1. Introduction

The first activity of the WP5 Capitalisation it's coordinating the WP and definition of the capitalization plan. In this activity it's defined the elaboration of a List of European/National/ local and regional stakeholders, which represents this Deliverable 5.1.2

Since the WP 5 Capitalisation it's a work package which have a wider approach in the scope of the project, it reaches several kinds of stakeholders that have influence in each type of the LCTPs, rather it be the LCTPs of the cities already involved, or the national and international replication.

Therefore, the WP leader and the technical partners have identified a complete list of EU national/local/regional stakeholders, decision makers, EU projects coordinators dealing with urban sustainable mobility planning process to be involved in the activities.

2. Characterization of Stakeholders

The List of stakeholders is characterized into 4 topics.

- Level of entity
- Type of LCTP
- City
- Type of entity

The Level of Entity disaggregates the stakeholders according to their scale of influence as listed below.

- European
- National
- Local
- Regional

The stakeholders can also be classified by Type of LCTP, according to their intervention on each LCTP. This classification follows the approach used in the WP5.

- Local LCTP
- National Replication
- Local LCTP / National Replication
- International Replication

In the characterization of the stakeholders, it's also pointed the City in which the stakeholder has influence.

As a final characterization, the stakeholders can also be classified per Type of Entity, according to the list below.

- Municipality
- Parishes
- Port Authority

- Cruise Terminal Operator
- Other Public Authority
- National Association
- Public Transport Operator
- Tour Operator
- Cruise Company
- Mobility Authority
- University
- Research Institute
- Consultant
- Energy Agency
- Tourism Association
- Local Commerce
- Other
