 - *Total Public budget, 374,4 million*
- 👉 **Induced private investment: 931 million**

BLOCK I: ENTREPRENEURSHIP AND FREELANCERS

Innovative

- Award for innovative ideas in the university field
- Ideas contests in collaboration with strategic partners: Shuttles of technological challenges. Bank of ideas
- Innovative idea shuttles
- Specialized services for projects with high growth potential: "ICE2020 Accelerator", cybersecurity and corporate shuttles
- Innovative entrepreneurship spaces: León Technology Park, Boecillo and the future of Burgos

Impulse and self-employment

- Project competition in vocational training centers
- Comprehensive Office of Attention to the Entrepreneur
- Economic support for entrepreneurs and the self-employed linked to training
- Facilitate the implementation of viable initiatives, "Design Your Plan Program"

Social

- Social entrepreneurship: awareness, promotion
- Social entrepreneurship projects: identification and incubation
- Accelerator of social projects

Rural

- Support for innovative ideas in the rural world "Program designs your rural plan"
- Strengthen the value chain of economic activities in the rural world
- Accelerator of new agro technological companies
- Support for business succession in rural areas
- Sensitization, information and accompaniment of rural projects: office of the rural entrepreneur

Consolidation of new companies and freelancers

- Consolidation and growth of freelancers and micropymes
- Consolidation and growth of innovative new companies

BLOCK II: INNOVATION AND TECHNOLOGY TRANSFER

Business Innovation

- Advice and support for the innovative effort of SMEs: specialized advice, diagnosis, economic support for R&D, implementation of LeanManufacturing
- Promotion of innovation from demand (Innovative Public Purchase)
- Support for the development of the ICT industry and the digitalization of the SME

Technological leadership

- Technological surveillance unit
- Human Capital: Training and Awareness: non-labor practices in R&D, GESTIDI, training of technicians and managers in R&D
- Strategy of leading R&D companies: training and mentorization programs, economic support for strategic R&D plans

Transfer and technology

- Transfer of knowledge from research organizations to companies and open innovation
- Platform of impulse to the technological transfer
- Support and redefinition of the Network of Technology Centers

Spaces for innovation

- Added value services in the Technology Parks
- Management and dynamization of the activity of the bioincubator
- Impulse to the creation and advice of intensive R&D companies

European projects

- Promotion of participation in international R&D calls by companies and regional entities
- Positioning in European platforms and networks
- Active participation of ICE in international initiatives: ERANET Networks and other European projects

BLOCK III: SECTORIAL SPECIALIZATION

Clusters:

- Consolidation and support for cluster:
 - Coordination and support service for clusters
 - Support for collaborative innovation projects and interclusters projects
 - Participation of clusters in international cooperation projects
- Information and studies of sectoral competitive surveillance: VT / IC, sectors RIS3
- Regional forums on competitiveness and innovation

Industry plan 4.0:

- Industry awareness and dissemination 4.0 and its associated technologies
- Competitive surveillance services
- Development of a regional offer of technological solutions and sector plans of action 4.0
- Training and adaptation of workers to 4.0 technologies
- Audits and individual plans of digital implementation. Support for the implementation of Plans 4.0

Bioeconomy:

- Promotion of public and private research and technological development (R&D)
- Awareness and promotion
- Development of a regional offer of products and services of the bioeconomy
- Promoting demand and developing markets

BLOCK IV: RURAL COMPETITIVENESS

Regional coordination: private public agents

Action plans in rural áreas:

- Specific action plan for each rural área

Advice in rural areas:

- Information and advisory service and competitive surveillance in rural environments
