Short Description / Summary

All partners met on Internal meeting on 6.11.2020 where we also organized Mutual learning workshop. Pilot actions were presented and the Transnational publication was also presented. The presentation of Transnational publication is prepared in a video, which gives a brief view of the content and is visually interesting. Transnational publication is available online on project's website <https://www.interreg-central.eu/Content.Node/Transnational-Publication-Smart-Commuting.pdf> Partners shared it in their FUA's through social media and on their local webpages and similar. We have all organized Transnational workshops on pilot actions, where the publications has also been presented.

In the discussion we discussed about ways to disseminate the publication, to use the publication and how partners can benefit from it. We also talked about the experiences of partners in delivering and using of the pilot actions.

There was a proposal to translate it into national languages. It will be also presented at Final Public conference in the Smart Commuting project and at another Public Conference for the capitalization of 5 different Interreg projects from Different programmes (Adrion, Enimed, Danube, Central Europe and MED).

The video about publication is available at <https://www.youtube.com/watch?v=IHCx6C6K8g&t=61s>

The common video on pilot action is available at <https://www.interreg-central.eu/Content.Node/Home/Projects/SMART-COMMUTING/PILOT-ACTIONS-Smart-Commuting-All-PP.mp4>

Expected effects and follow up

Expected effects of this workshop are that partners have shared their experience on pilot actions planning, implementing and future plans and can learn from each other. Partners could get ideas for further actions and can develop solutions for their FUAs.
