

# Consume Less in Mediterranean Touristic Communities

## Main Objectives

- ▶ *Develop integrated sustainable energy, water and waste management strategies in Mediterranean cities with high levels of tourism*
- ▶ *Promote sustainable tourism models, based on the enhancement of local historical heritage, natural resources and products and on the promotion of a responsible behaviour of tourists*

## Expected Results

- 1 | *Consume-less label guidelines*
- 2 | *Consume-less tourism destination chart*
- 3 | *Consume-less on-line tool*
- 4 | *Policy paper promoting the consume-less tourism model*

Project Budget  
2.635.000,00 €
