

“TEESCHOOLS in the Energy Efficiency Conference 2017”

An important event on Energy Efficiency, the 5th Energy Efficiency Conference about “ZERO NET ENERGY FOR INDUSTRY & BUILDING” took place on 29th September in Athens, Greece. *Living Prospects Ltd*, “Teeschools” partner participated and presented how to improve Energy Efficiency of School Buildings. The presentation was held by Konstantinos Karampourniotis, the Technical Manager of Living Prospects and provided interesting information on the specific issue.

In general, the Conference included speeches, discussions and presentations of experts about:

- Energy Efficiency in Greece: Financing Challenges & Opportunities
- Energy Efficiency in Buildings: The role of cutting-edge Technologies, innovative services, certifications and equipment
- Vehicle technologies in energy efficiency: Scaling up deep energy renovation through BEMS and IoT
