Motivations & Expectations for the Course

Food Waste

Estimates of European food waste levels, Fusion: 2016

Assumption of food waste amounts:

- FAO: 1/4 1/3 of all produced food
- data from the primary production sector is insufficient
- first surveys in AT show: 25% food loss in primary production

Ecologic Impact

- climate => cultivation, transport, rotting
- resources => water, fertiliser, seeds
- soil use
- pests & diseases
- groundwater
- biodiversity loss

Economic Impact

- income of agriculture & regional value added
- climate consequential costs
- ecological consequential costs >> loss of biodiversity, soil loss
- health consequential costs >> transport, groundwater

Overview

- 28% of the worlds agriculture land grows crops which are wasted = equals total land area of China, Mongolia, Kazakhstan
- 250 km³ Water = amount could cover all households needed worldwide
- 3.300.000.000 t CO2 = third largest emitting country worldwide
 - 1. USA
 - 2. China
 - 3. Food Waste

Self Survey

- product
- production output
- marketing channel
- cultivation method
- machines
- storage conditions
- estimated amount of not-used products (kg or %) / location
- reasons of non-marketing / non-use
- measures tried

Product Design & Processing

- Flotte Lotte
- Iss-Mich

Marketing

- Markta
- Etepetete
- Querfeld
- Karakter Ernte

Sociale & Voluntary Approaches

- Tafel / Food Banks
- Nachernte Feedback / Gleaning Network

Technic

- Obstraupe
- Sorting machines

Re-Utilisation

- Animal feed
- Compost / Biogas

Flotte Lotte

Flotte Lotte

- Zwettl / AT
- association (about 40 members)
- voluntary & job market project
- regular preserving (2x/week at least)
- old dairy factory 2 adapted rooms
- distribution outlets

Flotte Lotte

Cooperation Partner

- retailer
- farmer

Distribution Outlets

- farmer markets
- farm shops
- cafes
- shops

"Aus Lottes Garten" ... ("From Lottes Garden" ...)

...new brand!

For the production untreated fruit and vegetables from the region's gardens are used!

Preserving on the Farm

- chili / garlic powder
- dried champignon
- pickled pepper

Iss-Mich - "Eat-Me"

Iss-Mich

Business

- catering
- restaurant
- delivery service
- in-house products (beer)
- since 2012
- only organic products
- exclusively glass packaging
- cooperation with agricultural cooperative

Karakter Ernte

Die Initiative Karakter Ernte...

Wir sind ein im Frühjahr 2018 geschaffenes Netzwerk aus produzierenden und weiterverarbeitenden Betrieben, das sich dem nicht genutzten Anteil der regionalen Obst- und Gemüseernte annimmt.

Der Abnehmerkreis – aktuell Gastronomiebetriebe, Schul- und Betriebsküchen – haben sich bewusst dafür entschieden, mit der gesamten Ernte zu kochen.

Karakter Ernte

Karakter Ernte

Wir haben Karakter und nutzen die gesamte Ernte.

SORTIMENTSLISTE

KW 47

Bezeichnung	Beschreibung	Produzent	Herkunft	Anbau	Preis €	Abnahmemenge
KE Karotten	> 3 cm Durchmesser	Walter Plank	Tirol	konv.	0,65 / kg	
KE Karotten gelb	> 4 cm Durchmesser	Walter Plank	Tirol	konv.	1,00 / kg	
KE Kartoffel	Schalenfehler, mechanische Verletzung	Romed Giner	Tirol	konv.	0,60 / kg	
KE Weißkraut	< 500g, > 2 kg	Josef Lechner	Tirol	konv.	0,95 / kg	
KE Blaukraut	< 500g, > 2 kg	Josef Lechner	Tirol	konv.	0,65 / kg	
KE Knollensellerie	> 1,5 kg	Josef Lecher	Tirol	konv.	1,00 / kg	

Tafel / Food Banks

- own infrastructure storage rooms & shops
- get the food by themselves & spread it to persons in need
- defined customers (with proof)
- lot of voluntary work
- price: for free or lower
- lower
 - to cover costs of infrastructure and employees
 - to raise awareness of the value of the goods: Goods for free lower the value

Feedback - GB

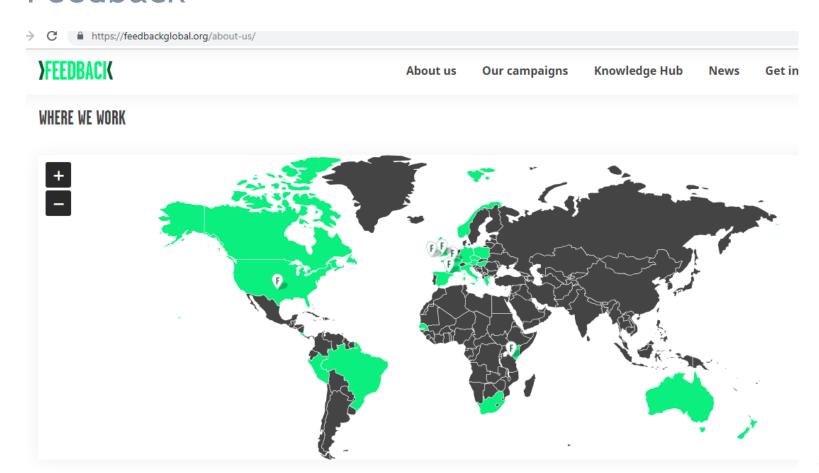

- Start 2013
- Different campaigns and measures to point out food waste
- Invovle the broad public

Feedback

Feedback - Gleaning Network

- Start 2013
- 2.000 Volunteers
- 380 t saved fruits and vegetables
- Local groups organising regular gleaning activities
- Give the harvest to social organisations

Feedback - Gleaning Network

Feedback - Gleaning Network

Obstraupe - "fruit caterpillar"

Obstraupe

- 2/3 of fruits in meadow orchards are not harvested
- Equals 300 Mio. € in German-speaking area
- 400.000 personens own meadow orchards
- 2018 100 Obstraupen already sold

Obstraupe

Was die Obstraupe so stark macht

- Schonend für Obst und Rücken
- Ernteleistung bis zu 1 t/h
- Für Walnuss bis Strudelapfel
- Innovativer Akkuschrauber-Antrieb
