36 Months

Project duration

CO-EVOLVE (Promoting the **co-evolution** of **human activities** and **natural systems** for the development of **sustainable coastal and maritime tourism**) aims at analysing and promoting the co-evolution of human activities and natural systems in touristic coastal areas so as to foster the sustainable development of touristic activities in the Mediterranean through Integrated Coastal Zone Management (ICZM) and Maritime Spatial Planning (MSP).

An analysis of threats to and enabling factors for sustainable tourism as well as local studies and actions on seven pilot areas are carried out to demonstrate the feasibility and effectiveness of an ICZM/MSP-based planning process.
