1 Introduction

The Greek press conference was held in the end of July 2019 at the premises of UPRC external experts' offices which are located in the Greek case study, in the Municipality of Rafina – Pikermi.

1.1 General information

Date and time of Local event	29/07/2019
Location of the event (e.g online, Skype, face-to-face, etc.)	Face – to – face University of Piraeus external experts' offices (AVMap GIS SA, Municipality of Rafina – Pikermi)
Number of participants	7 participants (prof. Tselentis and colleagues of Greek team, representatives of press)
Name of the hosting institute	University of Piraeus, Prof. Vassilis Tselentis and Greek research team

2 Outcomes

The representatives of press (local and regional web-based media) had the chance to review the final deliverables of the TOURISMED project (the studies, the online tools, the mobile application, the brochures and fishing trips). They were interested in the sustainability of the project's outcomes. Professor Tselentis referred to the Memorandum of Understanding and the Local Charters, while he explained that all web-based tools, platform and the mobile – application will be online after the end of the project.
