

SMATH project activities keep proceeding despite of the general shutdown!

Project partners are working hard to find the most suitable solutions. The Lead Partner, Work Packages leaders and task leaders are having online meetings in order to recognize activities that have been disrupted. Very soon, events will be held following an online formula. Stay tuned!

WHAT'S NEXT?

Regione Friuli Venezia Giulia, SMATH partner responsible for the coordination of the transferring phase, is organizing an online training for the project partners.

This activity, held by an expert in capitalization, will take place online on May 5th at 10.00 CET. It will be an opportunity for partners to learn more about how and why transferring project results is so important. Save the date!
