

RUTA KALDRME

Kaldrma je dio identiteta arhitekture Hercegovine i važan dio našeg kulturno-istorijskog nasljeđa. Javlja se u mahalama i avlijama privatnih kuća, ali i u dvorištima javnih objekata. Područje Starog grada je u potpunosti popločano kaldrmom. Najčešće se izvodi u geometrijskim oblicima i cvjetnim, a njeno polaganje, kao i osmišljavanje motiva je pravo remek djelo. Za izvođenje kaldrme se koriste obluci iz Neretve, a hodanje po kaldrmi ujedno služi kao masaža stopala. Mostar obiluje brojnim motivima kaldrme, a na našoj ruti su obuhvaćeni motivi koji ujedno predstavljaju najbolje očuvane i najljepše primjere istih.

COBBLESTONE ROUTE

Cobblestone is part of the architectural identity of Herzegovina and an important part of our cultural and historical heritage. It can be found in neighborhoods and courtyards of private houses, as well as in the yards of public buildings. The area of the Old Town is completely paved with cobblestone. Cobblestone is most often designed in geometric and floral shapes; The design of motifs, and the laying of the stones, constitute a true masterpiece. Pebbles from the Neretva are used to make cobblestone in Mostar, and walking on cobblestone also serves as a foot massage. Mostar has an abundance of cobblestone motifs, and our route includes some of the best preserved and most beautiful examples of motifs in the city.
