Aim/role with respect to the transfer process	

Das Enterprise Europe Network (EEN) ist das weltweit größte Netzwerk zur Unterstützung von Technologietransfer und internationaler Kooperation mit mehr als 600 Partnern in über 60 Ländern der EU und darüber hinaus. Das Enterprise Europe Network Sachsen besteht aus einem Konsortium von 9 Partnern. Schwerpunktmäßig werden Unterstützung beim internationalen Technologietransfer, vor allem von und zu kleinen und mittleren Unternehmen (KMU) sowie Beratung zu europäischen Förderprogrammen angeboten. Dabei steht den Mitarbeitern des EEN und der Öffentlichkeit unter anderem eine Datenbank mit mehr als 25.000 aktuellen Technologieangeboten und -gesuchen zur Verfügung. Auch Partner für Forschungsprojekte werden vermittelt. Darüber hinaus erfolgt die Organisa-

The Enterprise Europe Network (EEN) is the worldwide largest network in support of technology transfer and international cooperation with more than 600 partners in more than 60 countries of EU and beyond. The Enterprise Europe Network Sachsen consists of a consortium of 9 partners. Primarily it offers support with international technology transfer, mainly from and to SMEs, and consultation about European funding programmes. For this a database with more than 25,000 current technology offers and requests is at the EEN employee's and public disposal. Partners for research project also can be found. Furthermore coaching measures for beneficiaries of the H2020 SME programme and supporting activities for SMEs to enhance their innovative capability are organised.

tion von Coaching-Maßnahmen für Begüns-tigte des H2020-KMU-Programmes und Unter-stützungsmaßnahmen für KMU zur Verbesse-rung der Innovationsfähigkeit.

Main area with respect to the key topics

## OFFERED TRANSFER ACTIVITIES

**services in terms of the identification and description of innovative and eco-nomically applicable ideas**

- identification of current research results in research institutions, universities (e.g. using tech-nology scouting)
- foster scientists in the description of the exploitable idea, focussed on its application in enter-prises
- technology assessment according to technical and economical aspects, such as technology ma-turity level, patentability, standard conformity, necessary licensing procedures)
- determination of the potential technology users' (licensees) needs and requirements

**services in terms of the dissemination of innovative and economically applica-ble ideas**

*publish and disseminate*

- user-oriented descriptions of the idea (technology), (such as technology offers and technology files)

*publication modes and media*

- various print media
- data-bases, online platforms, websites introducing innovative ideas
- newsletters/RSS
- brokerage events (events bringing together developers and potential users)/ meetings introduc-ing economically applicable research results

**services to bring together parties that could be relevant for the application of new ideas and technologies**

- implementation of visits in research institutes or enterprises

- implementation of meetings, workshops, conferences (e.g. for initiating and intensifying contacts between science and business, for discussing detail information about innovative ideas and technologies)
- sub-sequential evaluation of discussions between technology suppliers (similar to licensors) and technology users (similar to licensees), such as finding out whether the partners can go on discussing the technology/ results independently or need additional support
- initiating and presenting/ moderating bilateral and subject-specific discussions held by technology suppliers and potential users

### **services in terms of the preparation of economic exploitation of an (innovative and economically applicable) idea/ technology**

- contract research (initiating, bringing together the potentially exchanging parties)
- research cooperation (initiating, bringing together the potentially exchanging parties)
- consulting to find out and make use of the resources required for the final implementation of new technologies or processes in enterprises (e.g. support in scouting out and canvassing of funding options for the implementation of new technologies in a company, support in the management of licensing procedures)
- boosting acquisition of financing or funding of the defined transfer (particular SME instrument, H2020)

### **services of the economic exploitation of innovative and economically applicable ideas**

- supporting patent exploitation/ licensing (e.g. patent search; market analysis, foundation consulting): publication of user-oriented descriptions of innovative ideas (e.g. *technology offers*, *technology requests*)
- support of licensing (e.g. market analysis, legal consulting): by publishing of user-oriented descriptions of the idea (e.g. *technology offers*, *technology requests*), *NO legal advice*
