

Information material. 1 December 2016

On 1 December 2016 Professor Igor Kabashkin (Transport and Telecommunication Institute) visited Daugavpils college, which has professional programmes in railway. Daugavpils is the second largest city in Latvia.

Prof. Igor Kabashkin is member of Advisory Convent of Daugavpils college. He gave a lecture to college teachers about modern trends of transport development, as well as the main goals, objectives and content of the EDU-RAIL project.

Leaders of the college showed new railway training simulators as well as ultra-modern 7D virtual training class for education and training of railway professionals.

Modern 7D virtual training class
