1. INTRODUCTION

TMN: Transnational Mediterranean Network is a platform, already created by GRASP MED project to share information between energy field key actors. The platform addressing the needs of private and public operators involved in e-procurement and energy sector.

Its aim is to support the Renewable Energies and Energy Efficiency methods, through the sharing of knowledge (expertise and best practices) amongst the participating stakeholders.

The platform was developed by CCIT in collaboration with two GRASP partners, CMAB (Italy) and University of Vlora (Albania). CCIT and CMAB are current partners in GRASPINNO project.

This platform promotes the interchange of information and the B2B contact between users from private and public sector.

2. BACKGROUND

2.1 GRASP TMN objectives

The Transmediterranean Network Platform has been initially developed by GRASP Project (Green procurement and smart city support in the energy sector) of the MED programme and funded by national funding agencies, participating entities, and the European Commission between 2013 and 2015.

The main objective of the TMN platform was to design, build and operate Transnational Mediterranean Network (TMN) of public and private operators involved in procurement, in order to support renewable energy and energy efficiency sectors.

The platform was developed on the PHP programming language and MySQL database, it uses the Drupal 7 CMS framework with some non-core modules installed and configured, and a custom developed theme based on "Best Responsive" by Devsaran. The website has its unique domain and is hosted on a 3rd party hosting Italian company.

2.2 GRASP TMN functionalities and results

The GRASP TMN had the following functionalities:

- ✓ Register as a member of the TMN
- ✓ List/search all members by multiple criteria
- ✓ View miscellaneous details of each member
- \checkmark View news and documents posted by other members and upload your own
- ✓ Contact members though an embedded form in the member's profile
- ✓ Access Grasp-MED and eProcurement websites.

The technical report developed at the end of the GRASP project shows 165 members from 8 countries.

At the end of GRASP, TMN had 70 news posted by users.

3. GRAPINNO TMN

3.1 Re-built GRASP-TMN

Upon start of GRASPINNO project the TMN was not on-line and CCIT began the work to re-start its functionalities. Unfortunately, the website backup was no longer available, so the TMN website had to be re-built.

The process was done in 2 steps:

1.- Linking host provider with technical developer

2.- The technical developer began the re-builting using the information from GRASP and re-starting the BBDD with a BBDD created at the beginning of the TMN during GRASP.

At the end of this process, the TMN was again on-line.

3.2 GRASPINNO-TMN

Technical aspects

- The platform was restored updating the Drupal version 7.32 to 7.54.
- The domain and host ownership by 3rd party Italian company transferred from CMAB to CCIT.

Functionalities:

- Register as a member of the TMN: activation requested
- List/search all members by multiple criteria
- View miscellaneous details of each member
- View news and documents posted by other members and upload your own
- Contact members though an embedded form in the member's profile
- Access **INTERREG GRASPINNO website** and **GRASPINNO unified** *platform*.

<u>Image</u>:

The image of the web platform updated to GRASPINNO following the Communication rules.

<u>User´s guide:</u>

Updated user guide is available for all members to have information about the use of the platform.

GRASPINNO TMN evaluation questionnaire:

A survey to know the user feedback is available to all members.

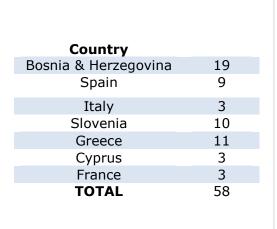

4. GRASPINNO TMN EVOLUTION

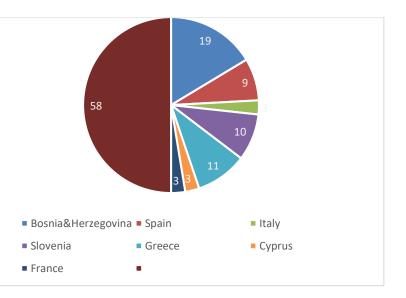

4.1 TMN members

After GRAPSINNO TMN rebuilt, the users database had 43 members. To all of them, CCIT send an e-mail to invite them to update their contact details.

By the date of this report, the TMN members are: 92 (**Annex 1**) from 10 countries.

After revision of the database, actively there are 58 members from 7 countries distributed:

4.2 TMN News

After GRASPINNO TMN rebuilt, 8 news recuperated, by the date of the report 24 news are reported by members.

The topic of the news are the activities done GRASPINNO projects and eGPP news.

4.3 TMN users feedback

All members can fill the survey to explain their impressions as users of TMN platform.

By the date of the report 3 users have filled in the questionnaire. (Annex 2).

5. NEXT STEPS

TMN is an alive and self-sustainable platform. It's a good tool to promote the networking between stakeholders, from GARSPINNO project, from private and public sector.

Two actions are necessary to increase the reach and impact:

- Increase the number of members
- Increase the number of posts

For this reason, the next steps will be focused on promoting the TMN, facilitating the register process from website and promoting by the current members the benefits of been part of the TMN.

6. ANNEX

Annex 1:

TMN active members

Annex 2 Feedback from users: 3 questionnaires

1.- About Registration:

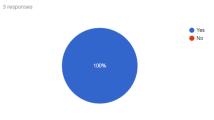

100%

Was the registration process intuitive? (For example, were the questions easy to understand?)

Was it easy to follow the steps for signing-up?

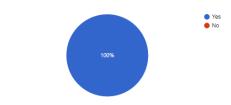

If yes, which was the problem? ⁰ responses

No responses yet for this question.

If yes, which was the problem?

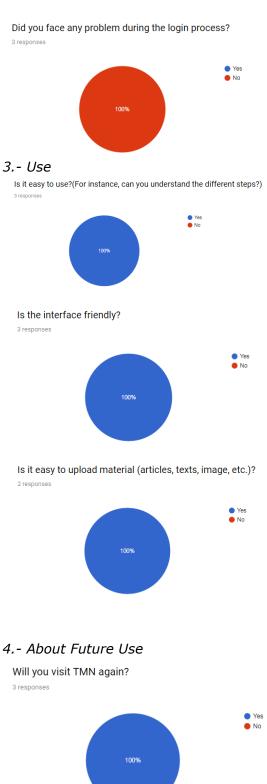

No responses yet for this question.

Was the login process easy and intuitive? 3 responses

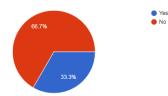

If yes, which was the problem?

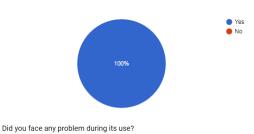

0 responses

No responses yet for this question.

Is it taking too long?(For instance, does TMN load quickly?) 3 responses

Is it easy to search for information/persons? 3 responses

Yes
 No

If yes, which was the problem? 0 responses

No responses yet for this question.

If yes for what purpose?

2 responses

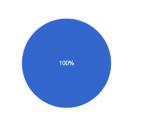

identify interested organizations

To be informed

Did you find what you were looking for?

What other kind of information would you like to find?

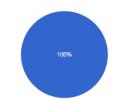

info about progress towards achieving goals

What kind of persons would you like to find/meet through the TMN? 1 response

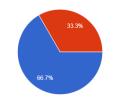

all people are welcome

5.- About User

Do you use social networks and online forums?

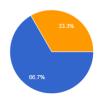

If yes, how often do you use them? 3 responses

Once per month
 Once per week
 Every day

Which Browser do you use most often? 3 responses

YesNo

YesNo
