PP6 - Montenegro:
CEM - The Chamber of Economy of Montenegro

PP8 - Slovenia:
TehnoCenter at University of Maribor

PP10 - Croatia:
Public Institution Development Agency of Sibenik-Knin County

The **SHIPmEnTT** project is designed to **improve SME's innovation capacity** in the Adriatic-Ionian area (ADRION) through specifically designed technology transfers and **innovation management support actions** that will bring benefits to enterprises dealing in the maritime sector.

The **SHIPmEnTT** focuses its activities on Blue Growth and green sea mobility, targeting the following sectors:

- **ENERGY**
- **LOGISTICS**
- **SAFETY**
- **ENVIRONMENT-FRIENDLY TECHNOLOGIES**

The **SHIPmEnTT** aims at overcoming low **access to finance**, insufficient use of **intellectual property** rights, lack of synergies among SME's and research institutions, intermediaries and policy makers by **bridging demand and supply of innovation**, providing **smart coaching** and **increasing access** to the available funding opportunities.

The beneficiaries of the Project are: **intermediary institutions, enterprises and research centres.**

SHIPmEnTT will gather all relevant actors and create tools for intermediaries and research centres which will help them assist SME's in innovation actions and fundraising. Enterprises will benefit from planned pilot actions about innovation and intellectual property management, necessary for increasing their competitiveness at international markets.
