

## Region of Lubin

**POWIAT LUBIŃSKI**

Oficjalny serwis informacyjny - turystyczny

### Region profile:

- **Urban agglomeration:** Lubin (Poland)
- **Area:** 712.17 km<sup>2</sup>
- **Inhabitants:** 102.461
- **Population density:** 150 inhabitants per km<sup>2</sup>

### Organisational profile:

- Responsible and representative institution in terms of administration of the public transport in the area of Lubin.

### Role in the project:

- Region of Lubin, in close cooperation with the City of Lubin, plans to gradually increase the attractiveness of public transport through creating a unified transport system by means of an organizational unit.

### Activities in the project:

- Develop marketing concept reviewing the impact of an existing tariff-free transport system to identify further fields of improvement;
- Develop concept for a creation of an intermodal hub for the new Lubin railway station as well as for its connection to the nearby located Lubin Economic Activity Zone;
- Analyse technical and legal requirements regarding the use of autonomous electric vehicles on public roads;
- Review and improve the existing urban public transport system to exploit better the future potential of the new railway station as a regional transport node with its connections to Wrocław, Berlin and Dresden.
