CESBA MED Newsletter 3/2018

**CESBA - A movement towards a harmonization of sustainable built environment assessments throughout Europe!**

## INVITATIONS

The CESBA Neighborhood Award 2018 is now launched and calls for application!

The official launch has been set by UNEP and the Covenant of Mayors in Barcelona on June 12<sup>th</sup> 2018.

On [www.cesba.eu/neighborhood-award](http://www.cesba.eu/neighborhood-award) the application documents can be viewed and downloaded.

The CESBA Neighborhood Award 2018 is a European section of the Global Urban Challenge 2020 of the SBE (International Sustainable Built Environment Series: [www.sbe-series.org](http://www.sbe-series.org)).

The CESBA Neighborhood Award 2018 is organized within the CESBA MED project (<https://cesba-med.interreg-med.eu>), financed by the European Union through the Interreg Mediterranean Programme.

The CESBA-MED project intends to improve the quality of life for inhabitants, minimize negative impacts on climate and resources as well as capitalize key performance indicators of the CESBA SN-Tool (Sustainable Neighborhood Tool). The CESBA SN-Tool is an

5<sup>th</sup> CESBA Sprint Workshop taking place on November 14<sup>th</sup> – 16<sup>th</sup>, 2018 in Gozo / Malta.

The participation is for free. The registration is open and can be found on: <https://cesba-med.interreg-med.eu/news-events/cesba-sprint-workshop-events-registration>

9 European projects organize the 5<sup>th</sup> CESBA Sprint Workshop to discuss early project results, to develop new agendas, to tackle upcoming challenges. Main organizing project is CESBA MED.

**7 thematic topics provide the frame of the 3 day gathering:**

- Latest challenges in the built environment
- Pooling resources
- Capacity to act: Policy implementation and participation
- Tools & indicators: their usage and necessary adaptations
- Energy renovation in buildings
- CESBA City Network
- Circular Economy

Please find more information to download

Neighborhood Tool. The CESBA ON TOOL is an innovative decision making model to support the definition and implementation of actions targeted to optimize sustainability planning measures combining the building and urban scale.
