GRASPINNO PLUS

GRASPINNO PLUS aims to transfer key deliverables/outputs developed & tested at transnational level within GRASPINNO to new MED territories.

GRASPINNO Plus will capitalise the tools made available thanks to the GRASPINNO unified platform: GRASPINNO Database, eGPP support tool and LCC tool through. The consortium formed by 4 entities receivers and 2 givers (partners from GRASPINNO previous project)

THE CONSORTIUM

The consortium is composed by 6 partners from 4 countries (Greece, Italy, Montenegro and Spain). Four partners will be the receivers of the knowledge, methodology and tools to implement on their regions: Umbria Region (Italy), Chamber of Economy of Montenegro (Montenegro), Ilia Chamber (Greece) and Region of Western Greece (Greece). The givers are the Lead Partner, Terre di Siena Lab (Italy) and Chamber of Commerce of Terrassa (Spain).

EVENTS

1ST. TRANSNATIONAL MEETING: KICK-OFF MEETING:

Organized by TSL – Lead partner, the kick-off meeting was done last 22th. July in on-line format.

The first contacts between partners was successful to begin formal the GRASPINNO PLUS activities. The consortium discussed the next steps, the technical and steering committee were created in order to ensure the successful fulfilment of the agreements reached.

2N. TRANSNATIONAL MEETING: PATRAS – GREECE

Organized by Region of Western Greece – Receive partner. The meeting was done on 13 & 14th. December in blended way. During the meeting the all partners presented the activities developed during the first part of the project and focused on the identification of stakeholders (PA and SMEs) knowledge on eGPP and green criteria. The transferring activities between givers and receivers were organised to implement during the first trimester of the 2022.

TRANFERRING ACTIVITIES

TRAINING SESSIONS

All receivers organized training sessions to promote Green Public Procurement using GRASPINNO tools in Public Authorities and SMEs. The session's objective was the promotion of the use of green criteria in public procurement and their benefits in a sustainable and financially way. Also, disseminate the LCC tool as a making decision tool. An elevated number of PA and SMEs participated in events organised by receivers partners in Greece, Montenegro and Italy.

BILATERAL MEETINGS

Organized by Chamber of Terrassa in collaboration with Terre di Siena Lab – Lead partner, 3 bilateral meetings were done in January.

The objective of the bilateral meetings was to train receivers on the use of the GRASPINNO Unified platform and LCC tool. The knowledge gained will be useful to the receivers to organised workshop with stakeholders.
