

BSR WATER FINAL CONFERENCE Sept. 15-16, 2021

Nature-based solutions for stormwater management in Gdańsk

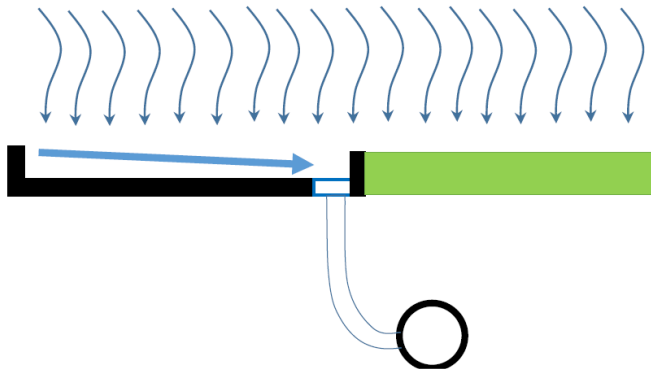

Gdańskie Wody, Poland
Gdańsk Tech, Poland

14th September 2021

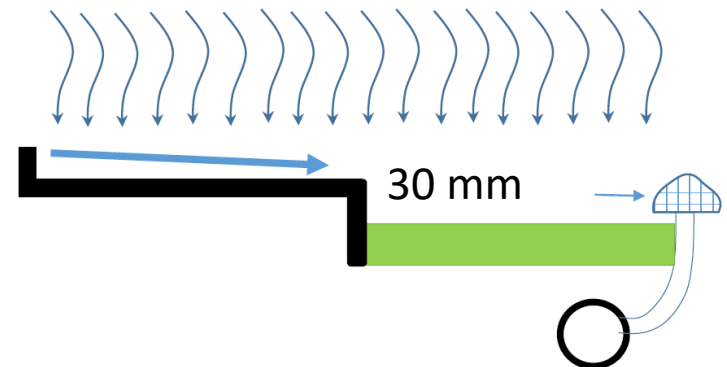

Stormwater management approach changes:

1. It is necessary to relieve the storm water drainage system
2. stop, delay the flow
3. use rainwater for green infrastructure watering
4. treat the rain water to keep the quality if necessary
