

## RES FOR MUNICIPALITY DEVELOPMENT

### MUNICIPALITY SREBRENİK, BOSNIA AND HERZEGOVINA

Purpose of the pilot action is to prepare a second heating plant reconstruction project, replacing the existing coal heating plant, in order to exploit the potential of biomass in the area and use it for heating of the city of Srebrenik. With this action we will gain better efficiency of RES use and lower air pollution.

The activities, implemented in the framework of the pilot are:

- Development of a study for a biomass heating plant reconstruction project;
- Dynamic and financial plans for reconstruction of heating plant;
- Project proposal or public private partnership offer. The end result of the pilot is a mature study of a biomass heating plant ready to be implemented.

Project co-financed by the European Regional Development Fund

### Macro objective:

To increase the air quality;

Improve quality of life

Create new jobs \_\_\_\_  
—

### Specific objectives:

Improve local based energy supply chain;

Establish RES cooperative;

Rise awareness of the importance of biomass heating systems;

Increase local based energy economy

### RES potential to be exploited:

Investment in 1 NEW biomass district heating system
