REMEDIO

The REMEDIO project:

Horizontal Condominium as a living lab for renewals of high congested roads in Mediterranean cities

Salvatore Patti - ARPAV, Project Manager of REMEDIO on behalf of the whole REMEDIO partnership

REMEDIO

Challenges tackled by REMEDIO

The contest:

Interreg

Mediterranean

- Mediterranean middle sized cities and towns
- ·lack of urban planning, lack of proper orbital roads or bypasses

The challenges:

- ·high density areas
- roads suffering from traffic jam
- wounds in the connectivity of the wide spread city
- economic crisis and social exclusion

The impacts we want to lower:

- Poor quality of life and of the environment
- ·High fossil fuel consumption, noise and air pollution
- health effects, costs

#1

GOVERNANCE PILLAR

a new participative governance model for roads of middle sized Mediterranean cities, based on "horizontal condominium" Participatory process
as winning strategy
for urban communities
congested by traffic

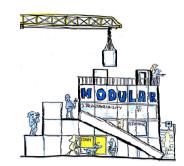

Building the horizontal condominium

Promotion and Strengthen the ownerships and membership of the "horizontal condominium"

Community identity needs time to be built and to grow

build up the local giuridical format of the participatory entity

let the community to propose itself the best solution with special attention of its **maintenance** in the long term

Agree on a mid or long-term goal

... as a guiding element for the participatory process

Urban analysis

Collection of needs, expectations and ideas of the local community

Expert working groups, encounters, assemblies, public consultations

Engagement of strategic actors

Local decision makers & policy makers public & private organizations, business owners, infrastructure & service providers citizens, commuters, students, families, civil society

Develop a common vision

What kind of **road (neighbourhood/city)** do we want to live in? How will it differ from now?

REMEDIO International Conference: "HORIZONTAL CONDOMINIUM AS A LIVING LAB FOR URBAN RENEWALS" 1 October 2019, Treviso

Small scale investments as pilot measures fostering urban low carbon mobility

Infrastructural works for urban renewal, cycling paths, greening bike sharing systems, second generation bus lane, ...

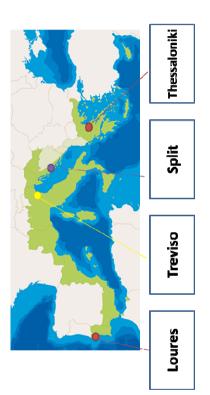

REMEDIO International Conference: "HORIZONTAL CONDOMINIUM AS A LIVING LAB FOR URBAN RENEWALS" 1 October 2019, Treviso

REMEDIO Small scale investments

- redesign of the major penetration axis
 with a 2nd generation bus lane &
 green-taxiway
- mixed *e-bike* sharing network

- bike sharing network serving the pilot road
- renewal of an urban street toward an upgraded pedestrian and cycling profile of the area

REMEDIO International Conference: "HORIZONTAL CONDOMINIUM AS A LIVING LAB FOR URBAN RENEWALS" 1 October 2019, Treviso

#3

SOFT PILLAR

an Integrated Modelling Tool (IMT) to evaluate low carbon mobility actions to be implemented in highly congested roads Assessment of urban solutions for congested roads

The Integrated Modelling Tool

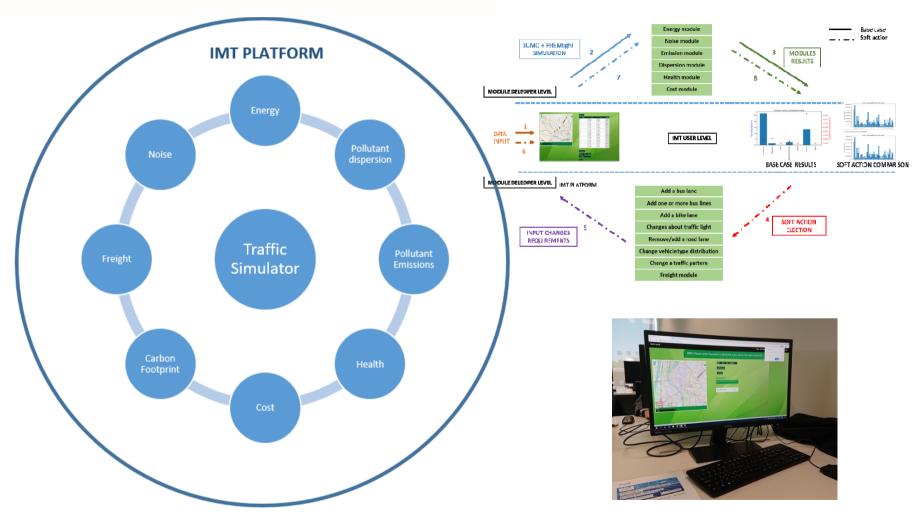

REMEDIO International Conference:

"HORIZONTAL CONDOMINIUM AS A LIVING LAB FOR URBAN RENEWALS" 1 October 2019, Treviso

REMEDIO International Conference:

"HORIZONTAL CONDOMINIUM AS A LIVING LAB FOR URBAN RENEWALS" 1 October 2019, Treviso

EDUCATIONAL PILLAR

a set of educational activities to raise awareness and disseminate the importance of low carbon mobility

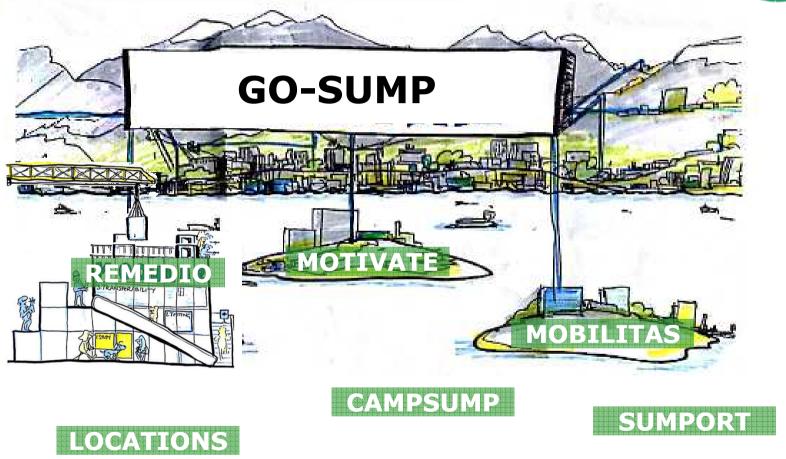

The Interreg MED Community on Urban Transport

REMEDIO International Conference: "HORIZONTAL CONDOMINIUM AS A LIVING LAB FOR URBAN RENEWALS" 1 October 2019, Treviso

This presentation is the outcome of a cooperation among all REMEDIO partners
