 **Interreg Central Europe - RUINS Project**
(6/2017 - 5/2020)

 ITAM CAS, Jakub Novotný

Sustainable re-use, preservation and modern management of historical ruins in Central Europe - elaboration of integrated model and guidelines based on the synthesis of the best European experiences

Consortium:

1. Lublin University of Technology (PL)
2. Matej Bel University (SK)
3. The Institute of Theoretical and Applied Mechanics CAS (CZ)
4. ICOMOS Poland (PL)
5. City of Zadar (HR)
6. Higher Institute on Territorial Systems for Innovation (I)
7. Italian Association for the Council of Municipalities and Regions of Europe (I)
8. Venetian Heritage Cluster (I)
9. Municipality of Velenje (SLO)
10. Zadar County Development Agency ZADRA NOVA (HR)

RUINS PROJECT OBJECTIVE

- To give “the second life” to medieval ruins through modern management and attributing contemporary, socially useful functions to medieval ruins, while preserving historical value of these sites

RUINS PROJECT OBJECTIVE

- Development and dissemination of transnational guidelines and integrated model of contemporary use, modern management and protection of medieval ruins in CE
- Elaborated comprehensive management plans will help regions exploit economic potential of this heritage in economic development, and to preserve value of medieval ruins as cultural heritage

- 4 tools
 - Universal transnational model of **sustainable preservation and protection** of the medieval ruins
 - Universal transnational model form of **modern management** of medieval ruins
 - Universal transnational model forms of **contemporary use** of medieval ruins
 - **Transnational guidelines**: how to apply integrated model in development of comprehensive action plan
- Plans of modern management, contemporary use and sustainable preservation developed for 6 selected ruined sites
- 6 pilot actions implemented for the sustainable use of cultural heritage
- 15 trainings implemented on the sustainable use of cultural heritage

JANOWIEC (PL)

RUINS

ST. STOŠIJA (HR)

ŠALEK (SLO)

BZOVÍK (SK)

MONTAGNANA (I)

VILLA BEATRICE D'ESTE (I)

All information and documents can be found:

<https://www.interreg-central.eu/Content.Node/RUINS.html>

- Historical ruins are specific part of CH
- Ruins in themselves are the result of negative effects on built objects
- Risk management is an integral part of the management of ruins - *Universal transnational model form of modern management of medieval ruins* deals also with risk assessment and risk management
