- ✓ Further process starts
- ✓ Change

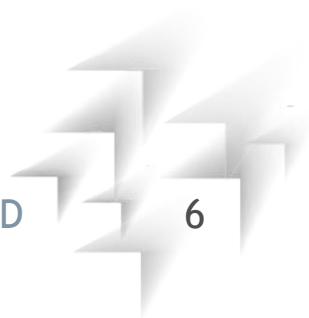

## Social, Culture, Tourism, Norms

Long tradition on theater events - identification of inhabitants

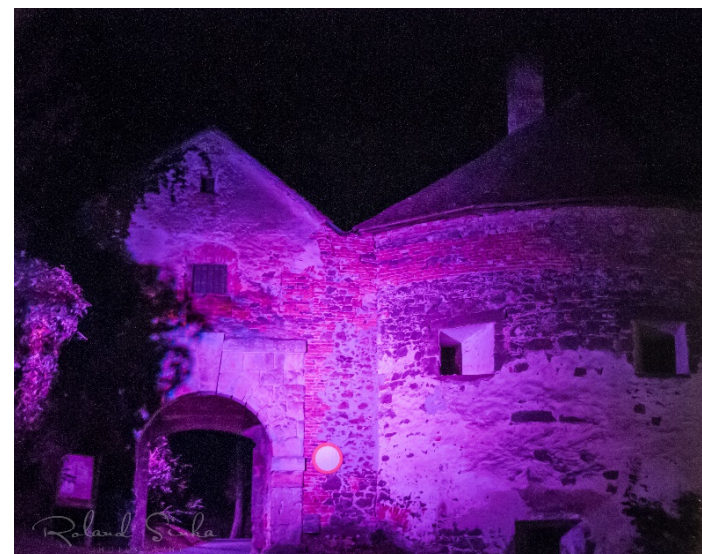

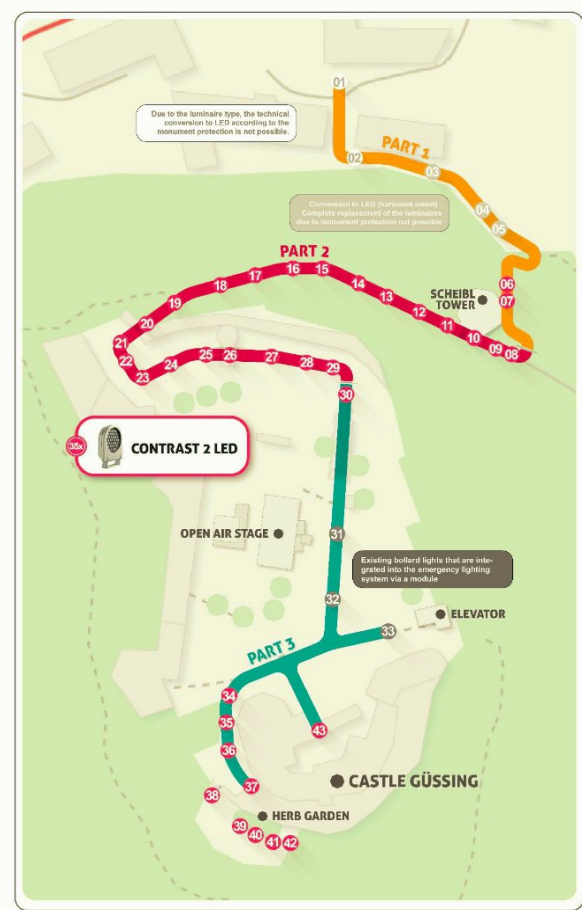

„Living room“

Museum offers history to visitors

Restaurant

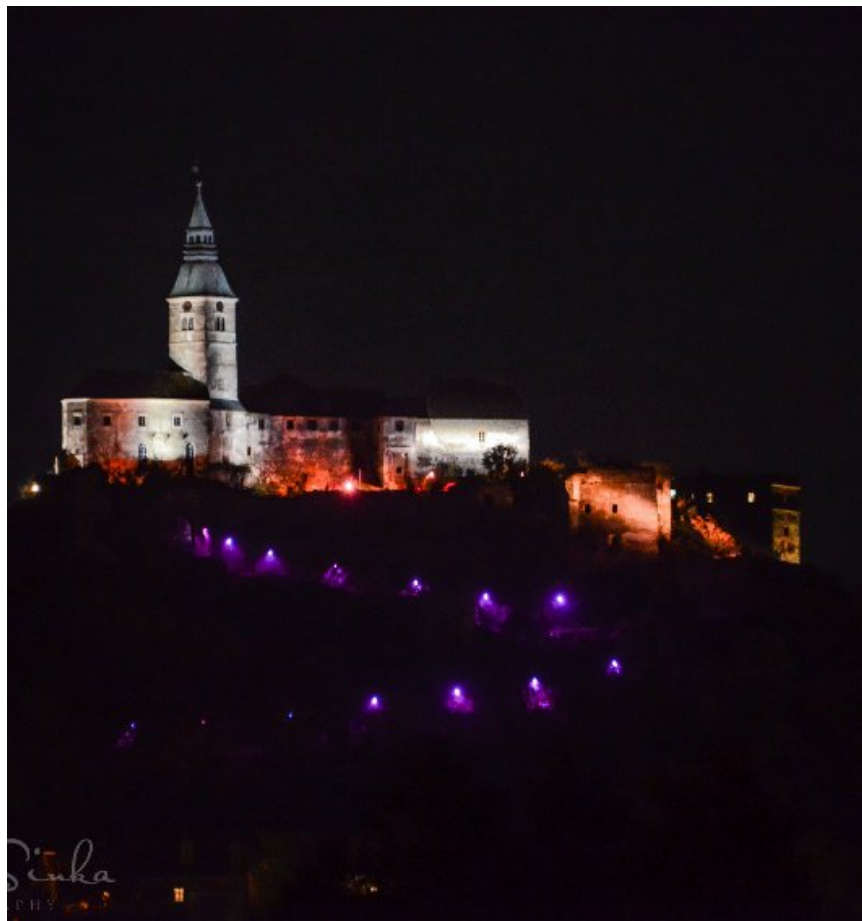

## Scheiblturm

# DYNAMIC LIGHT

A monument sees from everywhere during the night

Positiv reactions

Further discussion process starts

Added value

# LESSONS LEARNED (LL) KNOW HOW

- ✓ Pilot investment demands **engagement** and **coordination** with experts in preparatory phase and also during the implantation
- ✓ **Know How** in different fields like procurement, procurement documentation, coordination,...
- ✓ **Time for discussion** with the local inhabitants after the first implementation phase finished in June 2018 and is ongoing now
- ✓ **Strong networking** between experts like the homebased planning and implementation company, a partner with highly experienced international project management experts and the stakeholders

- ✓ Existing **regulations** on European and Austrian level influence the technical approach and the contribution to sustainable development
- ✓ Due to a small country it is easier to get in contact with experts and to receive useful information and instructions
- ✓ To join in an **international network** is very useful in the know how transfer with the results to get new inputs
- ✓ **Local training activity** in February in Güssing brought experts, members of various municipalities (majors, technicians, interested people) together

- ✓ Networking within castles in Austria
  - ✓ planning a new lightings system (Castle Schlaining, Castle Deutschlandsberg)

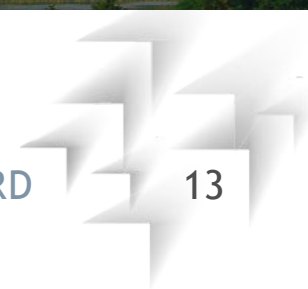

- ✓ Questions
  - ✓ Which kind of project programm is useful
  - ✓ Who are the best planner, developer, contractors,...
  - ✓ What is the situation about environment situation (concerning animals, insects, inhabitants,...)
