Interviews with children. Latvian experience

Conducts:

- Day center for children with disability
 - Specialist needs to explain pictures;
 - Playing time 30-40 minutes;
 - Sometimes Russian children choose to play game in English, not in Latvian;
 - Sometimes don't separate preferred from real;
 - Tehnicaly they can play game very fast, but need to think about their daily activities;
 - If they don't know answer or don't want to think about it, they choose a basket «sometimes»;
 - Some of children want to choose false answers in order to raise selfesteem, some are very honest with answers.

Conducts:

- Day center for children from low-income family:
 - Most of them wants to play very quickly, without going into details;
 - Specialist needs to control the game proces;
 - Stays nervios in some parts; (some about nutrition part, because they don't know many products, but don't want to show it, some about Wellness because they are afraid to reveal the truth of family circumstances);
 - Don't want to read explanations;
 - Playing time arround 20 minutes.

Children attitude

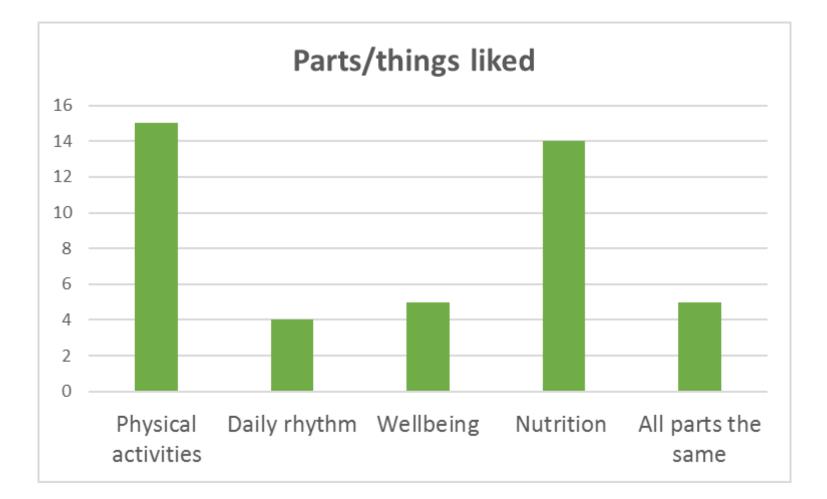

- Day center for children with disability:
 - like interactive lessons;
 - concern seriously to game;
 - enjoy the game.
- Day center for children from low-income family:
 - some children want to play game fast, don't want to think very much about game. Don't want to read pictures information;
 - some concern seriosly to game, some don't.

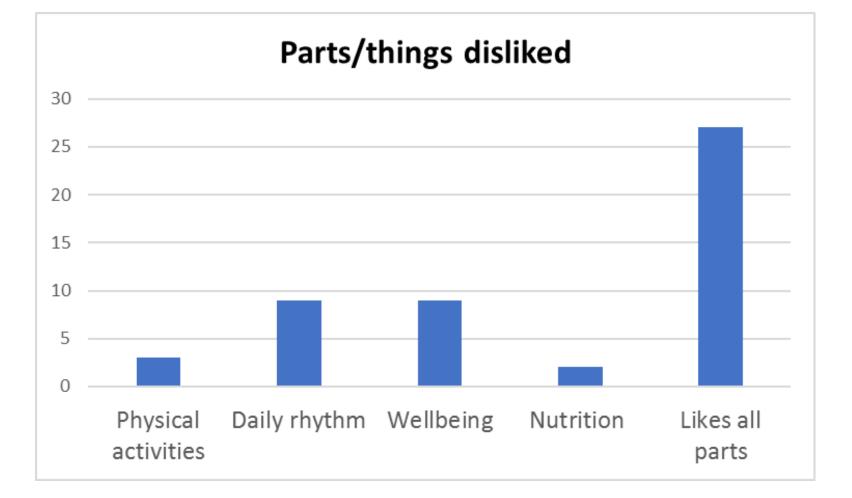

Resulting from the game

- thinking about their lifestyle, sometimes for the first time;
- a better understanding of their daily habits;
- associating game with teacher recommendations;
- a better understanding about healthy lifestyle.

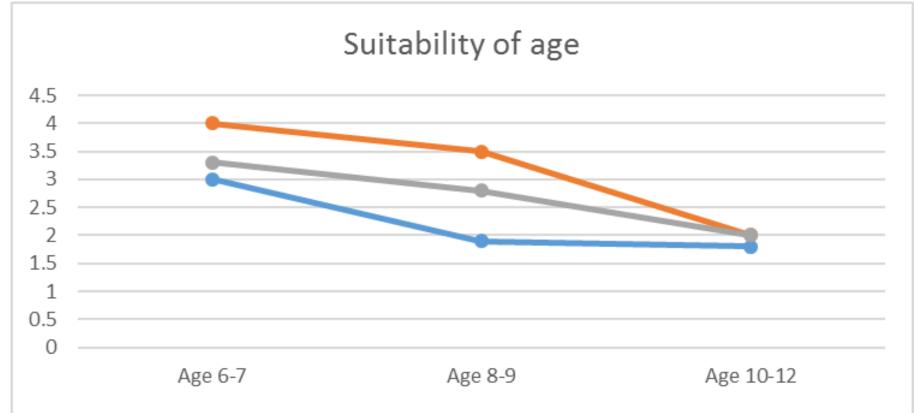

2. I found this app unnecessarily complex.

Some children conclusions:

- I liked this game.
- A normal, funny game.
- I would like to have more levels.
- More parts could be added.
- An interesting game.
- In Daily rhythm part need to add more baskets, like «weekends» or «sometimes» or «seasonal».

Thank you!
