

Event Report

July 2017 - June 2019

D.C.2.1

06/2019

The following table visualizes the documentation of the events attended during the timeframe of ECRR as determined by **deliverable D.C.2.1** of the ECRR project.

All partners were asked to observe important events during the project duration that focused on cultural heritage and Reformation-themed heritage in Europe. The goal set by the Application Form was to have a minimum of one event attended by one of the partners. Throughout the project time, many more events were attended by partners. Thus, the project's outreach was greatly enhanced and increased. Events were attended in the area of Central Europe and beyond. In total thousands of people were reached and came into contact with INTERREG CE, ECRR, and the route.

In the following document we list a table which summarizes the events attended by the partners. This information listed is based on the collected information of the partners. Secondly, proof of the events by each partner can be found following the listed information.
