

# TEESCHOOLS

## “Nearly Zero Energy Schools”

The project aims to support Local Authorities to implement Nearly Zero Energy Building (NZEB) refurbishments in Mediterranean schools. An integrated set of user friendly tools will be tested and validated by pilot actions in each partner region.

Let's  
**START!**

- × Close the door & windows for temperature maintenance
- × Switch off the lights when they are not necessary
- × Choose the natural lightning & pull the curtains so that the sun warms the classroom

- × Turn off the tap when I wash my hands
- × Wear warm clothes, when it is too cold
- × Switch off the pc when finishing my job
- × Disconnect the chargers if they are not used
- × Print both paper sides
