Main area with respect to the key topics	
Maschinen- und Anlagenbau, Werkzeug- und Formenbau, Elektrotechnik/Elektronik, Holz/Kunststoff/Verpackung, Metallbe- und -verarbeitung, Werkstoffentwicklung, Forst/Umwelt, Messen und Veranstaltungen	mechanical and plant engineering, tool and mould construction, electrical and electronic engineering, wood/plastics/packaging, metal working, material development, forest/environment, fairs and events
Main contact person for transfer	Alexander Reichel
telephone	+49 37360 66642
email	a.reichel@artising.de

OFFERED TRANSFER ACTIVITIES

services in terms of the identification and description of innovative and economically applicable ideas

- identification of current research results in research institutions, universities (e.g. using technology scouting)
- foster scientists in the description of the exploitable idea, focussed on its application in enterprises: e.g. application for R&D projects
- technology assessment according to technical, legal and economical aspects, such as technology maturity level, patentability, standard conformity, necessary licensing procedures): plays a role, but it is not a focus

- determination of the potential technology users' (licensees) needs and requirements

services to bring together parties that could be relevant for the application of new ideas and technologies

- implementation of visits in research institutes or enterprises: individual visits of enterprises and research institutes; face-to-face
- sub-sequential evaluation of discussions between technology suppliers (similar to licensors) and technology users (similar to licensees), such as finding out whether the partners can go on discussing the technology/ results independently or need additional support: minutes; recommendations for action
- initiating and presenting/ moderating bilateral and subject-specific discussions held by technology suppliers and potential users

services in terms of the preparation of economic exploitation of an (innovative and economically applicable) idea/ technology

- contract research (e.g. initiating, bringing together the potentially exchanging parties, project management): proposal for R&D funding until the aid granting decision; if required also management for project implementation, not carrying out any own research activities
- research cooperation
- consulting on technical issues in order to support the final implementation of new technologies or processes in enterprises: (e.g. support for adapting new technologies to the existing equipment in the company): to a lesser extent
- consulting to find out and make use of the resources required for the final implementation of new technologies or processes in enterprises (e.g. support in scouting out and canvassing of funding options for the implementation of new technologies in a company, support in the management of licensing procedures): identification of research partners; check funding and other financial support possibilities;
- boosting acquisition of financing or funding of the defined transfer (e.g. consulting, bringing potential partners together): state and federal funding

services of the economic exploitation of innovative and economically applicable ideas

- supporting patent exploitation/ licensing (e.g. patent search; market analysis, foundation consulting)
- market launch programmes and market launch support general

services in terms of collective advancement of innovative and economically applicable ideas resp. research fields

- initiation and implementation of tools that do not follow an institutional structure (networks, discussion groups, alliances, clusters):in case of need possible
- Alternatives with respect to products and procedures; complementary applications (adapt)

geographical area of transfer activities and services

- mainly regional
- national

TARGET GROUPS

kind of organisation

- organisations offering or developing innovative ideas/ new technologies and organisations demanding for innovative ideas or new technologies : entrepreneurs with ideas

businesses of target groups

- Manufacturing
- Information and communication

number of employees of target group organisation(s)

- < 10
- 10 - 99: bis ca. 50
