1 General goal of the event

Present CESBA MED results, tools and products to support the development and implementation of plans to improve urban sustainability.

2 Goal of the event for participating organisation

Know new methodologies to support their plans and strategies to improve the sustainability of their buildings and urban areas.

3 Target groups

Public administrations (at regional and local level) as well as interested stakeholders related to urban planning, architecture, engineering and energy efficiency and renewable energies.

4 Partners involved

Government of Catalonia (Department of Territory and Sustainability).

5 Agenda of the event

6 Content of the presentation

Mr. Josep Casas, Deputy General Director of Architecture, Housing Planning and Urban Improvement of the Government of Catalonia (Department of Territory and Sustainability), started the session with a technical introduction on energy efficiency, and how this can be improved from an architectural point of view (active measures, passive measures, renewable energies); he, then, focused on housing planning, and the work that is being done in Catalonia in this area.

Mr. Xavier Martí, chief officer of European Programmes of the Government of Catalonia (Department of Territory and Sustainability) made a general presentation of CESBA MED explaining its objectives and methodologies and presenting all

the work done by the project. He ended his presentation by presenting the results of the CESBA Neighbourhood Award 2019.

Mrs. Sílvia Mata, engineer and technician of the European Programmes Unit of the Government of Catalonia (Department of Territory and Sustainability) made a technical presentation on the SBE method, detailed the KPIs and presented the SN and SB Tools.

You can find in this [link](#) the Power Point presentations.

7 Résumé

One of the main goals of the session was to present CESBA MED's tools and methodology to other public administrations and interested agents in order they can start implementing it in their urban planning strategies and projects.

The session ended with a Q&A in which many participants showed their interest in the tools and asked for information on the process to start using it.
