Presentation of the One Planet SPP programme

02-03 Sept 2020 –
Circular Procurement Congress
CircPP workshop

One Planet Network

- The **10-Year Framework of Programmes on Sustainable Consumption and Production (10YFP)** was adopted at the 2012 World Summit on Sustainable Development.
- It is a global commitment to accelerate the global shift towards sustainable consumption and production.
- SCP is a stand-alone goal (SDG12) of the 2030 Sustainable Development agenda, and Target 12.7 calls for the implementation of the Sustainable Procurement.

Sustainable Public Procurement overview

A global umbrella multi-stakeholder programme of organisations that meet, share and work together to implement sustainable public procurement (SPP)

139 Partner Organizations and individual Experts in more than **40** countries around the globe

The SPP programme is co-led by:

Environmental Development Center/ CEC of the Ministry of Ecology and Environment of China

Goal

Accelerate the **uptake** and **implementation of SPP** at local, national, regional and global level and worldwide level to ensure sustainable consumption and production patterns and assist in the delivery of SDG12.

Governance

❑ SPP co-leads

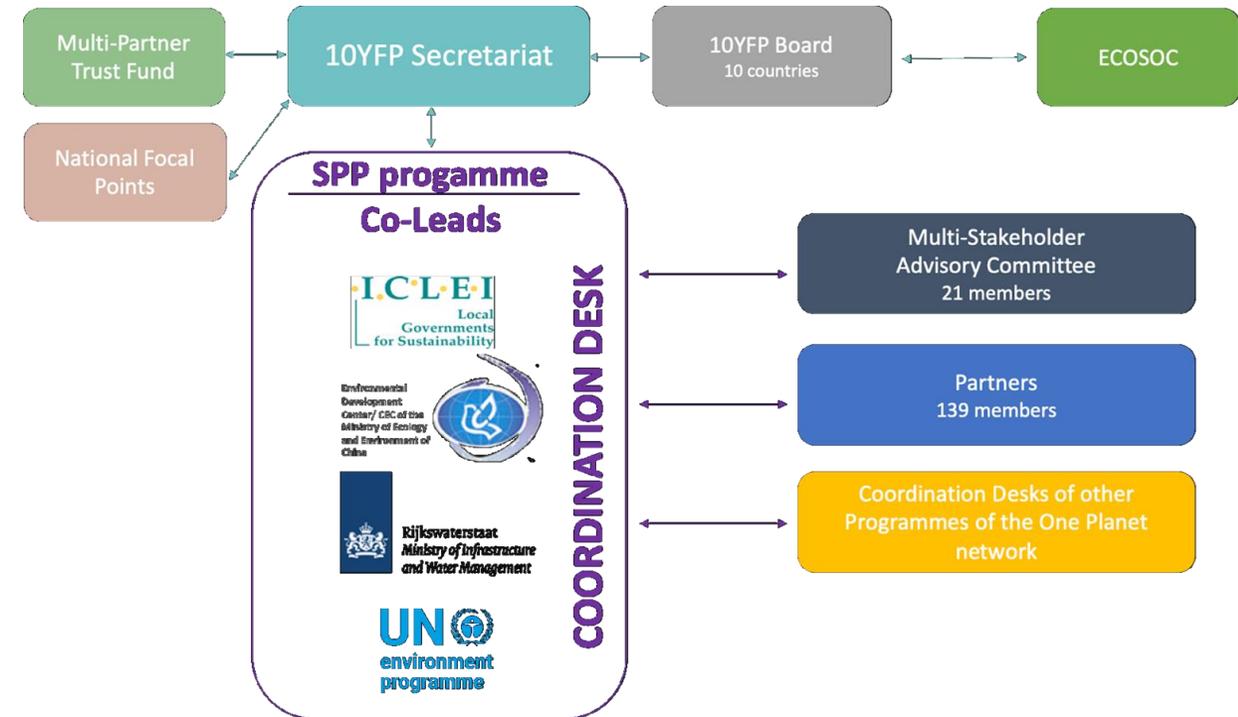

- Rijkswaterstaat, Netherlands
- ICLEI – sustainability for local governments
- Environmental Development Centre of the Ministry of Ecology and Environment of China
- UN Environment Programme

❑ Multi-stakeholder Advisory Committee (MAC)

- **technical and strategic advice** to the SPP Programme (and co-leads)
- **ensure coherence and evolution** of the SPP Programme's work plan
- **proactively** identifies collaborative projects, facilitates activities e.g. interest groups
- **communicates funding opportunities** for the Programme and the One Planet Network Trust Fund
- **advocates and raises awareness** about the SPP Programme and its strategic objectives

❑ One Planet Network Secretariat & 10YFP Board

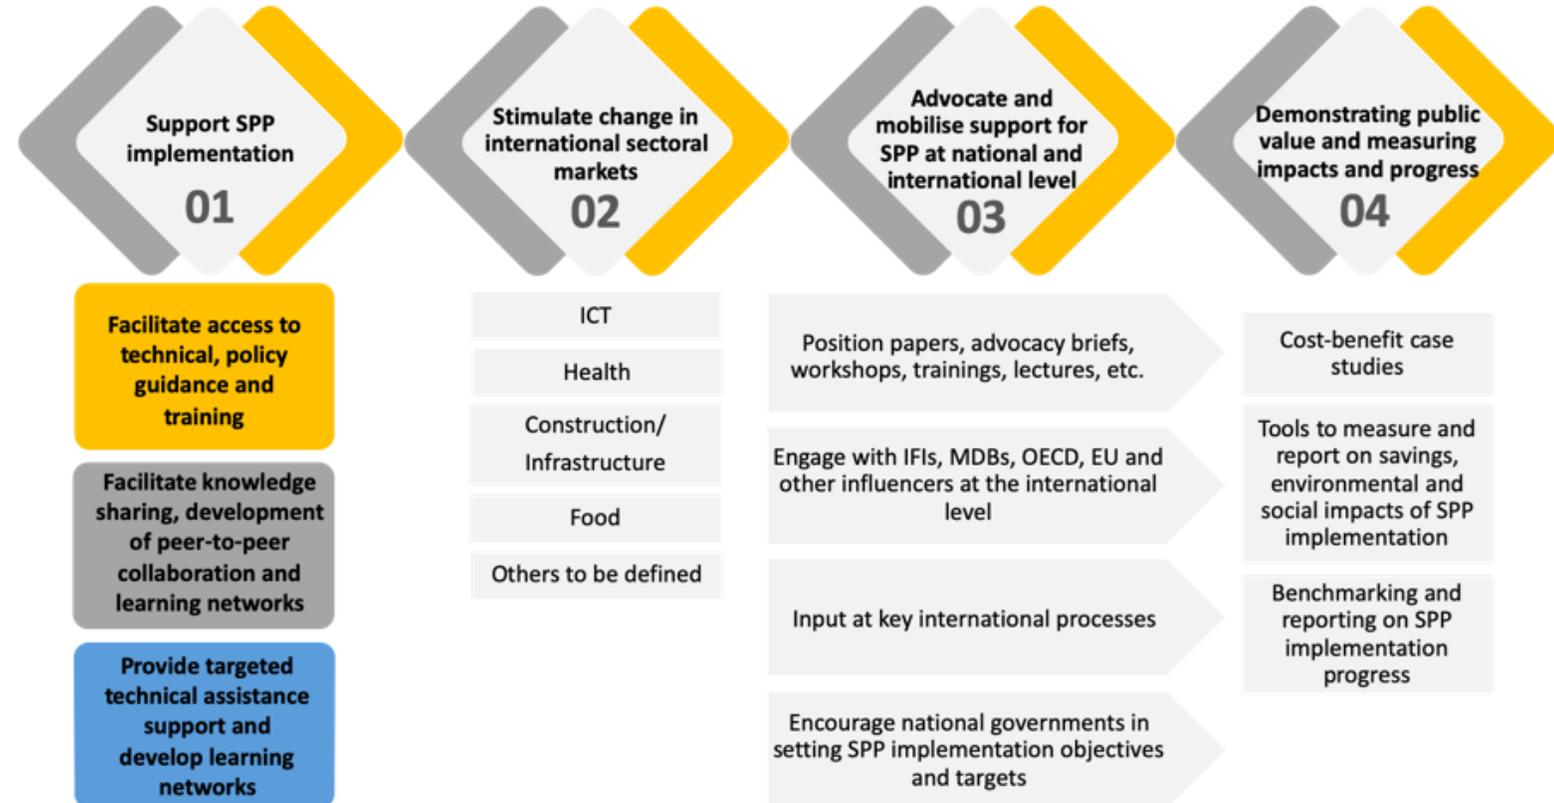

Current structure & members

Programme objectives and work-streams

- Support SPP implementation
- Stimulate change in key international sectoral markets
- Advocate and mobilise political support and leadership
- Demonstrate public value and measure impacts and progress of SPP

On-going Interest Groups

1. Health Sector

- Support **SCP capacity-building** in developing countries (Vietnam, Argentina, Tanzania);
- Develop **SP Index on Health**;
- **SCP sharing platform** continuous update to cooperate and share benefits (www.savingsustainably.org).

2. ICT/ARCTIC

- Developing guidance on procurement of chemicals of concern in ICT (UN GEF SAICM project);
- Creating a global **Alliance for Responsible Circular and Transparent procurement of ICT (ARCTIC)** launched 26th May 2020;
- **6 Work-streams**, including criteria, design, policy and value chain.

3. Construction

- **Workshops to understand needs of procurers (India, Australia, Ghana)**
- **Engage with MDBs;**
- **Build SPW Knowledge Platform**
- **Collect/develop a model template, tools, guidelines, KPIs, methodology for impacts measurement.**

4. SPP Monitoring

- **SDG 12.7.1 reporting methodology;**
- 3rd edition of the **SPP Global Review**;
- Updating of the 2016 studies **“Measurement of SPP benefits”** and **“Monitoring of SPP”**;
- **Monitoring and impacts measurement models** compilation and development.

5. Sustainable Food

- **Sustainable Food Systems programme** procurement agenda;
- 3rd **Global Conference on SFS 2020**;
- UNEA 4 resolution on Plastics jointly with OPN programmes;
- Developing guidance on procurement of **single use plastics in catering**.

SPP Programme portfolio

- 157 resources in the Knowledge Hub.
- 79 affiliated initiatives on SPP
- 25 Webinars available on the YouTube channel of the One Planet Network: <https://www.youtube.com/user/SCPClearinghouse>
- Portfolio categories: (1) tools/guidance; (2) networks, (3) applications

Trust-Fund projects

Publications examples

Tools and Guidance for SPP

General

Training programmes, manuals and guidelines (38)

- [Building Sustainable Procurement capacity through training](#) (UNOPS)
- [The Procura+ Manual: A Guide to Implementing Sustainable Procurement](#) (ICLEI)

Technical tools, criteria, cost and benefits of SPP (17)

- [The EPEAT Benefits Calculator](#) (GEC)
- [Measuring the link between public procurement and innovation](#) (OECD)

Sectoral (36)

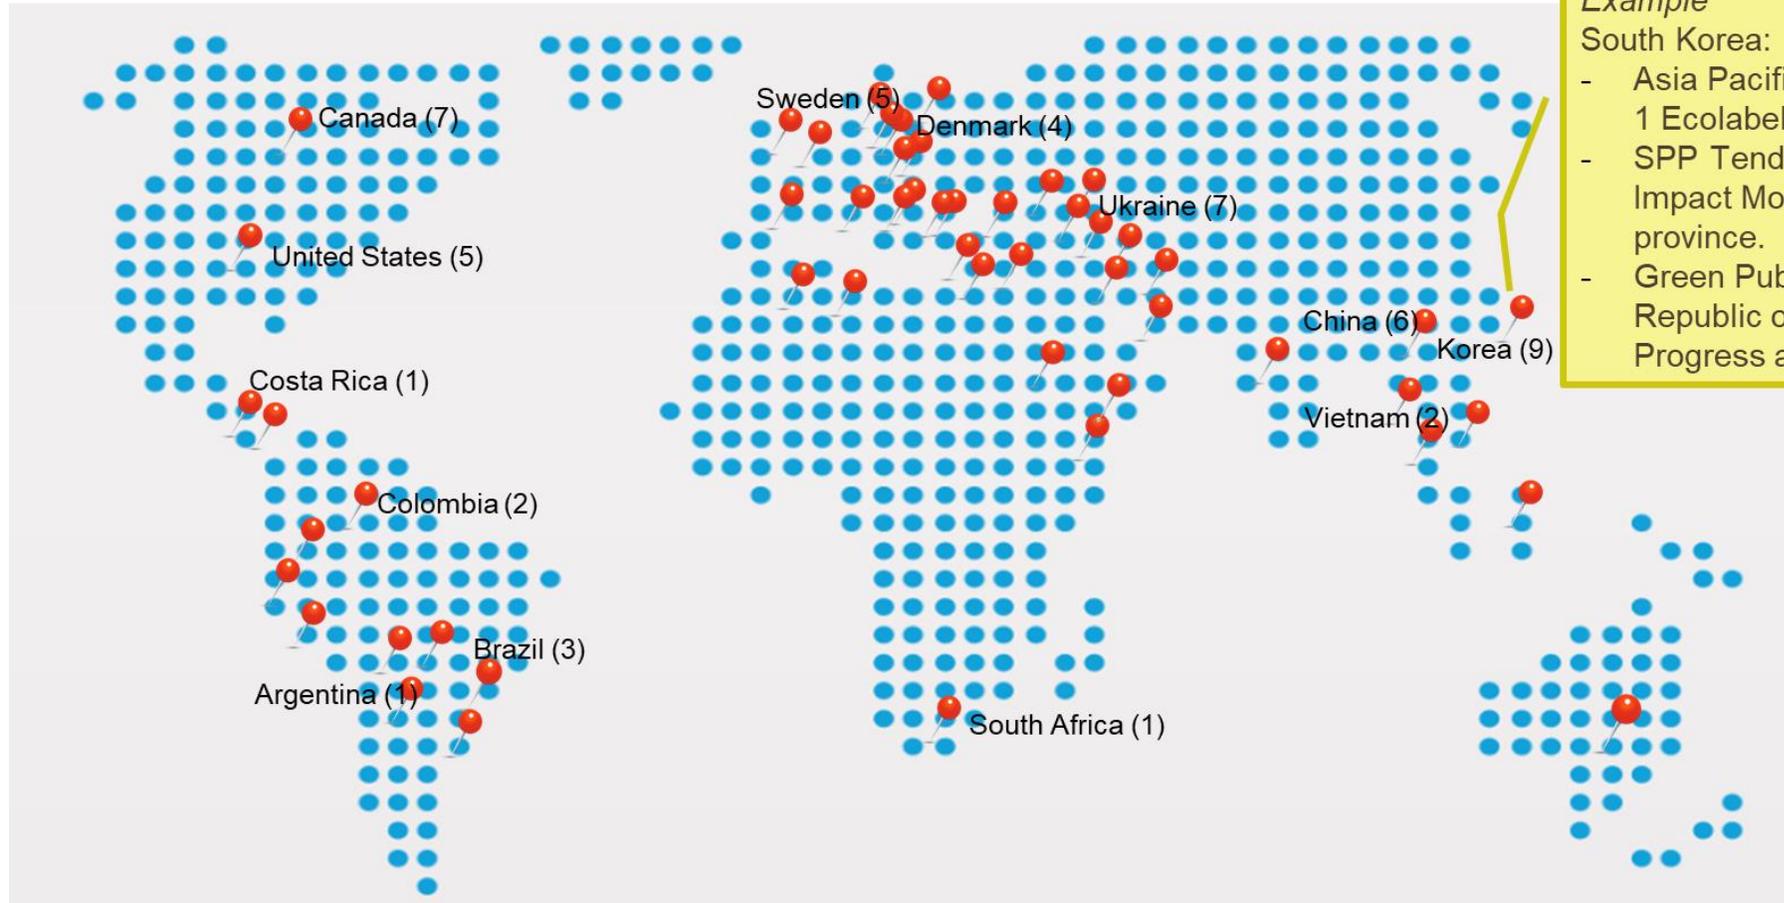

Chemicals, **Construction**, Energy, **Food, Health, ICT**, Textiles, Transport

- [Green Procurement of Textiles in the Healthcare Sector](#) (Nordic Council of Ministers)
- [Policy Support for Public Food Procurement for Government-led Home-Grown School Food initiatives](#) (FAO)

Country specific/contextualized (46)

- | | |
|--------------|-----------------|
| - Argentina | - Moldova |
| - Brazil | - New Zealand |
| - Canada | - Morocco |
| - Chile | - Paraguay |
| - Colombia | - South Africa |
| - Costa Rica | - Ukraine |
| - Germany | - United States |
| - Lebanon | - Uruguay |
| | - Vietnam |

Applications of SPP

Example

South Korea:

- Asia Pacific GPPEL Training: Type 1 Ecolabeling
- SPP Tender Implementation and Impact Monitoring in Suwon province.
- Green Public Procurement in the Republic of Korea: A Decade of Progress and Lessons Learned

➤ 89 applications of SPP across 48 countries, including case studies, best practices, legal reviews, market analyses, action plans... **but we know there are many more cases**

➤ **Add your own at:** <https://www.oneplanetnetwork.org/knowledge-hub>

Networks for SPP

- Peer-to-peer and knowledge sharing networks bringing actors together around various aspects of SPP.
- A total of 11 such networks identified across 8 organisations

ICLEI (3)

Global Lead City Network on Sustainable Procurement

UNEP

UN Environment SUN Programme:
Promoting Sustainable Procurement in the UN system

Danish Inst. on Human Rights (2)

Inter-American Network on Government Procurement (RICG-INGP)

German Development Institute

Impulses for Socially Responsible Public Procurement of Municipalities in Global Value Chains (ISOPP)

Netherlands - Ministry of Infrastructure and the Environment

ARCTIC

Sustainable Purchasing Leadership Council

Sustainable Purchasing Leadership Council

Green Council

Green Council Sustainable Procurement Charter

China Environmental United Certification Center

The Alliance of Green Consumption and Green Supply Chain (GCSG) in China

One Planet network-wide initiative on plastics

Supporting the 4th UN Environment Assembly Resolution 6 on Marine litter and microplastics

- ❑ Consumer Information for SCP
- ❑ Sustainable Buildings and Construction
- ❑ Sustainable Food System
- ❑ Sustainable Lifestyles and Education
- ❑ Sustainable Public Procurement
- ❑ Sustainable Tourism

Procurement & plastics

- Plastics packaging is 'procured' directly and indirectly (wrapping primary goods and as part of services)
- Quantifying plastics in public procurement is immensely difficult even where packaging is procured directly (e.g. for catering and food services)

Main focus is therefore:

avoid where possible

e.g. avoid plastic in packaging where feasible, or reduce

influence

types of plastics being procured (i.e. recyclable)

encourage

markets for recycled plastics – closing the plastics loop

ensure

that plastics packaging is either re-use or recycled to avoid 'leakage'

GLOBAL BEST PRACTICES ON EMERGING CHEMICAL POLICY ISSUES OF CONCERN UNDER THE STRATEGIC APPROACH TO INTERNATIONAL CHEMICALS MANAGEMENT

UN environment, ICLEI – Local Governments for Sustainability and Sustainable Global Resources are working jointly to help governments and value chain actors in the electronics sector track and manage chemicals of concern (CoC) in their products.

By

- developing **global sustainable public procurement guidance** enabling purchasers to ultimately reduce the use of chemicals of concern (CoC) in the electronics sector
- supporting the training for adaptation of global tools and guidance to the local context of public purchasers in Colombia.

Thank You!
