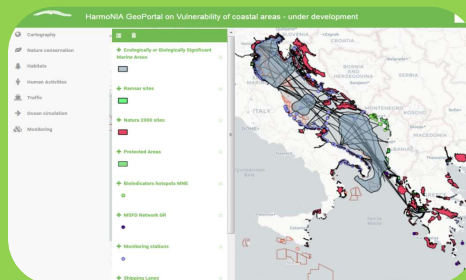

Your opinion helped us

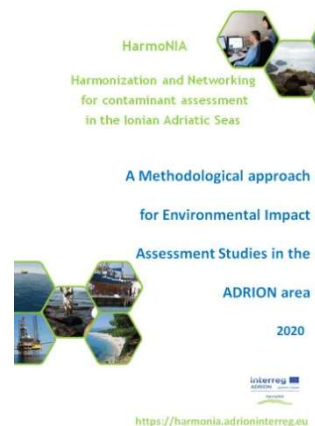

The HarmoNIA Data Portal to discover and access marine datasets on contaminants is now online !

5,666 data sets on contaminants
64% free unrestricted
30% SeaDataNet license
From 1979 to 2018

Detailed geo referenced information on vulnerability of coastal areas to understand pressures and vulnerability in your area.

HarmoNIA methodological guidelines from monitoring to environmental impact assessment focusing on offshore platforms, available soon...

Important Note: Due to the Coronavirus situation our scheduled Final Stakeholders Meeting in Trieste on 18-19/03/2020 is postponed.
