

Background

Declaration on co-operation to protect the marine environment of the Gulf of Finland and its coastal regions

Joint Finnish-Russian Commission on the Utilization of Frontier Watercourses

Implementation

Modelling

- Build-up of the model applications
- Calculation of runoff and nutrient load
- ➔ **Climate scenarios and adaptation measures**

Environmental monitoring

- Hydrological monitoring
- Workshops, trainings
- Online sensors, manual sampling
- ➔ **Cost-effective monitoring programmes**

- Satellite observations
- Coastal area monitoring
- ➔ **Comprehensive state report**

Public awareness

- Citizen surveys
- Public river monitoring
- Wiki- service
- Events
- Materials

Deliverables
