Selected Green Beaches in Catalunya

- 1. Sant Antoni de Calonge:** belongs to the town of Calonge, located 40km from the main provincial town of Girona, in the centre of the Costa Brava and beside the Gavarres Massif.

Green Beach: Torre Valentina

Selected Green Beaches in Catalunya

2. Torredembarra: is located in the southern part of the Catalan coast, 20 km from the provincial town of Tarragona and 80 km from Barcelona.

Green Beach: Muntanyans. This is a protected beach within the Natural Interest Areas regional Plan, as it entails one of the most important dune and marine ecosystem areas in Catalonia.

Selected Green Beaches in Catalunya

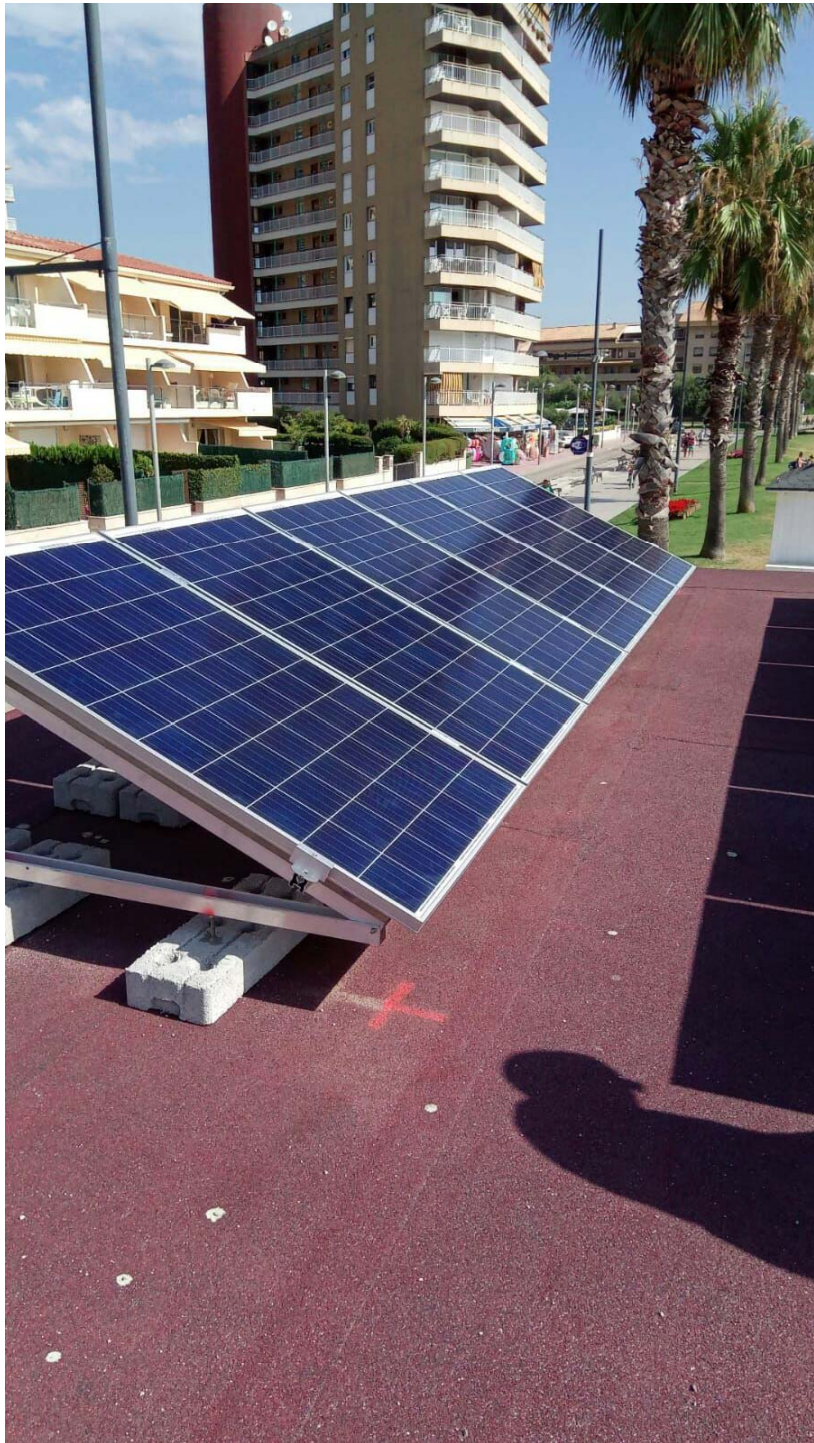

3. Lloret de Mar: is one of the most consolidated tourist destination in the Catalan coastal area. It's located in the southern part of the Costa Brava region, 40 km from the main provincial city of Girona.

Green Beach: Fenals

Green Beach interventions in Catalunya

1. **Torre Valentina beach** in Sant Antoni de Calonge
 - Installation of solar panels in the Life Guard house:
 - It will allow to rely only on solar energy for the usage of electricity
 - Installation of a platform to access the water for people with physical disabilities.

Green Beach interventions in Catalunya

2. Muntanyans beach in Torredembarra

- Development of a route for people with impaired vision and physical disabilities around the natural surroundings of the beach:

Green Beach interventions in Catalunya
