

**RE-LIVE WASTE- Improving innovation capacities of private and public actors for
sustainable and profitable REcycling of LIVEstock WASTE**

Project title and acronym	RE-LIVE WASTE
Work Package	WP2- Communication
Deliverable n. and title	D2.10.1 External events participation
Responsible Partner	NRD-UNISS
Participating partners	All partners
Main authors	Tonito Solinas
Reviewers	Tonito Solinas
Dissemination level	

The following reports provide information about the presence or participation of RE-LIVE WASTE staff members in external events for the purpose of increasing project visibility and sharing information with potential stakeholders.

The document will be updated with future events.

RE-LIVE WASTE- Improving innovation capacities of private and public actors for sustainable and profitable REcycling of LIVestock WASTE

Project title and acronym	RE-LIVE WASTE
Work Package	WP2- Communication
Deliverable n. and title	D2.10.1 External events participation
Responsible Partner	NRD-UNISS
Participating partners	NRD-UNISS, CUT,
Main authors	
Reviewers	
Dissemination level	

1. Title of the event

Interreg MED Green Growth Community building event

2. Location and date

Città dell'Altra Economia, Largo Dino Frisullo, Roma. 17-19 April 2018

3. Institution organizing the event

MED Green Growth

4. Partner (s) and person (s) participating to the event

NRD-UNISS, Italy, Roberta Lobina

Cyprus University of Technology, Cyprus

Department of Environment, Cyprus

5. Role of the participating partner (speaker, public, ...)

A presentation was held by Roberta Lobina

6. Relevance of the event for the project

On the 17th of April, 2018. the MED Green Growth community organized a community building event in Rome. The LP of the RE-LIVE WASTE project informed and encouraged all project partners to register and participate in the abovementioned event through several email invitation (last one dated, March 27, 2018). Part of the reason for this event was to introduce the 8 new projects have joined the INTERREG MED Green Growth community for 2018 (totalling 14 projects) in an array of topics including sustainable agriculture, green manufacturing and waste management, to smart cities and green finance. Besides the flash presentations of the 8 new projects, business to business (B2B) meetings, as well as thematic working groups meetings took place. RE-LIVE WASTE was among the eight new projects that was show-cased. The presentation was given by Roberta Lobina (of the University of Sassari). Following the presentation, the representatives of the different project were

separated into 4 different groups for a quick session of B2B. During the B2B each group had to answer the following questions:

1. What are the most relevant policies for your thematic.
2. What are the project deliverables that might be relevant/used by the entire group.
3. Describe one action that you could do together within the thematic group or the entire green growth community in the next six months.

Finally, short thematic working groups discussions took place, where each project discussed its objectives and deliverables. This has helped into finding common ground between the projects and the exchange of contact information. Prof. Pier Paolo Roggero of the University of Sassari also participated in the meeting. Our project and its objective of efficiently producing struvite for various sources intrigued the interest of the remaining projects.

Besides the networking and project promotion that took place during the meeting, we have found particularly interesting the analysis on various green growth policies and the discussion the different projects can potentially contribute to the key pillars of the European resource policies, such as the Circular economy package, in order to build a common capitalization approach for the MED community.

- i. Agenda – Conference programme

"Empowering territories for a Sustainable Mediterranean"

On behalf of the Interreg MED Communities: Renewable Energy, Green Growth, Urban Transports, Sustainable Tourism, Blue Growth and Biodiversity Protection, we would like to invite you to visit our common stand at Ecomondo 2018 that will be held from 6th - 9th of November at Rimini, Italy.

We also encourage you to join our Conferences during the first and third day. Please contact us in case you are interested to attend and participate.

Interreg MED Communities Conference

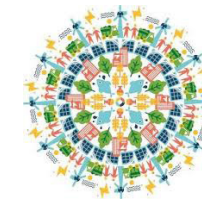

Empowering territories for a Sustainable Mediterranean

#innovation #competitiveness #circulareconomy #sustainablelifestyle

The Interreg MED Programme gathers 13 European countries from the Northern shore of the Mediterranean, working together for a sustainable growth in the region. The Programme supports projects that develop innovative concepts and practices and promote the efficient use of resources in the territory. The Interreg MED Programme established 8 thematic communities, playing a strategic role in facilitating the sharing of results within thematic communities and the capitalization activities of the various projects funded by Interreg MED.

"Empowering territories for a Sustainable Mediterranean" is organised by 6 Interreg MED thematic communities: **Green Growth, Blue Growth, Renewable Energy, Urban transports, Sustainable Tourism** and **Biodiversity Protection**, representing over 200 stakeholders from MED area: national, regional, local authorities, SMEs and professional associations, NGOs, consumers' organizations, clusters, research and academia.

The event will create a space of debate and exchange on the approaches and results of the projects under these 6 thematic communities on how to improve the sustainability of the MED territories. The session is structured into 3 discussion panels, dedicated to the following topics: **"Innovation for sustainability in the MED Area"**, **"Circular Bio-economy opportunities and challenges in the MED area"** and **"Governance, citizens awareness and participation for a Sustainable Mediterranean"**.

Tuesday 6th November 2018

Tiglio Room
Pavilion A6

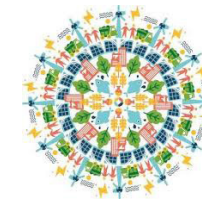

Interreg MED Communities Conference Preliminary Agenda

14.00 - 14.15 Registration
14.15 - 14.30 Welcome and introduction of the Interreg MED Programme
14.30 - 15.00 General presentation of the 6 Interreg MED Thematic Communities

15.00 - 16.00 **First Panel**
Innovation for sustainability in the MED Area
The first panel will highlight the technical and organisational sustainability innovation potential of the MED territories and will provide heterogeneous perspectives on questions such as:
What are the water, energy and other resources challenges for the MED area?
What are the managerial innovative approaches of SMEs and public authorities?
What technical innovation measures are currently deployed by clusters and industry?
What are the most dynamic sectors from a sustainability innovation perspective?

16.00 - 17.00 **Second Panel**
Circular Bioeconomy opportunities and challenges in the MED area
The second panel will make a debrief on the state-of-the-art of waste management and circular bioeconomy initiatives in sectors such as agro-food, manufacturing, energy production, transportation and tourism and will answer questions such as:
How can various actors overcome regional challenges such as marine litter?
How can circular bioeconomy principles and approaches be used to construct the resilience of the MED territories facing climate change challenges?

17.00 - 18.00 **Third Panel**
Governance, citizens awareness and participation for a Sustainable Mediterranean
The third panel will analyze new governance models and how changing behaviours can have a relevant impact for better lifestyles in the Mediterranean cities and will answer questions such as:
What are the sustainability governance and citizens awareness challenges in the MED area?
How can we improve citizens' participation in the elaboration and deployment of sustainability policies?
What best practices exist in the MED territories?

EUROPEAN NUTRIENT EVENT

TOWARDS CIRCULAR ECONOMY OF PHOSPHORUS AND OTHER NUTRIENTS

Organized by: *Ecomondo Scientific Technical Committee, European Sustainable Phosphorus Platform (ESPP), HERA Group, Università Politecnica delle Marche, EU-Horizon2020 SMART-Plant, Italian Phosphorus Platform, Utilitalia*

Phosphorus is a critical raw material, non-renewable resource, non-substitutable for food production, essential for agriculture and directly linked to food security, as well as being important in a range of other industrial and technical uses. Europe is severely dependent on extra-EU mines and the most important use of imported phosphorus in Europe is for mineral fertilizers. On the one hand, recovery from municipal wastewater (sewage sludge), animal manure and other biowaste sources can cover most of the EU demand. On the other hand, inefficient use of phosphorus causes environmental damage. At EU level the European Sustainable Phosphorus Platform and several member states are promoting and regulating phosphorus recovery from municipal wastewater and other waste and residue biomass flows. In Italy the recently founded phosphorus platform is boosting national policies and regulations to promote sustainable management of this critical raw material. This strategic action will therefore present and discuss the EU framework and the actions in place in Italy for sustainable phosphorus management.

10.00-18.00	3rd EUROPEAN NUTRIENT EVENT - TOWARDS CIRCULAR ECONOMY OF PHOSPHORUS AND OTHER NUTRIENTS	

The second day will focus on nutrient recycling and stewardship research, development and innovation (R&D&I) and will:

1. Bring together European, national and company funded nutrient research projects identify synergies and share results;
2. Present (Mediterranean) R&D research activities focused on combined water reuse and nutrient recycling;
3. Networking of leading nutrient recycling projects across Europe with technology suppliers and users;
4. Present European Commission perspectives on R&D&I;
5. Discuss the research needs for nutrient sustainability in the new EU research framework programme 9 (FP9, Horizon Europe), within the five societal challenges and/or a possible Mission on nutrients.

Targeted stakeholders: researchers, R&D projects and institutes, company R&D department representatives, European Commission EASME, DG RTD, DG AGRI, and DG EV, EIP AGRI, EIP WATER, EIT Raw Materials, funding bodies HORIZON2020, LIFE, INTERREG, SME INSTRUMENT

DAY 2 - 9 November 2018

Programme

9.00 – 10.00 Registration European Nutrient Event Day 2

10.00 – 10.50 Opening Plenary – where we come from

Ludwig Hermann – president European Sustainable Phosphorus Platform (ESPP)

Kimo van Dijk - research project manager European Sustainable Phosphorus Platform (ESPP)

Inventory of 100++ nutrient related projects and research underway - summary of 1st (Berlin 2015) and 2nd (Basel 2017) European Nutrient R&D events

Questions and discussion

10.50 - 11.20 Coffee break (*offered by HERA Group*)

11.20 - 12.40 Current nutrient research – what is going on projects speed date presentations

Speed date presentations of about 25 key nutrient research projects. Representatives of selected projects present their specific approach and share results. Projects from different sectors covering different topics, waste flows and countries. Projects presented are a selection of all nutrient related research going on in Europe and covered by the ESPP catalogue of nutrient recycling and stewardship research projects:

www.phosphorusplatform.eu/R&D

Projects that will give a presentation:

H2020 funding: Circular Agronomics, HYDROUSA, INCOVER, PeGaSus, P-Al/Fe-WTR, Run4Life, SABANA, SaltGae, SYSTEMIC, Water2REturn

INTERREG funding: BEST, No_Waste, NuReDrain, SEABASED

LIFE funding: DOP, MEMORY, Newbies, Trialkyl, Vitisom

Other funding: BiofuelcellAPP, HTC, MIND-P, PARFORCE, RAVITA, ViviMag

Questions and discussion

Ludwig Hermann - President European Sustainable Phosphorus Platform (ESPP)

Introduction to afternoon work objectives and method: discussion of R&D needs related to nutrients in FP9 and possible "Mission" on nutrients, based on proposed Mission outline developed by SYSTEMIC / ESPP / International Nitrogen Management System (INMS) / Biorefine Cluster Europe

12.40 - 13.45 Light lunch

13.45 - 15.00 Future challenges in nutrient research, development, innovation and implementation

Small group discussions led by R&D projects underway and discussing research needs (in particular with reference to FP9) in different targeted areas. Discussion leader(s) provide

for each table a short 3 minutes introduction then moderate and ensure reporting. The following tables and topics:

1. **Opportunities and challenges for scaling-up innovative technologies for large scale nutrient recovery?**
Table leader: Andrea Goglio - BiofuelcellAPP project
2. **How to develop and implement a food chain circular economy model for nutrients?**
Table leader: Giuliana D'Imporzano - LIFE-DOP project
3. **Growing sustainable business opportunities with bio-based fertilisers?**
Table leader: Barbara Anton - INCOVER project
Presentations by: Peder Gregersen - Center for Recycling, and Frances Helen Blaikie - Danish Technological Institute
4. **Opportunities and challenges in the combination of water reuse, nutrient recycling and fertigation?**
Table leader: Aurora Seco - LIFE-MEMORY project / Innovation Deal on Sustainable Wastewater Treatment
5. **How to develop business cases for diffuse phosphorus and nitrogen source nutrient removal, recovery and reuse?**
Table leader: Pieter Van Aken - NuReDrain project
6. **Opportunities and challenges of water reuse and nutrient recovery from domestic wastewater based on decentralized treatments and/or segregated streams**
Table leader: Nicolas Morales Pereira - Run4Life project
Presentations by: Simos Malamis - HYDROUSA project
7. **How can manure and digestate nutrient recovery routes and products fit better into market demand?**
Table leader: Inge Regelink - SYSTEMIC project
8. **The role of iron in phosphate recovery: good or bad?**
Table leader: Leon Korving - ViviMag project
9. **Opportunities and challenges in food industry and slaughter houses (wastewater) nutrient recycling?**
Table leader: Robert Reinhardt - Water2REturn project

15.00 - 15.30 Coffee break (*offered by HERA Group*)

15.30 - 17.00 Plenary panel discussion about nutrient research needs in next Horizon Europe (FP9) with a panel of the table leaders and the morning speakers, DG RTD and EC EASME.

Discussion themes:

1. How do nutrients fit in the Horizon Europe pillars? How nutrient research needs identified during the tables are relevant to the five FP9 thematic challenges: Health, Inclusive and Secure Society, Digital & Industry, Climate - Energy & Mobility, Food & Natural Resources.
2. What other EU (R&D) funding instruments are relevant for the nutrient research community?
3. What should a Mission on Nutrients look like? What should be included?
4. How does a mission on nutrients fit in with potential/proposed other missions on food safety, water etc?

RE-LIVE WASTE- Improving innovation capacities of private and public actors for sustainable and profitable REcycling of LIVEstock WASTE

Project title and acronym	RE-LIVE WASTE
Work Package	WP2- Communication
Deliverable n. and title	D2.10.1 External events participation
Responsible Partner	NRD-UNISS
Participating partners	NRD-UNISS
Main authors	Laura Chessa
Reviewers	
Dissemination level	

1. Title of the event

MED Green Growth Community 3rd transnational event- Role of regional and local policy makers in enhancing Green Innovation and Community building event

2. Location and date

Durres, 15-16 November 2018

3. Institution organizing the event

MED Green Growth Community

4. Partner (s) and person (s) participating to the event

UNISS: Laura Chessa and Tonito Solinas

5. Role of the participating partner (speaker, public, ...)

Active role in the Community building event: working on Thematic Working group on Waste Public during the workshop.

6. Relevance of the event for the project

The participation of RE-LIVE WASTE project to the community building event was fundamental in order to start writing the White paper for the Thematic Working group on Waste.

The participation to the workshop permitted to improve the knowledge about the topic of Green Innovation, get in contact with other GG community projects and start thinking about the possible synergies with them.

7. Cost of the participation

1012,59€

 GREEN GROWTH

MED Green Growth Community – Capitalization of results

In the framework of the SYNGGI Capitalization Work Package, the Interreg MED Green Growth Community will analyse and transfer the results delivered by the Modular Projects (MPs) of the community to capitalize the main outcomes to reach EU stakeholders and create policy recommendations for EU policy-makers.

The following outputs will be elaborated by the MED Green Growth community by the end of October 2019:

- Technical reports (white papers)
- Policy recommendations
- Legal recommendations and legal acts recommendations
- MED Green Growth bible

Thematic Working Groups (TWGs) will be created in order to facilitate systematic technical cooperation, synergies and joint work among the modulars in view of capitalization and policy outputs. The TWGs will also support us as horizontal project to gather in a homogenous way your policy inputs and produce the above mentioned deliverables.

Taking into account the strong relevance of our community thematic for the circular economy pillar, as well as the dynamism of this theme at EU level and the vivid legal framework that needs constant revision and input, we shall relate the themes of the TWGs to the [EU Circular Economy Action Plan](#). In order to monitor the progress towards the Circular Economy (CE), the EC has developed an [indicator framework](#), aiming at measuring progress of CE's various dimensions at all stages of the lifecycle of resources, products and services. It has a set of ten indicators grouped into four stages and aspects of the circular economy: (1) production and consumption, (2) waste management, (3) secondary raw materials and (4) competitiveness and innovation. A communication on this framework was released on 01/2018.

Therefore, to be aligned with the EU top priorities and CE indicators, the TWGs will be:

1) Production and Consumption

It will address issues linked to eco-design, best available techniques, advanced manufacturing technologies, product green claims, green public procurement, green technologies, Innovation capacity and awareness-raising, bio-based materials, key materials produced within the EU, Sustainable management of natural resources.

This WG will potentially include two sub-themes:

1a) Resource efficiency.

Relevant CE indicator: EU self-sufficiency for raw materials (indirectly, e.g. resource efficiency).

MPs suggested as relevant to this topic:

- PEFMED
- CAMARG
- MED GREENHOUSES
- MADRE

1b) Smart and Green Public Services

Relevant CE indicator: Green Public Procurement.

MPs suggested as relevant to this topic:

- GRASPINNO
- ESMARTCITY
- GREENOMED

2) Waste prevention & management

It will address issues linked to waste collection system, waste to energy, food waste reduction, food donation and utilisation of former food for animals, recycling of construction and demolition waste, urban waste, recycling of overall packaging waste, plastic packaging, wood packaging, waste electrical and electronic equipment, recycled biowaste, Innovation capacity and awareness-raising, prevention of waste generation.

Relevant CE indicators: Waste generation, Overall recycling rates, Recycling rates for specific waste

MPs suggested as relevant to this topic:

- REINWASTE
- RE-LIVE WASTE

3) Competitiveness and innovation

It will address issues linked to smart specialization, public-private partnerships, innovative funding, private investments, Innovation capacity and awareness-raising, SMEs and entrepreneurship, job creation, Clustering and economic cooperation, patents.

Relevant CE indicator: Private investments, jobs and gross value added, Patents

MPs suggested as relevant:

- CRAINNOVATION
- EMBRACE
- GREENMIND
- FINMED
- ARISTOIL

The TWGs will be composed by partners of the Modular Projects of the MED Green Growth community, SYNGGI Associated Partners and will be moderated by a SYNGGI partner having the most relevant experience for the respective theme. External experts might join the TWGs as well. It is recommended that each modular project designates at least two representatives from the partnership to join one or more TWG:

- 1) A technical coordinator that has an extensive overview on the technical work deployed in the respective project;
- 2) A policy coordinator in charge of the capitalization / policy inputs working package(s) of the project.

Communication by email and participation in on-line meetings, webinars and face-to-face meetings are expected to take place from mid-November to June 2019. The moderator of each Thematic Working Group will ensure that there is a fluent communication and active participation of all members of each TWG, based on a TWG Roadmap that shall be agreed participatively with the modular projects from each TWGs during the next community building – Green Growth living lab in our event in Durrës, Albania.

TIMEFRAME

Date & place	Objective / Activity
First week of November 2018 <i>online</i>	MPs are informed by email about the creation of the Thematic Working Groups and thematics, and eventual input is collected
14th November 2018 <i>Durres / Albania - GG community building event</i>	-> Creation of the TWGs -> Agreement by all the modulars concerning the objectives, expected outcomes and working methodology of each TWG (TWG Roadmaps) -> Presentation and debate of the MED Green Growth White Papers framework
December 2018 - May 2019 <i>online</i>	Monthly online meetings of the TWGs (using GoToMeeting application) to advance on the production of the policy inputs / recommendations under the coordination of SYNGGI partners
April - May 2019 (tbd) <i>GG community building event, EU policies event, INTERREG MED event (Brussels/Greece)</i>	TWGs members meet to fine-tune last details on the policies recommendations and encapsulate them in GG White Papers
June - July 2019	Production of final versions of GG White Papers by SYNGGI and experts based on the TWGs inputs
July – September 2019	Elaboration and presentation of policy and legal recommendations based on TWGs inputs by SYNGGI
October 2019	Creation of the MED Green Growth bible compiling all the policies results and process of the MED Green Growth community by SYNGGI partners with inputs from TWGs

The **3rd transnational event** of the **Interreg MED Green Growth Community** will take place in Durrës, Albania, between 15 and 16 November 2018. It will be the first time the MED Green Growth Community will meet for such an event in a Balkan country. The 3rd transnational event of the Community will analyse the role of policy makers in enhancing the Green Growth innovation and policies and will create contexts of exchanges on the impact of several key players in boosting Green Growth economies.

The **MED Green Growth Community 3rd transnational event** will offer its participants a tailor-made programme with participation from key stakeholders and participatory sessions to debate about the significant role of policies and green growth interventions in domains such as funding, public procurement, rural revitalization and resilience, urban development, sustainable agriculture and industries. The event will benefit from the participation of a **large number of MED stakeholders**, such as national, regional and local authorities, companies, professional associations and research centres coming from Spain, France, Italy, Greece, Cyprus, Slovenia, Croatia, Bosnia and Herzegovina, Montenegro, Macedonia, Kosovo and Albania. Various institutional actors (ministries, national institutes of statistics, international and regional development agencies, and municipalities) from different regions and countries will present their initiatives and vision on green growth innovation and policies and will analyse their consistency and complementarities with those of other MED countries.

The 3rd transnational event will kick-off with a **community building session** organized with the representatives of the 14 modular projects belonging to the Interreg MED Green Growth community (the participation at this session is restricted to project partners only). The event represents the first technical working meeting of the Community that was enlarged with 8 new projects in 2018. It aims to create a functional framework for the next year within which the modular projects will closely work together in thematic groups, both online and face-to-face, to strengthen their capitalization and policy inputs activities, as well as to develop joint political statements.

[REGISTER HERE](#)

Project co-financed by the European
Regional Development Fund

AGENDA

Thursday 15th November

09:00 - 13:00

Community building - Green Growth living lab
Launch of the Thematic Working Groups (Scanderbeg Room)

13:00 - 14:30

Lunch

14:30 - 15:00

Conference - Registration of participants (Albania Room)

15:00 - 15:15

Official opening of the conference:

- Welcome from the President of the Regional Council of Durrës, Mr. Alfred Mullaraj
- Welcome from Prefect of Durrës, Mr. Roland Nasto
- Welcome from the Mayor of Durrës, Mr. Vangjush Dako
- Welcome from AIE - Adriatic Ionian Euroregion, vice President, Mr. Aldrin Dalipi
- Welcome from the Interreg MED JS, Ms. Maria Groueva

15:15 - 16:15

Panel 1 - General considerations on green policymaking

- Interreg MED Green Growth, Mr. Sergio Ponsá, Director BETA Tech Center, UVic-UCC
- National Investment Council, Ms. Diana Leka, Chair
- Albanian Development Fund, Mr. Blendi Bushati, Vice Director
- University of Gjakova Kosovo, Mr. Shaban Buza, Rector
- Government of Catalonia, International Relations Department
- Climate Alliance, Mr. Giustino Piccolo, Project Coordinator

16:15 - 16:45

Open discussion with all MPs and public
(moderator + BETA Tech Center - UVic/UCC)

16:45 - 17:15

Coffee break

17:15 - 18:15

Panel 2 - Green Growth financing and procurement tools

- **finMED project:** Centre for Research & Technology Hellas (CERTH), Chrysovalantis Ketikidis
- **GRASPINNO project:** General Secretariat for Commerce and Consumer Protection
- Ministry of Economy and Development (Greece), Ms. Anastasia Zacharopoulou
- National Institute of Transport, Ms. Blerina Tare, Director
- Environment Monitoring System & Protected Areas Financing Mechanism, Ms. Odeta Cato, Project Coordinator
- Fondazione Ecosistemi, Ms. Ana Maria Paladus

18:15 - 18:45

Open discussion with all MPs and public (moderator + Fondazione Ecosistemi)

20:30 - 23:00

Traditional dinner and music: Restaurant “Dy Kitarat” (30 Euro per person)

Friday 16th November

09:00 - 10:00

Welcome, and recap of the 1st day conclusions

10:00 - 11:00

RE-LIVE WASTE- Improving innovation capacities of private and public actors for sustainable and profitable REcycling of LIVEstock WASTE

Project title and acronym	RE-LIVE WASTE
Work Package	WP2- Communication
Deliverable n. and title	D2.10.1 External events participation
Responsible Partner	NRD-UNISS
Participating partners	
Main authors	Antonio Pulina
Reviewers	Tonito Solinas
Dissemination level	

1. Title of the event

AgroCircle - The implementation of circular economy to agriculture and livestock farming

2. Location and date

Thessaloniki, Greece, 31 January - 01 February 2019

3. Institution organizing the event

Directorate-General for Environment (European Commission), the Region of Central Macedonia, the Region of Thessaly and City of Thessaloniki.

The conference was implemented in the framework of “Zootechnia”, HELEXPO

4. Partner (s) and person (s) participating to the event

NRD-UNISS

Antonio Pulina

5. Role of the participating partner (speaker, public, ...)

Speaker

6. Relevance of the event for the project

The conference was attended by speakers from different European countries such as Greece, Cyprus, Bulgaria, Italy, Spain, whom introduced to an audience of 400 participants and about 1500 through live streaming, pioneering applications of Circular Economy and also presentations of scientific interest from academic staff, European Union executives, bankers and businessmen related to Circular Economy. The participants sent a vigorous message to any direction that the practical implementation of Circular Economy in the everyday life of European citizens has become a necessity.

7. Cost of the participation

491.21 €

8. Annexes

- i. Agenda
- ii. Invitation

agroCIRCLE

The implementation of **CIRCULAR ECONOMY**
to **AGRICULTURE** and **LIVESTOCK** farming

31/01/2019

17:00-18:45	Registration Conference Centre "Ioannis Vellidis"
19:00	Official Opening of Zootechnia and Agrocircle Conference Centre "Nikolaos Germanos" Tassos Tzikas , President HELEXPO Apostolos Tzitzikostas , Governor of the Region of Central Macedonia Ioannis Boutaris , Mayor of Thessaloniki Konstantinos Agorastos , Governor of the Region of Thessaly, President of Association of Greek Regions Katerina Notopoulou , Deputy Minister of Macedonia-Thrace Stavros Arachovitis , Minister of Agricultural Development and Food.

01/02/2019

09:00- 10:00	Registration & Welcome drinks
10:00- 11:00	Opening Addresses Tassos Tzikas , President HELEXPO Margaritis Schinas , Chief Spokesperson of the European Commission Daniel Calleja Crespo , DGENV, Director General George Kremlis , Honorary Director of the European Commission, in charge of circular economy in the islands on behalf of DGENV, Chair of the Organising Committee Ivelina Vasileva , Chair of the Environment Committee of the Bulgarian Parliament, f. Minister of Environment Maria Spyraiki , Member of the European Parliament (MEP) Christoforos Ediaroglou , Representative of the Chamber of Commerce of Thessaloniki

11:00-12:30	<p>Roundtable “Common Agricultural Policy, the way forward” Moderator: Dr. Eleni Hatziyanni, Director of Environment and Spatial Planning, Coordinator of European Projects, Region of Crete, Greece</p> <p>Ioannis Tsironis, f. Alternate Minister of Agriculture, f. Alternate Minister of Environment, Head of the Managing Authority of the Operational Programme Agriculture</p> <p>Konstantinos Agorastos, Governor of the Region of Thessaly, President of Association of Greek Regions</p> <p>Konstantinos Tertivanidis, Representative of Region of Central Macedonia</p> <p><i>“Internet of Things – IoT and Circular Economy: Perspectives and Innovative applications”</i>, Zacharoula Andreopoulou, Associate Professor, Forest and Environmental Informatics, Aristotle University of Thessaloniki</p> <p><i>“Circular Economy and Rural Development: Success Story on Resources Recovering”</i>, Prof. Giovanni Quaranta, Dr. Rosanna Salvia, University of Basilicata, Potenza, Italy</p> <p><i>“Disruptive Technologies in Agriculture and Livestock: Blockchains”</i>, Soulla Louca, Professor, University of Nicosia</p> <p>Stamatis Angelopoulos, Professor, Vice Rector of Research and Lifelong Learning, Alexander TEI of Thessaloniki</p> <p><i>“The arrangements of the new CAP for the development of the Greek countryside”</i>, Nikos Pavlonasios, Vice- President of the Panhellenic Association of Young Farmers</p>
12:30-13:00	Coffee break
13:00-15:00	<p>Roundtable “Agriculture and water resources; Agriculture and waste; Sustainable Agriculture: bio-cultivation, pesticides and fertilizers issues, nitrates” Moderator: George Kremlis, Honorary Director of the European Commission, in charge of circular economy in the islands on behalf of DGENV</p> <p><i>“Food and Agricultural Waste Recycling: Closing the Nutrient Loop through Composting”</i>, Dr. Christos Vasilikiotis, Assistant Professor, Perrotis College, American Farm School</p> <p><i>“Decentralized wastewater treatment plants for the transition to green cities”</i>, Dr. Vasileios Diamantis, Teaching Staff of the department of Environmental Engineering, Democritus University of Thrace, ACT4ENERGY P.C.</p> <p><i>“Wastewater management in light of the circular economy principles”</i>, Anthoula Manali and Petros Gikas, Associate Professor, Technical University of Crete</p> <p><i>“Electrolysis as the basis for the circular economy: the solution to the treatment of liquid agricultural waste”</i>, Georgios Tsiomos, Technical Manager of Onflow</p> <p><i>“Application of circular economy for sustainable milk production”</i>, Georgios Banias, Researcher (Grade C), IBO/CERTH</p>

	<p><i>"Management of Animal By-products", Alexandros Govaris, Professor, Department of Veterinary Medicine, University of Thessaly</i></p> <p><i>"The RE-LIVE WASTE project: Improving innovation capacities of private and public actors for sustainable and profitable recycling of livestock waste", Antonio Pulina, Desertification Research Centre (NRD-UNISS), University of Sassari (Italy)</i></p> <p><i>"BIOSOLIDS S.A.: Implementation of Circular Economy principles in practice", Alexandros Papageorgiou, Chemist, Phd., Production Manager of Biosolids S.A.</i></p> <p><i>"Sustainable agricultural production with the exploitation of innovative geothermal greenhouses and infrastructures. The case study of the Interreg "MED Greenhouses" project", Alexandros Papachatzis, Professor, TEI of Thessaly</i></p>
15:00-15:30	Lunch
15:30-16:30	<p>Roundtable "Financing- Funding Instruments & alternative mechanisms" Moderator: George Kremlis, Honorary Director of the European Commission, in charge of circular economy in the islands on behalf of DG ENV</p> <p>Thomas Vizikas, Representative of Bio-based Industries (BBI)</p> <p>Constantinos Christou, Principal Banker of the Black Sea Trade and Development Bank</p> <p><i>"The right of self-determination of the producer", Dimitrios Petrouskas, Attorney-at-law, Partner Manager of Petrouskas-Kappou and Associates</i></p>
16:30-17:00	Coffee break
17:00-18:30	<p>Roundtable "Best Practices. National and European success stories" Moderator: Achileas Davelis, President of the Association of Thessalian Enterprises and Industries</p> <p><i>"Investing in New Technologies in Energy and Transport", Dr. Spiros Kiartzis, Director of New Technologies and Alternative Energy Sources, Hellenic Petroleum</i></p> <p><i>"Management of Excavation, Construction and Demolition Waste in the Circular Economy and its Impact on the Primary Sector", Anna Michou, Development Consultant of ANAKEM S.A.</i></p> <p>Anastasia Giotsa, Representative of NetEnergy-Biostruction</p> <p><i>"Do we really need to provide more food by 2020?", Carla Tanas, Co-Founder and Managing Director of Industry Disruptors, Co-Founder of Future Agro Challenge</i></p> <p><i>"Biogas Lagada S.A. as a circular economy model", Georgios Kefalas, Producer and Stockholder of Biogas Lagada S.A.</i></p> <p>Faidra Papailia, Representative of Visaltia Dryers Ltd</p>

Background

- MED regions involved in **RE-LIVE WASTE** (in IT, ES, CY, FBH) are characterized by **intensive cattle and pig livestock farming - large amounts of waste**
 - Trend in intensification
- **Agriculture and livestock** have become **key sectors of the MED economy**
 - Livestock production in project's areas:
 - 30% of agricultural production in Murcia
 - 35% of value added in Cyprus
 - FBH cattle production is about 214.000 head
 - In Sardinia has become the main agro-food industry with €135M sales

Issues

Livestock production and effluents are also a major source of pollution in these regions

- GHGs emissions
- Nitrate leaching in groundwater

EU Nitrates Directive limited their use for environmental reasons, with a relapse in terms of increased management problems for farms.

An overall-effective livestock waste management represents a main **major challenge**

CASE-STUDIES

SARDINIA

Location: Arborea

Livestock farming activities: 30,000 cattle in 5,500 ha

Waste management issues:

- Most of the effluents are used by farmers as fertilisers causing soil and ground water pollution (Nitrate Vulnerable Zone); GHG emissions
- 1MW biogas plant: concerns in the management of digestate from Biogas plant

MURCIA

Location: Guadalentín area

Livestock farming activities: 1,8 mln pig heads

Waste management issues:

- Slurry surplus
- serious contamination of the soil, ground and underground water, GHG
- Biogas plant treats more than 2.5 million m³ of slurry, one third of the existing surplus

CYPRUS

Location:

Livestock farming activities: 14000 pigs

Waste management issues:

- Biogas plant
- struvite crystallization reactor (SCR): struvite quantities produced are really small (a few hundreds of grams per day)

SARAJEVO

Location: suburb Sarajevo

Livestock farming activities: 950 heads of which are 500 **dairy cows** in tie-stall system. The farm has about 250 ha of arable land.

Waste management issues: applied nitrogen is 2.5 times more than the Nitrate Directive regulation.

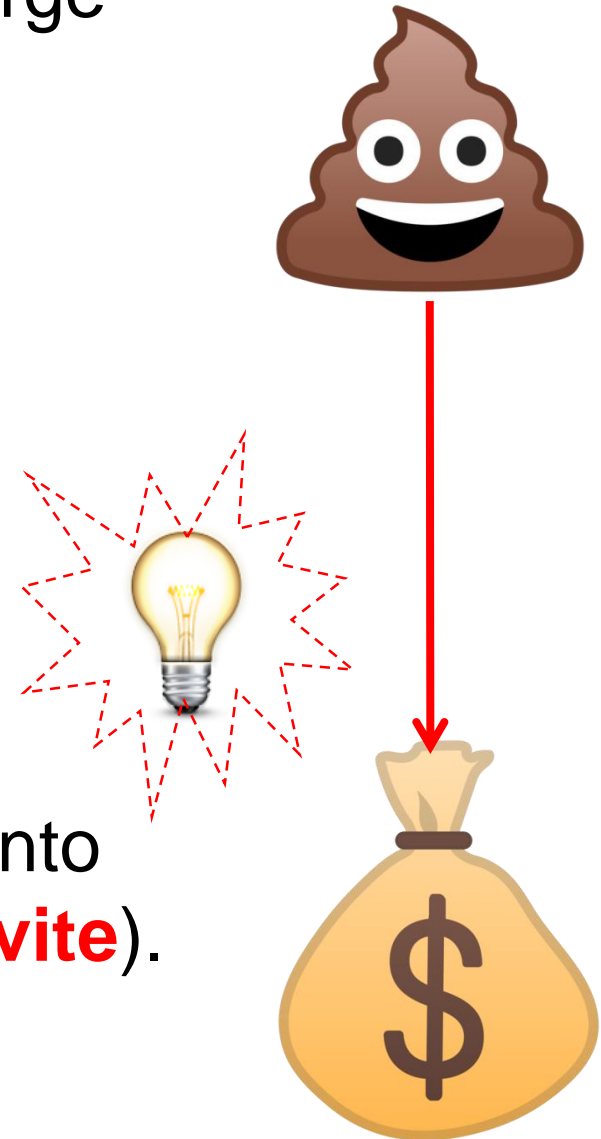

MAIN COMMON PROBLEMS OF INVOLVED REGIONS:

Intensive cattle and pig livestock farming, producing large amounts of **waste** that represent:

- 1.a major source of pollution (soil, water, GHG);
- 2.an environmental challenge for society;
- 3.an economic problem for farms.

RE-LIVE WASTE tests **innovative solutions** to convert livestock waste into resource

Project pilot actions will transform livestock waste into organic **high-value commercial fertilizers** (as **Struvite**).

Overall objective: to **improve innovation capacities** of public and private actors involved in the management of waste from intensive livestock farming, through stronger cooperation among the 4-helix actors.

Specific objectives:

1. Stimulate private actors in the **adoption of innovations for the profitable re-use of waste** deriving from the livestock productive chain.
2. Support public actors in the **formulation of policies that recognize struvite as fertilizer** and incentive the adoption of innovations tested.
3. Improve **transnational cooperation and connections** between actors of the quadruple helix (research bodies, businesses, public authorities, civil society) and other stakeholders.

What we want to achieve

PROJECT EXPECTED RESULTS

1. **3 Small-scale pilot plants** for the production of valuable fertilizers installed and functioning; **1 existing Small-scale pilot plant upgraded** with the introduction of technical innovations;
2. **Non-financial support** provided to enterprises: support SMEs in adopting and testing innovations: Technical training sessions and exchange visits; Evaluation activities of the pilot actions and the comparative analysis;
3. SMEs capacity improved in successfully requesting for grants financing innovative investments: Information sharing on grants opportunities and relevant policies; **Networking activities with 4-helix actors**, that will favor partnership building;
4. Constitution of a **transnational network** to create synergies with innovation clusters;
5. Provided support to policies formulation that can incentive innovation adoption: elaboration of **policies guidelines**, which will be presented and discussed during **regional thematic round tables** . These policies should include **recognition of Struvite fertilizer in the EU legislation**, as well as incentives as fiscal incentives, tax breaks, rewarding criteria for innovative SMEs and clusters.

PUBLIC EVENTS

Thank you for your attention

31 January 2019 - 01 February 2019

"Ioannis Vellidis" Conference Centre, Thessaloniki

It is our pleasure to invite you to the Conference **"The implementation of circular economy to agriculture and livestock farming"**, which will be held from 31st of January to 1st of February 2019, in the International Exhibition & Congress Centre of TIF-HELEXPO specifically in "Ioannis Vellidis" Congress Centre.

The conference is co-organized by TIF-HELEXPO and SUCCESS IKE, under the auspices of DG ENV (European Commission), the Region of Central Macedonia, the Region of Thessaly and the City of Thessaloniki. It will be implemented in the framework of "Zootechnia", the 11th International Fair for livestock and poultry.

It will be our honor to attend to the official dinner of the Conference, which will take place on February 1st, 2019 at 21:30 at the Grand Hotel Palace, Monastiriou 305, 54628 Thessaloniki, Greece.

Thank you in advance for your presence.

P.S.: In case of your absence please notify us promptly.

For the SUCCESS Company,
Yours sincerely,

L. Brentas
K. Kechagias
V. Stilianidis

Interreg MED Green Growth community **Thematic Working Groups workshop**

6th March 2019, Thessaloniki – Greece

Venue: [Hotel Egnatia Palace](#), 61, Egnatia Str.

09:00 - 9:30	<i>Welcome and registration</i>
9:30 – 9:45	Green Growth community contributions to EU circular economy developments George Kremlis, Honorary Director, European Commission
9:45 - 10:15	Thematic Working Groups on Circular Economy - state of the art of the objectives and outcomes MED Green Growth community
10:15 - 10:30	Collaboration with Union for the Mediterranean Alessandra Sensi, UfM Secretariat
10:30 - 11:00	Collaboration with EU projects relevant to circular economy EU H2020 projects HYDROUSA & SCREEN
11:00 - 11:30	<i>Coffee break</i>
11:30 – 11:40	Perspectives of the MED Green Growth policy recommendations CUEIM, partners MED Green Growth community
11:40 - 11:50	Roadmap of the MED Green Growth legal recommendations Antonis Kolimenakis, external expert MED Green Growth community
11:50 – 12:00	Framework of the MED Green Growth Book ECOSISTEMI, partners MED Green Growth community
12:00 - 12:10	Outline of the MED Green Growth white papers Steffen Schwörer, external expert MED Green Growth community
12:10 - 13:30	Workshop white papers Steffen Schwörer, external expert MED Green Growth community
13:30 - 15:00	<i>Lunch</i>
15:00 - 17:00	Thematic Working Groups parallel sessions TWG 1 - Production and Consumption: Resource efficiency TWG 2 - Production and Consumption: Smart and Green Public Services TWG 3 - Waste prevention & management TWG 4 - Competitiveness and innovation
17:00 – 18:00	Wrap up of the TWG & Next steps

OUTLINE AND WORKSHOP WHITE PAPERS - World Café Methodology

12:00 – 13:30 Duration 1h 30min

Session objective: To bring out the circular economy aspects for the development of the white papers from each thematic working group and the related modular projects.

Session timing:

Duration	Section	Type
10'	Introduction (Steffen Schwörer)	Plenary
5'	Setting participants to tables (moderators to help in the distribution)	-
1h (4 rounds x15')	The World Café	Groups
15'	Wrap up	Plenary

1. CONTEXT AND OBJECTIVES of the Workshop

The attending participants will be divided into smaller groups (into their TWGs) to discuss in an open manner topics at each table. The session will follow the World Café Methodology that will divide the participants in up to a maximum of 4 groups (tables).

The participants will be asked to divide into their TWGs, so that they can move together in their groups through each of the discussion tables.

The expected outcome of the workshop is to gain a joint understanding on what should be included in a White Paper and discuss the information contribution from each TWG to the main aspects related to the 4 discussion tables: **(1) Challenges and Problems; (2) Success Factors; (3) Conclusions and Call to Action and (4) Indicators and case studies/pilot applications**

2. Table discussions

Table 1: Challenges

Objective of the table:

To explore and identify challenges that are addressed by the different modular projects with regards to the TWG themes, and to identify those problems and challenges that are common across all or various modular projects.

Guiding questions:

- What are the major challenges addressed by your projects with regards to the TWG theme?
- In which way have your projects been addressing these challenges (in terms of project design, methodologies, etc.)?
- Which specific examples should be featured in the white paper of your TWG?

Table 2: Success Factors

Objective of the table:

To identify the main internal and external success factors of your project and themes with regards to the TWG themes.

Guiding questions:

- What are the **factors** that have lead to success in your project (internal success factors).
- What are the **external success factors** (context – policy framework, stakeholder engagement, socio-economic situation, etc.) with regard to the TWG theme that have enabled your project to be successful?
- What are the common success factors across the modular projects within your TWG?

Table 3: Conclusions and Call to Action

Objective of the table:

To demonstrate the contributions of the MED-GG community to the CE Action Plan using the monitoring framework. Further, to identify and select the key points from each theme for the call action in the white papers.

Guiding questions:

- What is the specific contribution of the modular projects of your TWG to the EU's Circular Economy Action Plan, particularly considering the indicators of the monitoring framework?
- Have your projects generated data that can be used to report against the indicators?
- What key messages should the call action of the TWG white paper contain regarding the TWG theme?

Table 4: Indicators and case studies/pilot applications

This table will not have a rapporteur, but a moderator to guide the discussions that have taken place between the members of each project and to take notes on the conclusions that come out of each TWG.

Objective of the table:

To discuss CE indicators related to the TWG themes, and to identify specific examples in terms of case studies/pilot applications related to the content of the white papers.

Guiding questions:

- How are the activities of your modular project related to the EU CE indicator(s) of your TWG theme?
- From your project work and experience, are there other indicators that could be proposed that could help monitor the progress towards the CE aspect of your TWG theme?
- Can you provide case studies and/or pilot applications that could serve as relevant specific examples in the white paper of your TWG (on challenges/problems and on success factors/solutions)?

➤ **Wrap-up (15min)**

THEMATIC WORKING GROUPS PARALLEL SESSIONS – session overview

15:00 – 17:20 Duration 2h 20 min

Total time available: 140 min

Session objective: To deepen the knowledge about the policy / capitalization frameworks of the modular projects and to analyze / debate the contributions of each TWG to SYNGGI policy outputs

Session timing:

Duration	Section	Type
5'	Setting participants to tables (moderators to help in the distribution)	-
30'	Comments on the plenary session	Groups
1.15h	Debriefing on the policy framework. Feedback and analysis of the contributions of the TWGs & MPs to SYNGGI policy outputs	Groups
15'	TWG feedback	Groups
15'	Wrap up	Plenary

WORK FLOW OF EACH SESSION

Before starting the session, one or two persons should be selected to take notes and present the conclusions to the other groups in plenary.

1. Comments on the plenary session (30 min)

Do you think that the respective actors / projects could support us in the work of the TWG? If yes, how?

- Analyze and collect feedback on the possible synergies / contributions of the TWG to the plenary session presentations such as UfM and EU projects
- Are there are other relevant projects/initiatives that you are collaborating with / would like to collaborate with?

2. Debriefing on the SYNGGI policy outputs. Feedback and analysis of the contributions of the TWGs and modular projects (1 hour 15 min)

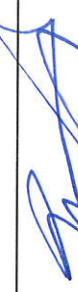

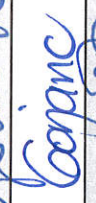

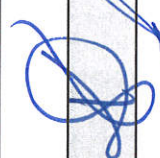

- Brief overview of the policy frameworks of the modular projects: target policies, decision makers, deadlines
- General considerations / feedback on the respective policy output
- Relevance of the TWG for the respective policy output
- Potential contributions of the TWG to the policy output
- Presentation of specific deliverables of the MPs

3. TWG feedback (15 min)

Debate and suggest with the group what improvements could be done to the work being carried out in the TWG: objectives, results, number and type of meetings, actors involved etc.

4. Wrap up (15 min)

Relazione riassuntiva sull'evento di lancio della
PIATTAFORMA NAZIONALE DEL FOSFORO

Roma 26/03/2019 – Auditorium Ministero dell'Ambiente

Premessa

La Piattaforma Nazionale del Fosforo ha la sua *raison d'être* nella [COM\(2013\) 517 final](#) del 8 luglio 2013, detta “Comunicazione consultiva sull'uso sostenibile del fosforo” e dalla [COM\(2015\) 614 final](#) del 2 dicembre 2015 detta “L'anello mancante - Piano d'azione dell'Unione Europea per l'economia circolare”.

In questi fondamentali documenti di indirizzo sono stati illustrati, per la prima volta a livello di Unione Europea, le problematiche relative alla sostenibilità (ecologica ed economica) della produzione e dell'utilizzo del fosforo in tutti i settori tecnologici (sia agricoli, sia industriali). Viene sottolineato formalmente che il fosforo è una risorsa non rinnovabile insostituibile dei mangimi e dei fertilizzanti che trovano largo uso nelle applicazioni proprie dell'agricoltura moderna ma anche che le attuali pratiche comportano l'accumulo di rifiuti e provocano perdite in ogni fase del ciclo, destando preoccupazioni sui futuri approvvigionamenti nonché sull'inquinamento dell'acqua e del suolo sia nell'Unione europea che nel resto del mondo.

Il fosforo disperso, così come l'azoto, è una delle principali cause dell'eutrofizzazione delle acque superficiali in gran parte dell'Europa, e la popolazione europea assume con l'alimentazione circa il doppio del fosforo necessario per un buono stato di salute.

Le risorse mondiali di fosfato minerale sono limitate. Attualmente è ancora vivo il dibattito riguardante la quantità, l'estraibilità e la concentrazione geografica, ma appare chiaro che, a causa dell'elevata interesse internazionale per le materie prime destinate alla produzione alimentare, che il fabbisogno di fosforo è in crescita e perdurerà nel tempo.

Il fosforo quindi viene ascritto tra le “materie prime critiche” per l'Unione Europea, per cui è essenziale promuovere buone pratiche al fine di incrementare l'efficienza nella produzione, nell'uso e nel riciclo, cosicché si raggiunga una condizione d'*uso sostenibile del fosforo*, e garantirne la disponibilità delle riserve per le generazioni future.

Attualmente, a livello europeo ed internazionale, sono state adottate diverse iniziative volte a far fronte ai problemi di inquinamento provocati dal fosforo. Tuttavia queste risentono di un'estrema frammentazione, e solo raramente riescono ad incidere nell'elaborazione delle politiche nazionali.

Nel marzo 2013, dopo la prima conferenza europea sul fosforo sostenibile, attraverso una dichiarazione firmata da oltre 150 organizzazioni, nasce la [Piattaforma Europea del Fosforo](#) (ESPP).

Come punto di incontro tra diversi *stakeholders*, la Piattaforma promuove la condivisione delle conoscenze e delle tecnologie riguardanti la gestione del fosforo, affronta gli ostacoli normativi e contribuisce alle proposte politiche, e concorre a definire una visione a lungo termine per la sostenibilità del fosforo in Europa. I membri dell'ESPP coprono una vasta gamma di attori in tutta la *value chain* del fosforo.

Traendo spunto da questa esperienza, e sulla falsariga di quanto già avviato da altri Stati membri, anche in Italia è emersa l'esigenza di procedere con l'istituzione della Piattaforma Nazionale del Fosforo. L'Italia infatti è tra le nazioni europee con il ciclo del fosforo più sovvertito, insieme alla Francia. In Germania e Olanda, dove esistono piattaforme nazionali di studio e impresa, la situazione è migliorata. Oggi l'Italia lo importa circa il 95% del suo fabbisogno di fosforo pari a circa 206mila tonnellate. Sempre su scala nazionale, ogni anno si disperdono oltre 135 mila tonnellate di fosforo. Attraverso il suo recupero si potrebbe arrivare a un risparmio di circa 60 milioni di euro all'anno, secondo alcune stime.

Con la [Legge n. 205 del 27 dicembre 2017](#), recante il “Bilancio di previsione dello Stato per l'anno finanziario 2018 e bilancio pluriennale per il triennio 2018-2020” è stata prevista l'istituzione, nello stato di previsione del Ministero dell'Ambiente, di un fondo destinato alla realizzazione della piattaforma italiana del fosforo, con dotazione per l'anno 2018 di 100.000 euro (emendamento dell'On. Zolezzi). A seguito dell'attribuzione dei fondi, con decreto direttoriale RIN-DEC-2018-0000155 del 13 novembre 2018, è stata istituita la Piattaforma Nazionale del Fosforo ed è stata individuata l'Agenzia Nazionale per l'Energia, le Nuove tecnologie e lo Sviluppo economico sostenibile dei sistemi produttivi e territoriali (ENEA) quale Gestore della Piattaforma, con compiti organizzativi e gestionali disciplinati da uno [specifico accordo](#) di collaborazione tra il Ministero dell'Ambiente e della tutela del territorio e del mare (MATTM) ed ENEA.

ENEA “potrà avvalersi di Università o altri Enti pubblici che abbiano maturato esperienza in progetti relativi allo sviluppo di tecnologie per

il recupero di fosforo ed altri materiali di valore dal trattamento delle acque reflue”.

La Piattaforma prevede l’istituzione di un Tavolo Tematico sulla conservazione ed il recupero del fosforo, i cui partecipanti sono individuati tra i rappresentanti di Centri di ricerca, Istituzioni (pubbliche e private) e aziende aventi competenza ed esperienza nella gestione del ciclo del fosforo.

Il Tavolo Tematico prevede 4 differenti gruppi di lavoro (GdL):

- **GdL 1 – *Mercato*:** Ricognizione delle politiche europee sui flussi di fosforo e studio del mercato italiano
Resp. [Francesca Cerruti](#)
- **GdL 2 – *Tecnologie e buone pratiche*:** Stato dell’arte sulle migliori tecnologie disponibili e sulle *best practice* per il recupero del fosforo
Resp. [Alessandro Spagni](#)
- **GdL 3 – *Normativa*:** Analisi della normativa riguardante la gestione e il riciclo del fosforo, rilevamento di eventuali ostacoli normativi ed elaborazione delle proposte tecnico giuridiche in tema di riciclo dei nutrienti
Resp. [Sergio Cappucci](#)
- **GdL 4 – *Promozione e sostenibilità*:** Promozione della piattaforma e realizzazione di un sito internet, definizione di un Piano di sostenibilità a lungo termine della piattaforma italiana del fosforo
Resp. [Roberta De Carolis](#)

Il Responsabile della Piattaforma è la Dott.ssa [Claudia Brunori](#), mentre il referente tecnico scientifico di tutte le attività è la Dott.ssa Roberta De Carolis.

L'Evento di lancio svoltosi a Roma il 26 marzo 2019 aveva lo scopo di presentare agli *stakeholders* della Piattaforma del Fosforo e, tra questi, iniziare l'individuazione dei possibili partecipanti ai diversi tavoli di lavoro.

Successivamente ai saluti istituzionali di rito, tra cui quello dell'On. [Alberto Zolezzi](#), membro della VIII Commissione Ambiente, Territorio e Lavori Pubblici, e del Dott. [Mariano Grillo](#), Responsabile della Direzione generale per i rifiuti e l'inquinamento (RIN) del MATTM, si sono succeduti gli interventi di [Fulvia Raffaelli](#), Capo unità della Direzione Generale responsabile per "Industria, PMI e mercato interno" presso la Commissione Europea, e [Pierluigi Franceschini](#), Direttore Co-Location Hub Sud Europa presso [EIT Raw Materials](#). Entrambi gli interventi hanno riportato quanto già riassunto in premessa, ponendo particolare attenzione all'aspetto economico relativo alla dipendenza estera dell'Unione per l'importazione di questa materia prima e alla necessità di attivare politiche a sostegno di un'economia circolare interna, volta al recupero e al riciclo del fosforo. Concetti ripresi e ampliati in chiave Nazionale da Claudia Brunori che ha sottolineato il grande lavoro svolto da ENEA in materia di Economia Circolare e sulla necessità di fare sistema tra gli stakeholders

Di particolare rilievo l'intervento del Prof [Francesco Fatone](#), Professore Associato presso il Dipartimento di Scienze ed Ingegneria della Materia, dell'Ambiente ed Urbanistica dell'Università Politecnica delle Marche nonché membro ESPP. Nella sua relazione ha ripreso i concetti, espressi in una presentazione redatta dal

segretario ESPP [Chris Thornton](#), riguardanti il lavoro svolto dalla Piattaforma Europea del Fosforo. A contorno della relazione, il Prof. Fatone ha condiviso con i presenti alcune considerazioni relative ad un progetto di recupero del fosforo, attraverso la produzione di Struvite, dai fanghi di depurazione della città di Trieste, in particolare concentrando la narrazione sulle difficoltà riscontrate nell'iter autorizzativo per la realizzazione e la messa in funzione degli impianti e al riconoscimento del prodotto come fertilizzante.

L'incontro si è chiuso con la presentazione dei GdL.

Rep. _____ Prot. _____ del _____ Anno _____ Titolo _____ Fascicolo _____ Allegati _____

All'attenzione del
Dr. Giovanni Ragaglia

Il sottoscritto, Michele Gutierrez, coordinatore del progetto "*RE-LIVE WASTE- Improving innovation capacities of private and public actors for sustainable and profitable REcycling of LIVEstock WASTE*", coordinato dal Nucleo di Ricerca sulla Desertificazione - Università degli Studi di Sassari (NRD-UNISS), invita il Dott. Giovanni Ragaglia a partecipare all'Evento di Lancio della *Piattaforma Nazionale del Fosforo*, organizzato dal Ministero dell'Ambiente e della Tutela del Territorio e del Mare e da ENEA, e che si terrà a Roma il 26 Marzo 2019.

La partecipazione del Dott. Ragaglia al suddetto evento, offrirà al progetto RE-LIVE WASTE una occasione di ampliare le conoscenze scientifiche sul ciclo di vita del fosforo, tema cruciale per il progetto RE-LIVE WASTE in quanto la sostenibilità ambientale ed economica della produzione di struvite è fortemente dipendente dalla fonte di fosforo.

I costi della missione a Roma, saranno rimborsati, dietro presentazione delle fatture e ricevute originali, dal progetto RE-LIVE WASTE, nella linea di budget riguardante l'attività 2.10 External events participation.

EVENTO DI LANCIO

Ministero dell'Ambiente e della Tutela del Territorio e del Mare

Via Cristoforo Colombo 44, Roma

Auditorium, 26 marzo 2019

Il Ministero dell'Ambiente ha promosso la nascita della Piattaforma Nazionale del Fosforo, con l'obiettivo a lungo termine di raggiungere l'autosufficienza su questa materia prima strategica e definita critica dalla Commissione Europea, della quale il nostro Paese è quasi totalmente dipendente dall'importazione, e ha individuato ENEA quale Gestore della Piattaforma stessa.

La Piattaforma riunisce tutti gli stakeholder italiani attivi in tutte le fasi del ciclo di vita del fosforo e ha il compito di individuare tecnologie, buone pratiche esistenti e strategie per la chiusura del ciclo su questa materia prima, fino all'elaborazione di un piano di sostenibilità a lungo termine.

10.00-10.30 Registrazione

10.30-11.00 Saluti istituzionali e introduzione ai lavori (Ministero dell'Ambiente e della Tutela del Territorio e del Mare, ENEA)

11.00-11.20 La Piattaforma Europea degli Stakeholder nell'economia circolare – Fulvia Raffaelli, Commissione Europea, Capo unità direzione Generale responsabile per “Industria, PMI e mercato interno”

11.20-11.40 Le iniziative Europee sulle materie prime critiche – Pierluigi Franceschini, EIT Raw Materials, Direttore Co-Location Hub Sud

11.40-12.00 Piattaforma europea del fosforo – Francesco Fatone, membro ESPP

12.00-12.30 La Piattaforma nazionale del fosforo nel contesto dell'economia circolare: obiettivi, struttura ed organizzazione – Claudia Brunori e Roberta De Carolis, ENEA

12.30-13.30 Pausa pranzo

13.30-15.30 Prima consultazione del Tavolo Tematico degli stakeholder – Coordinamento ENEA

15.30-16.00 Conclusioni e prossimi passi

RE-LIVE WASTE- Improving innovation capacities of private and public actors for sustainable and profitable REcycling of LIVEstock WASTE

Project title and acronym	RE-LIVE WASTE
Work Package	WP2- Communication
Deliverable n. and title	D2.10.1 External events participation
Responsible Partner	NRD-UNISS
Participating partners	ALIA
Main authors	Juan Carlos Segura
Reviewers	
Dissemination level	

1. Title of the event

I Conference on Rural Economy. An opportunity for rural development. The circular economy as an engine of progress.

2. Location and date

29/03/2019. Abarán (Region of Murcia).

3. Institution organizing the event

A.D.R.I. Asociación para el Desarrollo Rural Integrado de los Municipios de la Vega del Segura. (Association for the Integrated Rural Development of the Municipalities of La Vega del Segura). In the frame of H2020 LIVERUR project: <https://liverur.eu/>

4. Partner (s) and person (s) participating to the event

Juan Carlos Segura, ALIA.

5. Role of the participating partner (speaker, public, ...)

Juan Carlos Segura participated in a round-table called "Circular Economy and rural development". In this round table also participated the representatives from the public administration and there was a fruitful discussion about how the public administration could interact in order to solve problems related to circular economy. Juan Carlos explained ALIA's experience in national and European projects from the point of view of a private company and problems they have found in trying to achieve an internal circular economy model.

6. Relevance of the event for the project

The workshop was about new circular economy business models, pilot projects to be implemented and rural areas. The rural areas in the Region of Murcia are agricultures and farmers areas, so all this kind of actors could be interested in our project and the struvite solution. As well, Juan Carlos explained the experience in H2020 CIRC4Life project and Interreg MED RE-LIVE WASTE project.

7. Cost of the participation

0 €.

13 June
2019

SARAJEVO

Dear Madam or Sir,

The Directorate for European Integration, National authority of Bosnia and Herzegovina, Presidency and the Region of Sud Provence-Alpes-Côte d'Azur of France, Managing Authority of the Programme have the pleasure of inviting you to the “MADE in MED in the Balkans” event on 13th June 2019 in Sarajevo, Bosnia and Herzegovina.

In the Interreg Mediterranean (MED) Programme, 1 out of 2 running projects involves partners from Albania, Bosnia & Herzegovina and Montenegro, the three Interreg MED-IPA participating countries.

More than 40 partners are involved in 45 projects (out of 91) cooperating in diverse topics from innovation to biodiversity protection. These figures demonstrate the skills, the capacity and the strength of the European countries' contribution, benefitting from the Instrument of pre-accession assistance (IPA) to deliver the programme results.

As many projects reach their conclusion this year, the time has come to showcase the solutions, tests, studies, policy-making measures, field work and Interreg MED cooperation added value behind these figures, assessing the real impact of Interreg MED projects throughout IPA regions.

Programme co-financed by the European
Regional Development Fund

What is awaiting you?

What's on the agenda?

The Event is structured around two main important moments: testimonials of partners involved in MED projects with a special mention for best solutions put in place and an exchange of views on real impact of projects in IPA territories.

Thursday 13th June 2019

9:00'	REGISTRATION
09:30'	Opening of the morning session

RE-LIVE WASTE- Improving innovation capacities of private and public actors for sustainable and profitable REcycling of LIVEstock WASTE

Project title and acronym	RE-LIVE WASTE
Work Package	WP2- Communication
Deliverable n. and title	D2.10.1 External events participation
Responsible Partner	NRD-UNISS
Participating partners	FGN and NRD_UNISS
Main authors	Jordi Domingo, Javier Ruiz, Tonito Solinas
Reviewers	
Dissemination level	

1. Title of the event

Transition towards blue and green economies in the Mediterranean.

2. Location and date

September 19th-20th, 2019. Brussels

3. Institution organizing the event

Interreg MED.

4. Partner (s) and person (s) participating to the event

FGN- Jordi Domingo and Javier Ruiz

5. Role of the participating partner (speaker, public, ...)

-Public

-Participation in Sparkshow and speakers

6. Relevance of the event for the project

Promote the project in the Sparkshow and contact with journalists interested in the project.

Contact Avelino Gonzalez-Gonzalez. Senior policy and project officer, DG Research and Innovation, for launching networking activities of the project. More specifically by identifying key stakeholders at the EC and EP working with such topic, by better understanding the current status of the biofertilizers regulations to be approved, and by organizing future meetings in Brussels with decision-makers.

Contact Mercè Boy-Roura. Univ Vic/UCC Green Growth community.

7. Cost of the participation

From Spain

Flights: 279,17 €

Hotel: 278,48 €

Perdiems: 266,8 €

TOTAL= 824,45

From Italy

Flight: 300,00

Accommodation: 250,00

Transports: 150,00

TOTAL: 800

***Blue & Green Growth communities' joint event
September 19-20, 2019 – Brussels***

*Committee of the Regions
AREA42*

>> REGISTRATION <<

"Transition towards blue and green economies in the Mediterranean" marks Interreg Med Blue and Green Growth Communities' three years anniversary, representing the end of their first implementation period and bridging to the upcoming one. After three years of reflections, technical analyses and pilots, multiple events and links with external key actors, both communities from Interreg Med's innovation axis join forces to reflect on key common issues and spaces for more collaboration towards innovative sustainable growth in the Mediterranean.

During its first day, addressing the role of territorial cooperation for sustainable development, as well as business innovation, access to finance, education to sustainability, and policy-making for bluer and greener economies, this event aims to reflect on regional smart specialization strategies and on how sustainability is fostered through Mediterranean clusters. It is open to a wide variety of participants and will involve key stakeholders from the European Institutions, the private and finance sectors, the academia, NGOs and thematic community projects for a common dialogue.

During its second day, both communities present the opportunity to address inherent issues in a more sectoral way link to the blue economy on the one hand, and to the green economy on the other.

All conclusions from the discussions will be transferred to the whole of the communities in view of their respective next implementation phases, as to other stakeholders through events such as the [Research & Innovation Days](#) organized the following week, or the EU Open Days.

Draft Agenda

September 19, 2019

Committee of the Regions

Room VMA1, rue Van Maerlant n°2

Working languages: English, French, Italian, Spanish

8.30-9.00	Registration
9.00-9.30	Institutional welcome <ul style="list-style-type: none"> ➤ Representative of the European Committee of the Regions ➤ Representative of Murcia Region
9.30-11.00	Session 1: Territorial cooperation: building bridges for a sustainable development <p><i>This session explores how territorial cooperation is a key element to foster a harmonious economic, social and territorial development of the Mediterranean as a whole. It addresses as well how the Interreg Med programme and thematic communities provide a framework for the implementation of joint actions and policy exchanges between national, regional and local actors from different Member States, and let the door open for reflections regarding the upcoming programming period.</i></p> <ul style="list-style-type: none"> ➤ Representative of DG Regio/CoR ➤ Representative of WestMed/EUSAIR ➤ Representative of Interreg MED ➤ Representative of a regional/local authority ➤ Representative of a cluster
11.00-11.30	Coffee break
11.30-13.00	Session 2: Fostering business innovation and access to finance <p><i>This session will focus on the latest blue and green economy development and innovation opportunities for clusters and SMEs. Panellists will present how public finance, regulations and policies play an important role in attracting and mobilizing private investment into Blue and Green Economies. Moreover, panelists will propose recommendations on how to accelerate Blue and Green Growth happening at national and regional levels.</i></p> <ul style="list-style-type: none"> ➤ Representative of European Commission/EASME ➤ Representatives of financial institutions ➤ Representative of a regional/local authority ➤ Representative of a cluster ➤ Representatives of thematic community projects

13.00-14.00	On-site lunch
14.00-15.15	Session 3: Education and awareness raising to and for sustainability
	<p><i>Education to and for Sustainability is a learning and changing process relevant to society, communities and all organizations. The session engages the community and builds awareness and knowledge on way to address sustainability issues within educational schemes, with the aim empower participants in thinking critically, innovate and provide solutions towards more sustainable systemic changes and patterns of living from earlier stages.</i></p> <ul style="list-style-type: none"> ➤ Representative of a regional/local authority ➤ Representative of Fridays4Future ➤ Representative of a cluster ➤ Representatives of thematic community projects
15.15-15.30	Coffee break
15.30-17.00	Session 4: Development of policy recommendations for a green and blue economy in the Mediterranean
	<p><i>Debate on the strategic policy framework for securing a sustainable future for the Mediterranean region consistent with Sustainable Development Goals. The Interreg MED Blue Growth and Green Growth thematic communities will present their work on developing policy involving research, analysis, consultation and synthesis of information to produce recommendations. Reflections will address land-sea interactions and the potential merging between blue and green economies.</i></p> <ul style="list-style-type: none"> ➤ Representative of the European Commission DG RTD ➤ Representative of Union for the Mediterranean ➤ Representative of PANORAMED ➤ Representative of a regional/local authority ➤ Representative of a cluster ➤ Representatives of thematic community projects
17.00-17.30	Wrap-up and conclusions
17.30-19.00	Sparkshow – Journalists meeting committed and innovative Interreg MED projects
	<p><i>Inspired by “TEDx” and “The Voice”, Sparkshow offers the opportunity for Interreg Med projects partners to pitch their project before an audience and a panel of journalists sitting behind buzzers and ready to show their interest. This format allows putting to the forth positive impact projects dynamically and to network with journalists seeking good stories for their readers.</i></p>

Therefore, it is a real opportunity for Interreg Med projects from the Blue and Green Growth communities to get media coverage. This type of show is appreciated for its innovative aspect: a hub for impactful projects and an optimism fix.

During the event, selected projects will have the opportunity to pitch their project (3 minutes) in front of a panel of journalists. When the journalists are interested by the pitch, they press the buzzer and will have the opportunity to be the first to write about the innovative project that has been presented. Then the journalists ask questions, explain why they are interested in the project and give advice to the nominee in order to cover the story. Selected projects will receive a personalized pitch training beforehand.

All Modular Projects from the 2 communities will be contacted shortly by Sparknews to start the selection process and provide more information about the show. Get ready to pitch your project! >> [More information](#)

19.00-20.00 Cocktail mixer – End of day 1

**Transition towards
blue and green economies
in the Mediterranean**

September 20, 2019 - AREA42, Rue des Palais n°46

Working language: English

Green Growth community bridging event	Blue Growth community bridging event
<p>This event brings out the outputs of the Interreg Med Green Growth community and its 14 projects on the recommendations towards the transition to a green and circular economy in the Mediterranean region. The work performed in the Thematic Working Groups and the results of the policy outcomes will be discussed with the projects of the community and relevant stakeholders.</p> <p>The event is also expected to boost synergies between projects of the community, external stakeholders and EU policy makers leading to broader and effective networks. Moreover, it will facilitate opportunities for the implementation of sustainable development practices in the basin, while maximizing the transnational replicability and capitalization potential of results.</p> <p>Background: The Interreg Med Green Growth community is a network of 14 projects, working on the territory, promoting a sustainable development in the Mediterranean area based on the sound management of natural resources and by fostering innovation through an integrated and territorially based cooperation approach. The thematic community supports the projects in their communication and capitalization efforts thus increasing their impact at policy level and ensuring potential transfer of their results to other interested countries of the Mediterranean region.</p>	<p>This event brings out the outputs of the Interreg Med Blue Growth community and its 6 projects addressing recommendations towards the transition to a sustainable blue economy in the Mediterranean region. The work performed throughout the last years, including the finalized projects deliverables for policy outcomes will be discussed with actors of the Blue Growth Community.</p> <p>The event expects to boost synergies between all actors of the community to ensure the sustainability of its projects results, as to facilitate their transfer and bridge them to the Community's second implementation phase. These dynamics shall foster both capitalization and mainstreaming processes.</p> <p>Background: The Interreg Med Blue Growth community is a network of 6 projects, promoting the sustainable development of the blue economy in the Mediterranean area, based on the sound management of the natural resources through innovation and markets typologies. The Blue Growth community supports all projects in their communication and capitalization efforts to increase their impacts at policy level and scale them up over the Mediterranean region.</p>

9.30-11.00	Session 1 - Recommendations for a green & circular economy	Session 1 - Recommendations for a sustainable blue economy
	<p>EU supporting the transition to a green and circular economy</p> <ul style="list-style-type: none"> ➤ Representative of the European Commission DG <p>Insights into the European Circular Economy Stakeholder Platform</p> <ul style="list-style-type: none"> ➤ Representative of the EESC <p>Green Growth community contributions to EU circular economy developments and policy outcomes</p> <ul style="list-style-type: none"> ➤ The Green Growth community & external experts <p>"Greece: A Growth Strategy for the Future" - a good example of capitalisation of project results</p> <ul style="list-style-type: none"> ➤ Representative of GRASPINNO project 	<p>Presenting the Blue Growth Community Policy paper</p> <ul style="list-style-type: none"> ➤ Representative of Policy paper expert ➤ Representative of the European Commission JRC ➤ Representative of Blue Invest ➤ Representatives of Modular projects ➤ Representative of local/regional authorities
11.00-11.30	Joint Coffee break	
11.30-13.00	Session 2 - Interviews to actors: what can we do to stimulate the transition towards a circular economy?	Session 2 - Fostering transfer, capitalization & mainstreaming of strategic projects results
	<p>1st round of interviews: "What can the circular economy do for small and medium enterprises?"</p> <ul style="list-style-type: none"> ➤ Representatives of Modular Projects and external experts <p>2nd round of interviews: "What can the regional public administration do to boost the circular economy and the green growth in the territory?"</p> <ul style="list-style-type: none"> ➤ Representatives of Modular Projects and external experts <p>3rd round of interviews: "Which are the policies at the national level that should be adopted to stimulate the transition towards a circular economy?"</p> <ul style="list-style-type: none"> ➤ Representatives of Modular Projects and external experts 	<p>Towards transferring & capitalizing beyond projects and programme areas</p> <ul style="list-style-type: none"> ➤ Representative of WestMed ➤ Representative of METU IMS for the Black Sea ➤ Representative of ENSMAL Algeria ➤ Other tbd. <p>Building bridges: Signature ceremony for Memoranda of Understanding</p> <ul style="list-style-type: none"> ➤ The MAESTRALE and PELAGOS projects ➤ The Blue Growth Community ➤ Other tbd.

MANAGING AUTHORITY
OF EUROPEAN TERRITORIAL
COOPERATION PROGRAMMES
GREEK PRESIDENCY 2019

Dear Madam or Sir,

The Interreg MED Programme managed by the Region of Sud Provence-Alpes-Côte d'Azur, together with the Managing Authority of European Territorial Cooperation Programmes in Greece warmly invite you to the event: "MED for YOU – Unfolding a strong narrative for policy change" taking place on 24th October 2019, in Athens, Greece.

MED for YOU will premiere the first evidence of the successful Programme innovative approach unfolded before your eyes. We will reveal how this unique architecture has taken shape and produced concrete results little by little thus demonstrating its added value.

The results will be presented around 2 questions directly linked to the objectives of the European cohesion policy:

- How to survive climate change? The Mediterranean way.
- Which drivers for a sustainable and inclusive growth?

The second act of this event will be dedicated to a debate on post 2020 and the added value of European territorial cooperation in the Mediterranean. In light of the current and future landscape of the Mediterranean cooperation, we will raise the question of the Interreg MED Programme positioning.

**Join us to write together the sequel of the
Interreg MED story!**

#MEDforYOU

WHAT'S ON?

ACT 1

What's unique in the cooperation approach of the 2014-2020 Interreg MED?

Since 2014, the Interreg MED Programme has been continuously working to trigger real policy change in the territories. It is to this end that its team members designed an innovative approach that goes beyond the common cooperation schemes and integrates capitalization at all levels of the Programme and of the projects.

Together with the members of the 8 Interreg MED communities, we will demonstrate the added value of this approach and how it makes the Programme unique to face future challenges. You will discover how some stakeholders seized these results and integrated them in their policies or strategies. But also, how some others - **maybe you?** - could get involved and adopt them.

AGORA

If you are interested in getting behind the scenes of the Interreg MED projects, discovering their results, and meeting the “actors”, book the session of your choice during lunchtime. Do not miss this opportunity!

ACT 2

POST 2020 SCENARIO

What could be the sequels of the Interreg MED story?

The current programming period is coming to an end. So it is time to think of a potential sequel for the Interreg MED story. We will spend the afternoon discussing about the future of European territorial cooperation in the Mediterranean region. How we can improve synergies and territorial impact for a prosperous and sustainable Mediterranean. We will count on the participation of Representatives of European institutions to have an open dialogue about shared political objectives and coordination in the region.

PHOTO EXHIBITION

Visit the photo exhibition of our rising stars and experience the projects from a creative point of view!
In the foyer of the Skalkotas Hall, you will find artistic pictures of the Interreg MED projects.

Memoria - informe

INTRODUCCIÓN

La presente actividad se enmarca dentro de las ayudas al amparo del RD 146/2019 de 15 de marzo de 2019, por la que se conceden subvenciones destinadas a entidades de mujeres rurales de ámbito nacional para la realización de actividades de especial interés para impulsar el papel de las mujeres en el desarrollo rural, y, que en este caso, la entidad beneficiaria es la Unión de Mujeres de Agricultoras y Ganaderas.

Por este motivo, la Unión de Uniones de Agricultoras y Ganaderas dentro de los requisitos establecidos en la Resolución mencionada, organiza y ejecuta la siguiente Actividad formativa y con visita técnica en la localidad de Peñíscola, provincia de Castellón.
