- FRAMEWORK: initiatives, projects, tools and instruments for capitalization and synergies
- PROCESS AND CALENDAR
- MEMORANDUM OF UNDERSTANDING
- REPLICATION OF THE MODEL

CONCEPT FOR THE ELABORATION OF THE MODEL

- **The joint model will aim to improve** - in a more organic and integrated way - **sustainable and responsible maritime and coastal tourism management** in the Mediterranean area
- **It will consider and include a set of valuable tools and results** that will serve as inspiration for **transferability and replicability** in other territories
- **One of the main outputs** of the MITOMED+ project's **capitalising** phase
- **It will build on the results and testing outputs of MITOMED+ and past and current EU & MED projects** related to sustainable tourism management and feed on **current projects and Euro-Med initiatives**
- **Will increase the commitment of regional and local auth./ touristic destinations** and try to positively influence and improve regional/national policies

MITOMED+'s PILOTS & INSTRUMENTS

- ❖ **ONLINE PLATFORM/DECISION SUPPORT SYSTEM:** Benchmarking indicators between tourist destinations and in time
- ❖ **SUSTAINABLE TOURISM INDICATORS:** Manual with best practices to boost transferability in other territories
- ❖ **GREEN BEACH MODEL :** Promoting Blue Flag initiative and improving beach sustainability and the active involvement of local and regional authorities

EXAMPLES OF PROJECTS & TOOLS TO CAPITALIZE

- Interreg MED Sustainable Tourism Community (BleuTourMed)
- Interreg MED CO-EVOLVE/MEDCOAST4BG UfM labelled project
(Tourism Sustainability toolkit)
- Other Interreg MED projects from the community: ALTER ECO, SIROCCO, HERIT DATA, DESTIMED, etc.
- Interreg MED PANORAMED on governance (WG Tourism & future strategic projects)
- Relevant projects from other programs: e.g. CIVITAS Destinations
(Sustainable mobility measures for tourists and residents)

EXAMPLES OF PROJECTS & TOOLS TO CAPITALIZE

Some relevant projects from the Sustainable Tourism Thematic Community:

- **CO-EVOLVE:** aims to develop sustainable tourism based on the principles of Integrated Coastal Zone Management (ICZM) and Maritime Spatial Planning (MSP). **Main outputs:** analysis of threats and enabling factors, strategic planning and participatory processes & tools, tourism sustainability toolkit (customized approach to indicators) and pilots in Mediterranean territories.
- **HERIT-DATA:** aims to develop sustainable & responsible tourism management towards cultural heritage in Mediterranean regions by taking advantage of technology and innovation in management tools as well as other policy and social measures. **Main output:** platform capable of collecting data from selected sources and analyse the impact of tourism on heritage destinations
- **ALTER ECO:** aims to enhance the local sustainable development of tourism by promoting Mediterranean Identity through the implementation of alternative tourist strategies co-designed and implemented by public and private stakeholders.
Main outputs: Model for implementation of innovative tourism strategies; interregional learning Portfolio of Good Practices Database

EXAMPLES OF PROJECTS & TOOLS TO CAPITALIZE

- **DESTIMED:** provide protected areas and their private sector partners with the tools they need to create transformative travel experiences that generate positive outcomes for local communities, while minimizing the impact of tourism on local, natural and cultural resources. **Main outputs:** new ecotourism packages.

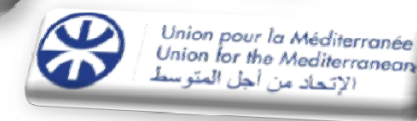

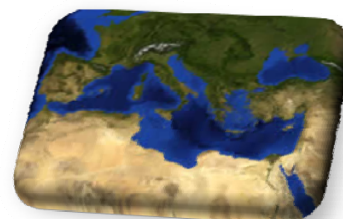

Other relevant projects:

- **CIVITAS Destinations:** H2020 Research and Innovation Project. Develop and implement sustainable innovative mobility measures and actions with a view to offering intelligent transport solutions for tourists and residents alike in six touristic European islands. **Main output:** Economy-sharing driven mobility solutions; business models to guarantee the financial viability and lasting impacts of the measures etc.
