What will be your main contribution in the project?

- Act in the role of the partner of the project fulfilling the responsibilities set by program.

- Dividing tasks among partners

Specially we want to:

- support the project by using our expertise of mining industry

- bring to the project our knowledge of SME:s" way to think"

- help the "policy making talk" and a real business life to meet and understand each others

- open a large mining actors network for the project

What do you want to achieve by participating in REMIX?

- Promote dialog between the governance and mining sector trying to find out the main questions which are important for the mining industry and related SMEs

- To find out couple of main challenges which we could start to tackle together

- To create a new channel and opportunity to communicate between stakeholders and governance

- Strengthen existing interregional and international network

Current status of mining in the region
