Abstract	5
Average statistical analysis of the teams	5
List of JEG's team for all the schools involved in the E @ S Project	7

1. ABSTRACT

This document contains information about the boys selected for the JEG'S TEAM of all the schools involved in the Energy@school Project. Specifically, data relating to:

Name of school

Classroom

Age of students

Number of students

Name of teacher/s or reference persons for classroom

For the respect of the privacy of the young individualities involved, it was considered appropriate to omit their names.

2. AVERAGE STATISTICAL ANALYSIS OF THE TEAM

Out of a total of 47 participating schools, the distribution, in terms of age and number of components for each selected team, appears to be quite heterogeneous.

The PP1 PILOT (ITALY) is the one with the smallest number of teams but reaches the largest number of components, with 26 Guardians per team; while the PILOT PP8 (HUNGARY) is the partner that presents the team with the smallest number of participants, exactly the youngest to participate are 7 years old and form one of the PP10 Austrian team. The age of the JEG's ranges from the minimum of seven years to the maximum of 17. The age range found in the formation of the various teams ranges from 11 to 13 years.

Table 1 shows all the schools and respective countries involved in the E @ S project and the number of Junior Energy Guardians belonging to the different age ranges chosen by the schools at the time of the selection of the boys for the training of the Junior Energy Team. The table shows also the total JEG's selected for each school, the total of JEG's for each age range, and the corresponding percentage value calculated for the total number of boys involved in all participating European countries.

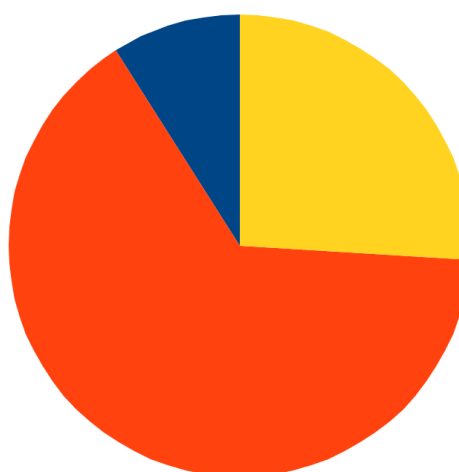

[illegible]

f Junior Energy Guardians belonging to the different age ranges chosen by the schools.

Figure 1 shows the percentage value, previously calculated and reported in the table, of the total incidence of JEG's for each age range. Selected age ranges are highlighted each with a different color and, of course, with a different area, which will vary depending on the number of guys belonging to the specific range.

PERCENTAGE VALUE OF JEG'S FOR EVERY AGE RANGE

AGE RANGE	%VALUE
■ PRIMARY SCHOOL (6-10);	9%
■ SECONDARY SCHOOL (10-14);	65%
■ HIGH SCHOOL (>14);	26%

percentage value of JEG's for every range

3. LIST OF JEG'S TEAM FOR ALL THE SCHOOL INVOLVED IN THE E @ S Project
