

TEESCHOOLS project has been presented by ENEA team in his stand at **Ecomondo fair** (Rimini, November 6th-9th) the leading expo for the green and circular economy. Ecomondo is an international event with an innovative format that brings together all sectors of the circular economy in a single platform: from material and energy recovery to sustainable development. The event organized by Italian Exhibition Group, ended after being attended by 116.131 visitors, over 12.000 of whom were international. TEESCHOOLS project and tools captured the interest of ENEA stand visitors
