Sustained long-term relationship between mining and metallurgical operations and their hosting regions - MIREU

H2020-SC5 Greening the Economy
1.12.2017 – 30.4.2021

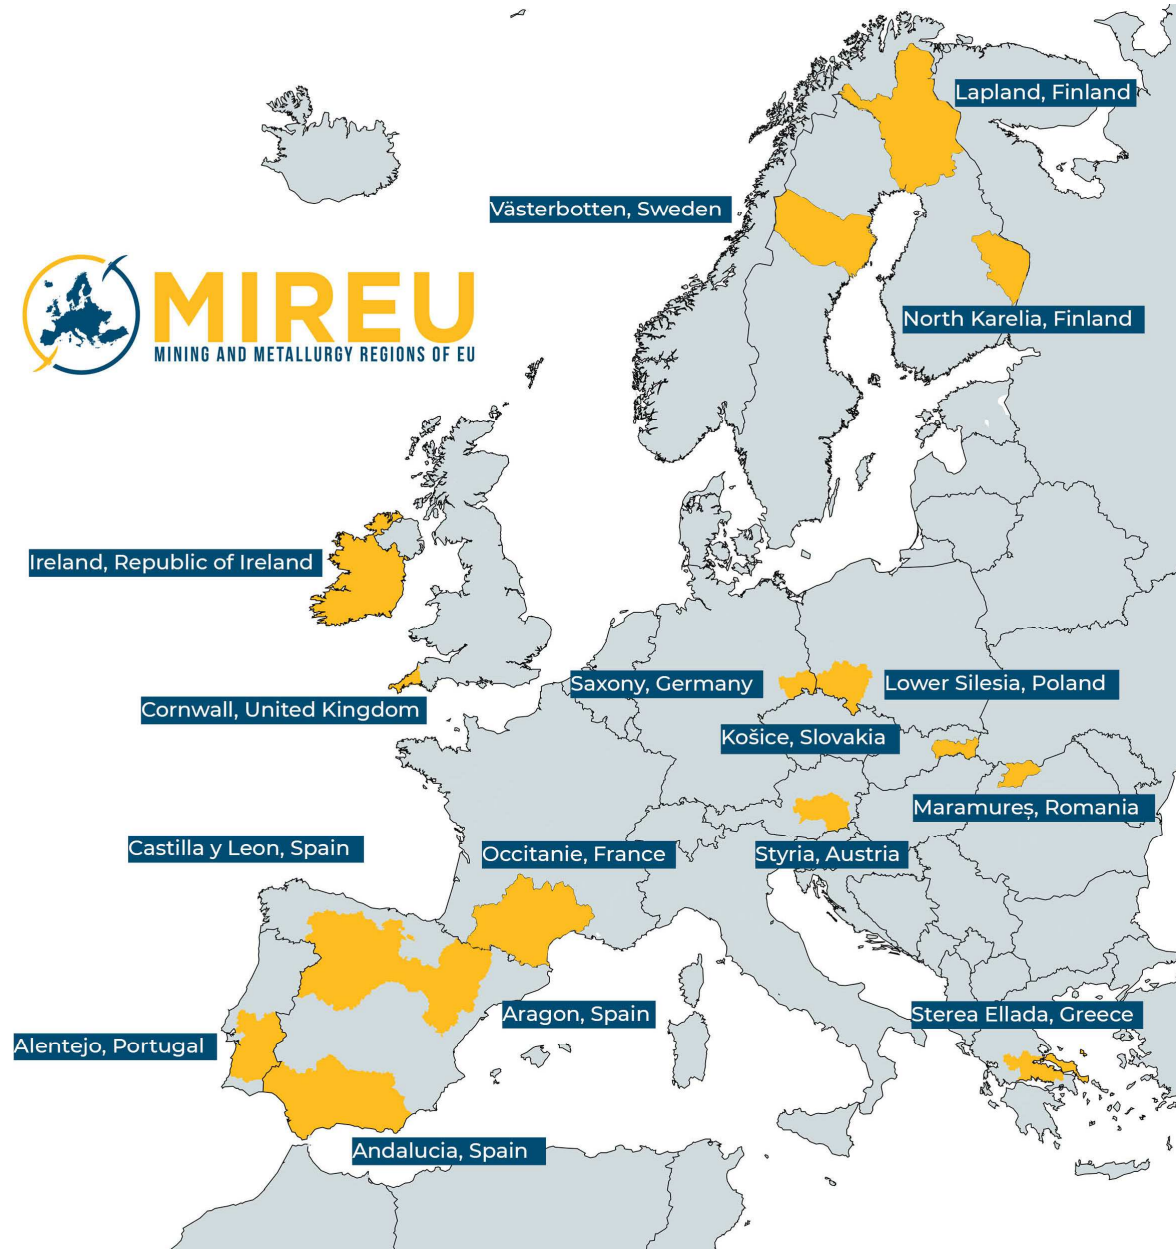

This project has received funding from the European Union's Horizon 2020 research and innovation programme under Grant Agreement No. 776811 | **Topic: H2020-SC5-2017**

The **main objective** of the EU Project MIREU was to identify ways to ensure the sustained and sustainable supply of mineral raw materials to the EU and to promote investment, innovation and growth in the sector.

- Call: H2020-SC5-2016-2017 - Greening the Economy
- Type of Action: Coordination & support
- Total budget: 2 999 725 €
- Person-months: 312
- Duration: 1.12.2017 – 30.04.2021
- Coordinator: GTK
- 32 partners, 14 European countries, 16 regions

ERRIN Raw Materials Task force

EU Funding – Horizon Europe & Erasmus+

Support for research and innovation on new exploration, mining and processing technologies, mine closure, substitution and recycling

EU Policy

Sustainability and the European Green Deal

Clusters & S3 partnership on mining

S3P/clusters, interregional collaboration, networking regions by clusters

Cultural Heritage

Revitalisation in terms of site development and mine resumption

Circular Economy

The screenshot shows the ERRIN website header with navigation links: Home, About Us, Members, Working Groups, Activities, Latest Updates, and Contact Us. The main content area features a large image of raw materials with the heading "RAW MATERIALS" and a breadcrumb trail "Home > Raw Materials". Below this is a section titled "SUSTAINABLE EXTRACTIVES FOR THE EU" with text about ERRIN's research and the MIREU project. To the right is a photograph of an industrial mining or processing facility. At the bottom, there is a "MIREU" section with a link to "Visit the MIREU project page".

SUSTAINABLE EXTRACTIVES FOR THE EU

ERRIN continues to investigate the relationship between **European Raw Materials** policy and the overarching topic of the European Green Deal. Securing the sustainable supply of metals and minerals is of paramount importance to meet Europe's energy and climate targets by 2030.

ERRIN is a partner in the Horizon 2020 project **MIREU**, a network of mining and metallurgy regions in Europe. The project is now coming to close and ERRIN is responsible for ensuring its continuation through the setting up of a task force that will extend the networking of Europe's mining and metallurgy regions beyond the project's lifetime.
