

CESBA MED Newsletter 1/2017

CESBA - A movement towards a harmonization of sustainable built environment assessments throughout Europe!

CESBA MED has started

The CESBA MED project has started with a kick-off meeting in Marseille on 16th-17th of January. 26 representatives from 12 project partners refined the project objectives and started the work on the project.

CESBA MED objectives

Energy efficiency improvement is a key strategy to reduce the environmental impact of public buildings. Groups of buildings offer remarkable opportunities for effective synergies. However, decision making processes and design interventions are more complex at neighbourhood scale. CESBA MED intends to find the most affordable and operational solutions for the development of energy efficiency plans at a large scale.

General assembly

CESBA association is gaining financial and organisational strength. On the 10th ordinary General Assembly in Venice on 30th of March 2017 the continuation of the board has been fixed: Willy A. Küchler as President, Andrea Moro as Vice-President, Daniel Wibmer as Treasurer and Etienne Vienot as Reporter.

SPRINT WORKSHOP Invitation

September 18th - 20th, 2017

Bezau / Vorarlberg / AUSTRIA

3 days of exchange in the mountains for people who like to interact and network, be creative and want to share ideas and develop common projects with colleagues from other nations. The participants can expect a comprehensive development of quality standards in the built environment. A perspective for action, ideas for further cooperation and strengthen the personal network among other experts in Europe.
