Short Description / Summary

Describe the outcome of your first Mayor-Stakeholder Conference by the text in **2 or 3 paragraphs**.

The Mayor-Stakeholder Conference of the 20.9.2019 was organized within the meeting of mayors of the Council of the Istra-Brkini-Kras region. Apart from presenting the activities of the SMART COMMUTIN project, also other themes relevant to sustainable mobility were on the agenda. Technical assistance in the field of sustainable mobility and public passenger transport was presented.

The presentation of Smart Commuting project was held by the manager Slavko Mezek who explained the importance of synergy between stakeholders and municipalities on the field of sustainable mobility, in order to achieve concrete results. He focused on the current activities on the field and spoke about the pilot actions within the project. On the field of sustainable mobility in the Istria-Brkini-Karst region, also activities on other projects within the Development Region (Coastal-Karst Statistical Region), and held by Regional Development Center Koper, were presented. The ministry of infrastructure presented other possible sources of financing for investments in the field of transport and sustainable mobility.

We achieved a general overview of the implemented activities and those which are current and planned by the decision makers who expressed approval of the sustainable mobility activities within the projects.

Links to deliverables and outputs

Explain to what deliverables and outputs you can connect the topics of your conference.

D.T3.1.1, Joint elaboration of SUMP and D.T3.4.1, Feasibility study to find sustainable intermodal solutions, since the participants were notified with that activities and invited to participate with contents. D.T3.10.1, Transnational publication on pilot actions; since the realized activities will be reported in the publication. D.T3.11.2; The Mayor's conference.

Expected effects and follow up

Mayors and stakeholders, as well as the transport companies are better informed on what has been done on the field and what are the future plans. There is a mutual agreement about the importance of the topics of the project and decision makers are supporting them.
