

Workbook for Assessing Risks and Planning Adaptation

Part 1: Choosing an assessment level and type

This document is the first part of the Workbook for the Adapt Northern Heritage tool *Risk Assessment and Adaptation Planning: Guidance on Managing the Impacts of Climate Change on Northern Historic Places*.

This Workbook should be used in conjunction with this Guidance.

This part of the Workbook should be used to start the *risk management process*.

This template was developed by the project Adapt Northern Heritage
with funding from the Interreg Programme for the Northern Periphery and Arctic.

Assessment level

Choosing between Standard and Advanced Levels

Please choose between the two assessment levels Standard and Advanced. Starting with the Standard Level is recommended. Advanced Level assessments are generally for use by experienced users and/or for complex assessments. These assessment levels are described in more detail in chapter 2 of the Guidance.

(The risk management process also offers an Advanced Plus Level. This, however, is an add-on to the Advanced Level and does not need to be considered here.)

Assessment Level to be used	
Assessment level	<input type="checkbox"/> Advanced Level <input type="checkbox"/> Standard Level

Assessment type

Singular place, group of places or place categories

Please choose one of the three assessment types: Singular place, group of places or place categories. The assessment types are described in more details in chapter 2 of the Guidance.

☐ Singular historic place

Geographic information (singular historic place)		
Name of place	Place's address	Place's extent

Once the table above has been completed, please proceed to Part 2 of the Workbook.

☐ Group of historic places

Geographic information (group of historic places)	
Name of group	
Description of group	

Historic places of the group			
Place ID	Name of place	Place's address	Place's extent
1			
2			
3			

Once the two table above have been completed, please choose one of the above-listed historic places and proceed to Part 2 of the Workbook to assess it. Once completed, another place can be assessed, if required.

☐ Place categories

Geographic information (place categories)	
Name of assessment	
Description of assessment	

Place categories in assessment		
Place ID	Name of category	Description of category
1		
2		
3		

Please read as of now the term *place category* whenever the term *historic place* is stated.

Once the two table above have been completed, please choose one of the above-listed place categories and proceed to Part 2 of the Workbook to assess it. (Once that assessment is complete, another category can be assessed, if required.)
